1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - ARIZONA, SUPPLEMENT 1

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Arizona is amended by this supplement as follows:

The definition of "RANGE LAND" in part I is amended to read as follows:

"RANGE LAND means any land other than that owned or controlled by the United States Government, or any agency thereof, in which a ranch operator has such a legal estate or interest as to give him control thereof which produces forage for range livestock without cultivation or general irrigation ten acres or more of which, on the average for the ranching unit, are required to graze one animal unit."

Part II, Section 1, is amended to read as follows:

"Section 1. General Diversion Payments. With respect to diversion farms, payment will be made for each acre diverted in 1937 from the general soil-depleting base established for the farm, not in excess of fifteen percent of such base, at an average rate for the United States of \$6.00 per acre, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States." 1/

Part IV, Section 1, first paragraph, is amended to read as follows:

"Section 1. Range-Building Practices and Rates.--Payment will be made for carrying out on range land in 1937 such of the following range-building practices as are approved by the county committee for the ranching unit prior to their institution, provided that the range-building payment with respect to any ranching unit shall not exceed the range-building allowance for such ranching unit."

Part IV, Section 1, Practice F, is amended to read as follows:

1/ The methods to be followed in determining the productivity of the cropland on the farm are contained in Western Region Bulletin No. 102.

"F. Range Fences.

For building cross fences or drift fences, constructed as follows: (a) not fewer than three tightly stretched wires, attached to posts set not more than 20 feet apart, with corner posts well braced, or (b) not fewer than three poles, or rails, nailed, with nails not smaller than 40-penny spikes, to posts or jacks spaced not more than 18 feet apart; all posts, poles, rails, and jacks to be good and sound."

\$0.30
per rod

Part IV, Section 1, is amended by adding the following range-building practices at the end thereof:

"J. Natural Reseeding by Deferred Grazing.

\$0.35 per
animal
unit for
each full
month.

Payment will be made for withholding range land from grazing for the period (from the start of forage growth to seed maturity) established by the State Committee, at the rate of 35 cents per full month of such period for each animal unit of that number of animal units, not in excess of 25 percent of the grazing capacity, which is the same percentage of the grazing capacity of the ranching unit as the acreage upon which grazing is deferred is of the total acreage of range land in the ranching unit. Payment will not be made for this practice (1) if the operator permits the remainder of the range land in the ranching unit to be grazed to an extent that causes deterioration of such range land, and (2) if the deferred grazing is carried out on range land in the ranching unit which normally is not used for grazing during such period."

"K. Mountain Meadow Land Practices in Counties Designated under Section 2 of this Part IV.**1. Reseeding Mountain Meadow Land.**

\$0.20 per
pound of
seed sown,
but not
in excess
of \$2.00
per acre.

For reseeding mountain meadow land with good seed of adapted varieties of the following perennial grasses and legumes or mixtures thereof, brome grass, red top, timothy, alsike clover, meadow fescue, medium red clover, and such other perennial grasses and legumes, except alfalfa, or mixtures thereof as are recommended by the State committee and approved by the Director of the Western Division.

2. Earthen Dams for Erosion Control on Mountain Meadows.

\$0.15 per
cubic
yard of
fill but
not in ex-
cess of
\$50.00 for
each dam.

For constructing, according to specifications recommended by the State committee and approved by the Director of the Western Division, earthen dams for the exclusive purpose of diverting flood water of intermittent streams to prevent soil erosion on mountain meadow land."

Part IV, Section 2, is amended to read as follows:

"Section 2. Range-Building Allowance.--The range-building allowance for any ranching unit shall be equal to \$1.50 times the grazing capacity thereof, plus, in the case of certain mountain counties designated by the Director of the Western Division, 40¢ times the number of acres of mountain meadow land in the ranching unit from which hay is normally harvested for feeding on the ranching unit to range livestock owned by the operator of the ranching unit. The mountain counties designated by the Director of the Western Division for the purposes of this section shall be those counties for which, upon the basis of the recommendations of the county and State committees, he determines the mountain meadow land practices specified in Part IV of this bulletin to be necessary and effective in promoting land conservation. In determining the grazing capacity of any ranching unit with respect to which an acreage allowance for mountain meadow land may be made, the grazing capacity of such acreage of mountain meadow land shall not be considered."

Part VI, Section 4, Subsection A, is amended to read as follows:

"A. If the 1937 acreage of soil-depleting crops, except cotton, on any farm is in excess of the general soil-depleting base for the farm, a deduction shall be made from the payment which otherwise would be made with respect to such farm in an amount computed by multiplying the number of such excess acres by the rate per acre determined for the farm under section 1, Part II; Provided, however, That if the general soil-depleting base on any nondiversion farm is less than 20 acres, such deduction shall be computed only with respect to the 1937 acreage of soil-depleting crops, except cotton, in excess of 20 acres."

Part VI, Section 4, Subsection C, is amended to read as follows:

"C. If the total acreage of soil-conserving crops on any farm upon which an acreage of cotton is diverted for payment in 1937 does not equal or exceed the sum of (1) the normal soil-conserving acreage established for the farm, and (2) the acreage diverted for payment from the cotton soil-depleting base, a deduction shall be made from any payment which otherwise would be made with respect to the farm at the rate of \$3.00 for each acre by which the total acreage of soil-conserving crops on the farm in 1937 is less than such sum."

Part VI, Section 8, Paragraph B, is amended to read as follows:

"B. An application for payment may be made by an owner, share-tenant, share-cropper, ranch operator, or such other person as may be designated by the Secretary. In the event of the death, disappearance or legal incompetency of an applicant

for payment, any payment which has not been received by such applicant prior to his death, disappearance or legal incompetency and which would otherwise be made to such applicant, shall be made to the person who, under rules prescribed by the Secretary, is determined to be eligible to receive such payment."

Part VII, Section 3, is amended by adding the following at the end thereof:

- "E. The County Committee shall not establish a cotton soil-depleting base for any farm which is no longer a cotton farm and shall adjust downward the cotton soil-depleting base which might otherwise be established for any farm if it is determined that because of a change in the production practices on such farm the acreage adapted to the production of cotton is less than the cotton soil-depleting base which might otherwise have been established for such farm."
- "F. 1. The normal yield per acre of lint cotton for the farm shall be designated by the appropriate community committee, subject to such adjustment by the county committee as is necessary in order that the weighted average yield for all cotton farms in the county or other area shall not exceed the yield established for such county or other specified area by the Agricultural Adjustment Administration, unless a variance therefrom is recommended by the State Committee and approved by the Agricultural Adjustment Administration.
2. Each cotton farm covered by a work sheet shall be inspected by at least one member of the community committee, serving for the community in which the farm is located, who shall report his observations to the community committee before the yield is designated for the farm.
3. The normal yield designated for any farm shall be that yield, subject to necessary adjustments by the county committee, which the community committee finds from available facts to be the yield which could have been reasonably expected from the land devoted to the production of cotton on the farm as an average yield during the 5-year period 1928-1932. Such findings shall be examined by the county committee in the light of all available facts and recommended or modified by it accordingly. In reviewing the yields designated by the community committee the county committee shall give due consideration to the trend of yields per acre, type of soil, drainage, irrigation, erosion, production practices, general fertility of the land, and abnormal weather conditions, but the weighted average yield for all farms in the county shall not exceed the limitations prescribed.

Part VII is amended by the addition of Section 6 as follows:

"Section 6. Normal Soil-Conserving Acreage. There shall be established for each farm for which a cotton soil-depleting base is established a normal soil-conserving acreage which shall represent the acreage of all soil-conserving crops grown on the farm under normal conditions. The sum of the normal soil conserving acreages, established for all cotton farms in the county, shall not be greater than nor less than their proportionate share of the total soil conserving acreage quota for the county. The state committee shall review the total normal soil conserving acreage established for all cotton farms in the county and shall, if necessary, recommend that further adjustments be made to properly correlate the recommendations of the county committee with available statistical information.

Part VIII, Section 1, is amended to read as follows:

"Section 1. Soil-Depleting Crops. Land devoted to any of the following crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested; except as provided in Section 2 of this Part VIII with respect to nurse crops and green manure crops, and as provided in Section 3 of this Part VIII with respect to nurse crops and emergency forage crops:

- a. Small grains, including flax.
- b. Corn (field, sweet, and popcorn).
- c. Potatoes
- d. Sweetpotatoes
- e. Sugar beets.
- f. Peanuts.
- g. Root crops grown for feed.
- h. Hemp.
- i. Cultivated sunflowers.
- j. Mustard (commercial).
- k. Rape.
- l. Truck and vegetable crops and their seeds; melons and strawberries.
- m. Grain sorghums, sweet sorghums, broom corn, and Sudan grass harvested for seed, grain, or hay; or pastured.
- n. Millets.
- o. Soybeans, field beans, canning beans, cowpeas, field peas, seed peas, and canning peas harvested for seed, hay; or pastured.
- p. Cotton."

Part VIII, Section 2, first paragraph is amended to read as follows:

"Section 2. Soil-Conserving Crops -- Cropland devoted to any of the following crops in 1937 shall be regarded as used for the production of a soil-conserving crop, except that any land devoted to a soil-depleting crop in the same year (within the meaning of Section 1 of Part VIII) shall be regarded as having been used for the production of a soil-depleting crop for

such year, and except as provided in Section 3 of this Part VIII with respect to a poor stand of soil-conserving crops."

Part XI, Section 4, is amended to read as follows:

"Section 4. Determination of Class II Payments.--- The amount of Class II payment to be made to any person for carrying out approved soil-building practices shall be computed on all diversion and nondiversion farms owned or operated by such person in the county as follows:

A. For each farm multiply the number of acres devoted to an approved soil-building practice by the rate specified for such practice; multiply this result by the percentage to which the applicant is entitled, and total the amounts thus obtained.

B. Compute the applicant's share of the soil-building allowance as follows:

1. Multiply the Class I payment to the applicant for diversion from the general soil-depleting base, determined in accordance with the provisions of Section 1, Subsection D, of this Part XI, by 66.7 percent;

2. On each farm individually, determine the applicant's share of the soil-building allowance (without regard to the minimum soil-building allowance) computed in accordance with the provisions of Part III, Section 2, except that, item 2 in Subsection A of said Part and Section shall not be used in such computation.

3. To the amount obtained under item 1, above, add the amount obtained under item 2, above, and the result shall be the soil-building allowance for all farms owned or operated by the applicant in the county.

C. The amount obtained under Subsection A of this Section 4, not in excess of the soil-building allowance obtained under Subsection B of this Section 4 shall, subject to the applicable provisions of this Part XI, be the amount of the Class II payment to the applicant."

(SEAL)

IN TESTIMONY WHEREOF, H. A. Wallace,
Secretary of Agriculture, has here-
unto set his hand and caused the of-
ficial seal of the Department of
Agriculture to be affixed in the City
of Washington, District of Columbia,
this 3rd day of June, 1937.

H. A. Wallace

Secretary of Agriculture.

UNITED STATES DEPARTMENT OF AGRICULTURE
AGRICULTURAL ADJUSTMENT ADMINISTRATION
WESTERN DIVISION

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - CALIFORNIA, SUPPLEMENT 1

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - California is amended by this supplement as follows:

Part I, definition of "RICE SOIL-DEPLETING BASE" is amended to read as follows:

"RICE SOIL-DEPLETING BASE on a farm means the number of acres allocated to the farm for the production of rice in 1937."

The definition of "RANGE LAND" in part I is amended to read as follows:

"RANGE LAND means any land other than that owned or controlled by the United States Government, or any agency thereof, in which a ranch operator has such a legal estate or interest as to give him control thereof which produces forage for range livestock without cultivation or general irrigation ten acres or more of which, on the average for the ranching unit, are required to graze one animal unit."

Part I, definition of "DIVERSION FARM" is amended to read as follows:

"DIVERSION FARM" means any general diversion farm or any farm with respect to which a cotton soil-depleting base is established, and, for the purpose of computing the soil-building allowance but for no other purpose, any farm with respect to which a rice soil-depleting base is established."

Part II, Section 1, is amended to read as follows:

"Section 1. General Diversion Payments. With respect to diversion farms, payment will be made for each acre diverted in 1937 from the general soil-depleting base established for the farm, not in excess of fifteen percent of such base, at an average rate for the United States of \$6.00 per acre, varying among individual farms

as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States. 1/"

Part III, Section 1, Practice H, Items 3, 4, and 5 are amended and Item 6 is added, to read as follows:

- "3. Volunteer cover and green manure crops when grown in 1937 on cropland which was seeded to a soil-depleting crop for harvest in 1936 if a stand equivalent to a seeded cover crop is turned under after attaining height and growth equivalent to a seeded cover crop; provided, the crop is not pastured and no soil-depleting crop is seeded for harvest in 1937 on such cropland." \$1.00 per acre
- "4. Volunteer cover and green manure crops when grown in 1937 in grain stubble, if a good stand and growth equivalent to a seeded cover crop is turned under in 1937; provided, the stubble may have been pastured but not plowed or burned following the harvest of the soil-depleting crop, and no soil-depleting crop is seeded in 1937 on such cropland." \$0.50 per acre
- "5. Planned volunteer cover and green manure crops consisting of mustards - white, black, trieste; white malva; giant amaranthus, annual legumes and mixtures thereof, and such other crops as are approved by the Director of the Western Division, when grown in 1937 in commercial orchards and other perennial plantings including hops, asparagus and artichokes, if a stand equivalent to a seeded crop is turned under prior to June 1, 1937; provided, the volunteer growth is the result of practices followed in previous years of allowing the seed of such crops to mature and reseed before turning under." \$1.50 per acre
- "6. Small grains, including rye, oats, barley and grain mixtures, and such other small grains as are approved by the Director of the Western Division, (a) when seeded on cropland or inter-planted in orchards or vineyards if turned under in 1937 during or prior to the blooming stage without pasturing or, if pastured and turned \$1.00 per acre

1/ The methods to be followed in determining the productivity of the cropland on the farm are contained in Western Region Bulletin No. 102.

under, shall have attained at least 60 days' growth before pasturing and 30 days' growth after pasturing before turned under, or (b) when interplanted in orchards or vineyards if clipped provided the clippings are not raked or removed from the land where grown, either mechanically or by pasture."

Part III, Section 1, Practice J is amended to read as follows:

"J. Addition of Organic Matter.

In orchards, vineyards and other perennial plantings including hops, artichokes, and asparagus.

- | | |
|------------------------------------------------------------------------------------------------------------|------------------------------------------------------------|
| 1. For the application and mechanical incorporation of legume straw into the surface soil in 1937. | \$0.75 per ton, dry weight, not to exceed \$3.75 per acre. |
| 2. For the application and mechanical incorporation of non-leguminous straw into the surface soil in 1937. | \$0.50 per ton, dry weight, not to exceed \$2.50 per acre. |
| 3. For the application and mechanical incorporation of grape pomace into the surface soil in 1937." | \$0.75 per ton not to exceed \$3.75 per acre. |

Part III, Section 1, Practice K, Items 2 and 3 are amended to read as follows:

"2. When species of forest trees approved by the State committee are planted in 1937 in rows as windbreaks for citrus or deciduous fruit orchards in Imperial, Los Angeles, Orange, Riverside, San Bernardino, San Diego, Santa Barbara, and Ventura Counties, if the trees are irrigated periodically after planting, and the interspaces are cultivated often enough to control volunteer growth, as follows:

- | | |
|--------------------------------------------------------------------------------------------------------------------|--------------------|
| a. In single rows, if the trees are spaced not more than 5 feet apart in single rows not less than 330 feet apart. | \$0.25 per rod-row |
|--------------------------------------------------------------------------------------------------------------------|--------------------|

- b. In double rows, if the trees are spaced not more than 8 feet apart in rows not more than 8 feet apart with double rows not less than 330 feet apart." \$0.35 per rod of double row
- "3. When rye, wheat, barley, corn, sorghums, Sudan grass, sunflowers, castor beans, and such other annual plants as are approved by the Director of the Western Division are grown in 1937 in strips not less than 4 feet in width on cropland to prevent soil drifting on adjoining cropland, if such crops are not harvested for grain, hay, or pastured in 1937." \$0.01 per linear rod, not to exceed \$0.30 per acre of alternate strips and crops.

Part IV, Section 1, first paragraph is amended to read as follows:

"Section 1. Range-Building Practices and Rates. Payment will be made for carrying out on range land in 1937 such of the following range-building practices as are approved by the county committee for the ranching unit prior to their institution, provided that the range-building payment with respect to any ranching unit shall not exceed the range-building allowance for such ranching unit."

Part IV, Section 1, Practice D is amended to read as follows:

"D. Range Fences.

For building cross fences or drift fences, constructed as follows: (a) not fewer than three tightly stretched wires, attached to posts set not more than 20 feet apart, with corner posts well braced, or (b) not fewer than three poles, or rails, nailed, with nails not smaller than 40-penny spikes, to posts or jacks spaced not more than 18 feet apart; all posts, poles, rails, and jacks to be good and sound, provided, that on land where conditions are such that posts cannot be set regularly at the distances apart designated herein, the posts may be set not more than 30 feet apart with stays not more than 7 1/2 feet apart placed in the intervening spaces." \$0.30 per rod

Part IV, Section 1, Practice E, Items 1 and 2 are amended to read as follows:

- | | |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------|
| <p>"1. Crested Wheat Grass provided such range land is used exclusively in 1937 for the grazing of range livestock.</p> | <p>\$0.20 per pound of seed sown.</p> |
| <p>2. Western Rye, Harding, Orchard, Meadow Fescue, Tall Oat, grama and red top grasses, or mixtures thereof, provided such range land is used exclusively in 1937 for the grazing of range livestock."</p> | <p>\$0.15 per pound of seed sown.</p> |

Part IV, Section 1, is amended by adding the following range-building practice at the end thereof.

"J. Mountain Meadow Land Practices in Counties Designated under Section 2 of this Part IV.

1. Reseeding Mountain Meadow Land.

<p>For reseeding mountain meadow land with good seed of adapted varieties of the following perennial grasses and legumes or mixtures thereof, brome grass, red top, timothy, alsike clover, meadow fescue, medium red clover, and such other perennial grasses and legumes, except alfalfa, or mixtures thereof as are recommended by the State Committee and approved by the Director of the Western Division.</p>	<p>\$0.20 per pound of seed sown, but not in excess of \$2.00 per acre.</p>
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------

2. Earthen Dams for Erosion Control on Mountain Meadows.

<p>For constructing, according to specifications recommended by the State Committee and approved by the Director of the Western Division, earthen dams for the exclusive purpose of diverting flood water of intermittent streams to prevent soil erosion on mountain meadow land."</p>	<p>\$0.15 per cubic yard of fill but not in excess of \$50.00 for each dam.</p>
-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------

Part IV, Section 2, is amended to read as follows:

"Section 2. Range-Building Allowance. -- The range-building allowance for any ranching unit shall be equal to \$1.50 times the grazing capacity thereof, plus, in the case of certain mountain counties designated by the Director of the Western Division, 40¢ times the number of acres of mountain meadow land in the ranching unit from which hay is normally harvested for feeding on the ranching unit to range livestock owned by the operator of the ranching unit. The mountain counties designated by the

Director of the Western Division for the purposes of this section shall be those counties for which, upon the basis of the recommendations of the county and State committees, he determines the mountain meadow land practices specified in Part IV of this bulletin to be necessary and effective in promoting land conservation. In determining the grazing capacity of any ranching unit with respect to which an acreage allowance for mountain meadow land may be made, the grazing capacity of such acreage of mountain meadow land shall not be considered."

Part VI, Section 4, Subsection A, is amended to read as follows:

"A. If the 1937 acreage of soil-depleting crops, except cotton and rice, on any farm is in excess of the general soil-depleting base for the farm, a deduction shall be made from the payment which otherwise would be made with respect to such farm in an amount computed by multiplying the number of such excess acres by the rate per acre determined for the farm under Section 1, Part II; Provided, however, That if the general soil-depleting base on any non-diversion farm is less than 20 acres, such deduction shall be computed only with respect to the 1937 acreage of soil-depleting crops, except cotton and rice, in excess of 20 acres."

Part VI, Section 4, Subsection C, is amended to read as follows:

"C. If the total acreage of soil-conserving crops on any farm upon which cotton is diverted for payment in 1937 does not equal or exceed the sum of (1) the normal soil-conserving acreage established for the farm, and (2) the acreage diverted for payment from the cotton soil-depleting base, a deduction shall be made from any payment which otherwise would be made with respect to the farm at the rate of \$3.00 for each acre by which the total acreage of soil-conserving crops on the farm in 1937 is less than such sum."

Part VI, Section 8, Subsection B, is amended to read as follows:

"B. An application for payment may be made by an owner, share-tenant, share-cropper, ranch operator, or such other person as may be designated by the Secretary. In the event of the death, disappearance or legal incompetency of an applicant for payment, any payment which has not been received by such applicant prior to his death, disappearance or legal incompetency and which would otherwise be made to such applicant, shall be made to the person who, under rules prescribed by the Secretary, is determined to be eligible to received such payment."

Part VII, Section 2, is amended by adding the following at the end thereof:

"E. The County Committee shall not establish a cotton soil-depleting base for any farm which is no longer a cotton farm and shall adjust downward the cotton soil-depleting base which might otherwise be established for any farm if it is determined that because of a change in the production practices on such farm the acreage adapted to the production of cotton is less than the cotton soil-depleting base which might otherwise have been established for such farm."

"F. 1. The normal yield per acre of lint cotton for the farm shall be designated by the appropriate community committee, subject to such adjustment by the county committee as is necessary in order that the weighted average yield for all cotton farms in the county or other area shall not exceed the yield established for such county or other specified area by the Agricultural Adjustment Administration, unless a variance therefrom is recommended by the State Committee and approved by the Agricultural Adjustment Administration.

2. Each cotton farm covered by a work sheet shall be inspected by at least one member of the community committee, serving for the community in which the farm is located, who shall report his observations to the community committee before the yield is designated for the farm.

3. The normal yield designated for any farm shall be that yield, subject to necessary adjustments by the county committee, which the community committee finds from available facts to be the yield which could have been reasonably expected from the land devoted to the production of cotton on the farm as an average yield during the 5-year period 1928-1932. Such findings shall be examined by the county committee in the light of all available facts and recommended or modified by it accordingly. In reviewing the yields designated by the community committee the county committee shall give due consideration to the trend of yields per acre, type of soil, drainage, irrigation, erosion, production practices, general fertility of the land, and abnormal weather conditions, but the weighted average yield for all farms in the county shall not exceed the limitations prescribed."

Part VII is amended by adding the following new sections:

"Section 7. Normal Soil-Conserving Acreage. There shall be established for each farm for which a cotton soil-depleting base is established a normal soil-conserving acreage which shall represent the acreage of all soil-conserving crops grown on the farm under normal conditions. The sum of the normal soil-conserving acreages, established for all cotton farms in the county, shall not be greater than nor less than their proportionate share of the total soil-conserving acreage quota for the county. The state committee shall review the total normal soil-conserving acreage established for all cotton farms in the county and shall, if necessary, recommend that further adjustments be made to properly correlate the recommendations of the county committee with available statistical information."

"Section 8. Rice Base Acreage, Base Production, and Domestic Consumption Quota. The total rice base acreage, rice base production and domestic consumption quota for all farms in California shall not exceed 103,000 acres, 2,928,765 bags, and 2,833,311 bags, respectively. The rice base acreage and the rice base production of any producer in 1937 shall be the rice base acreage and the rice base production, respectively, which was established or which could have been established for such producer under the procedure prescribed with reference to the 1936 Agricultural Conservation Program, and shall be subject to such adjustments as are provided for therein. The domestic consumption quota for any producer shall be 96.73 percent of such producer's rice base production."

Part VIII, Section 1, is amended to read as follows:

"Section 1. Soil-Depleting Crops.---Land devoted to any of the following uses or crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested, except as provided in Section 2 of this Part VIII with respect to nurse crops, cover and green manure crops and volunteer grain for pasture:

- a. Corn (field, sweet, and popcorn).
- b. Potatoes.
- c. Sweetpotatoes and yams.
- d. Sugar beets for sugar or seed.
- e. Cultivated sunflowers.
- f. Annual truck, canning, and vegetable crops, and their seeds.
- g. Melons.
- h. Sorghums, including Sudan grass, milo maize, Egyptian corn, broom corn, and other grain and sweet sorghums, for seed, grain, hay, or pasture.
- i. Small grains including flax for grain or hay; or pasture.

- 9 -

- j. Millets.
- k. Soybeans, field beans, cowpeas, field peas, and seed peas, for grain, hay, pasture, or canning purposes.
- l. Root crops grown for feed or seed.
- m. Cotton.
- n. Rice.
- o. Fiber plants including hemp.
- p. Commercial mustard.
- q. Tobacco.
- r. Annual cut flowers and their seeds.
- s. Peanuts.
- t. Volunteer grains when cut for hay or grain."

Part VIII, Section 2 is amended by striking out the word "Land" immediately following the title, "Soil-Conserving Crops", and by substituting in lieu thereof the word "Cropland".

Part XI, Section 4, is amended to read as follows:

"Section 4. Determination of Class II Payments. The amount of class II payment to be made to any person for carrying out approved soil-building practices shall be computed on all diversion and nondiversion farms owned or operated by such person in the county as follows:

A. For each farm multiply the number of acres devoted to an approved soil-building practice by the rate specified for such practice; multiply this result by the percentage to which the applicant is entitled, and total the amounts thus obtained.

B. Compute the applicant's share of the soil-building allowance as follows:

1. Multiply the class I payment to the applicant for diversion from the general soil-depleting base, determined in accordance with the provisions of Section 1, Subsection D, of this part XI, by 66.7 percent;

2. On each farm individually, determine the applicant's share of the soil-building allowance (without regard to the minimum soil-building allowance) computed in accordance with the provisions of part III, Section 2, except that, item 2 in Subsection A of said part and Section shall not be used in such computation;

3. To the amount obtained under item 1, above, add the amount obtained under item 2, above, and the result shall be the soil-building allowance for all farms owned or operated by the applicant in the county.

C. The amount obtained under subsection A of this section 4, not in excess of the soil-building allowance obtained under subsection B of this section 4 shall, subject to the applicable provisions of this part XI, be the amount of the class II payment to the applicant."

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - COLORADO, SUPPLEMENT 1

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Colorado is amended by this supplement as follows:

The definition of "RANGE LAND" in part I is amended to read as follows:

"RANGE LAND means any land other than that owned or controlled by the United States Government, or any agency thereof, in which a ranch operator has such a legal estate or interest as to give him control thereof which produces forage for range livestock without cultivation or general irrigation, ten acres or more of which, on the average for the ranching unit, are required to graze one animal unit."

Part III, Section 1, first paragraph, is amended to read as follows:

"Section 1. Soil-Building Practices and Rates.-- Payment will be made for carrying out on cropland or on non-crop pasture land in 1937 any of the soil-building practices listed below, provided that the soil-building payment with respect to any farm shall not exceed the soil-building allowance for the farm. The soil-building practices prescribed in this section shall not be eligible for payment unless such practices are carried out in a locality where, in the determination of the State committee, such practices are desirable from the standpoint of agricultural conservation and are carried out in conformity with methods generally recognized as desirable for the locality, and which tend to effectuate the purposes of the 1937 Agricultural Conservation Program. Payments will not be made for more than one practice carried out on the same acreage except that payments will be made for practices prescribed in Item A, Item B, Item C, Item D, or Item E of Section 1, in addition to the practices prescribed in Item G, or Item K."

Part III, Section 1, Practice J, is amended to read as follows:

- "J. Addition of organic material in the form of hay or straw, in commercial orchards and vineyards at a rate of not less than 5 tons per acre, between February 1, 1937, and October 31, 1937, provided such organic material is mechanically incorporated into the soil." \$5.00 per acre

Part III, Section 1, is amended by changing Practice M-1 and M-2 to read as follows:

"1. Controlled Summer Fallow on Non-Irrigated Land.

- a. Controlled summer fallowing when tilled in such manner and with such implements as will result in minimum of wind and water erosion, by creating and maintaining a rough-cloddy surface reasonably free from volunteer growth. First tillage operation to be performed prior to June 15, 1937. \$1.00 per acre
- b. Controlled summer fallow, in accordance with the provisions of Item M-1-a, when listed on the contour with lister furrows not more than 4 feet apart nor less than 4 inches in depth or when listed with dams in the lister furrow not more than 16 feet apart, and in accordance with specifications recommended by the State committee and approved by the Director of the Western Division. \$1.50 per acre

"2. Establishment of Strip Cropping and Fallow.

- a. Fallow strips (two or more strips of fallow) shall be not less than five rods nor more than 20 rods in width, with intervening strips of small grain crops, sorghum or Sudan grass broadcast or in rows not more than 28 inches apart, or small grain stubble, provided, however, at least one-third the area is covered by strips of crop or small grain stubble. Payment will not be made for this practice if there is planted in 1937 a fall seeded crop of rye or wheat on the strips devoted in 1937 to crops or small grain stubble. The first tillage operation must be completed before June 15, 1937, strips to be approximately at right angles to the prevailing winds. Payment will be made on the acreage of fallow or the acreage devoted to crop (or stubble), whichever is the smaller, and only with respect to the acreage of strip cropping and fallow which is in addition to the acreage used for that practice in 1936. \$1.00 per acre

b. Combination of Practices M-1 and M-2-a."

\$2.00
per acre

Part III, Section 1, is amended by changing Practice M-6 to read as follows and by adding the following practice M-7:

- "6. Planting of cover crops to control wind erosion: Sudan grass or millet or sweet sorghums when planted in rows not greater than 42 inches apart or any sorghum or Sudan grass or millet when close drilled or broadcast; provided, however, that no portion of the crop is harvested or pastured in any manner whatsoever. The county committee shall approve this practice only when the prior approval of the community committee has been obtained." \$2.00 per acre
- "7. Contour farming on cropland in 1937, when small grain or intertilled crops are planted or seeded on the contour, provided, however, the slopes are in excess of two percent." \$0.60 per acre

Part IV, Section 1, first paragraph, is amended to read as follows:

"Section 1. Range-Building Practices and Rates.---Payment will be made for carrying out on range land in 1937 such of the following range-building practices as are approved by the county committee for the ranching unit prior to their institution, provided that the range-building payment with respect to any ranching unit shall not exceed the range-building allowance for such ranching unit."

Part IV, Section 1, Practice F, is amended to read as follows:

- "F. Range Fences. For building cross fences or drift fences, constructed as follows: (a) not fewer than three tightly stretched wires, attached to posts set not more than 20 feet apart, with corner posts well braced, or (b) not fewer than three poles, or rails, nailed, with nails not smaller than 40-penny spikes, to posts or jacks spaced not more than 18 feet apart; all posts, poles, rails, and jacks to be good and sound." \$0.30 per rod

Part IV, Section 1, is amended by adding the following range-building practice at the end thereof:

- "J. Mountain Meadow Land Practices in Counties Designated under Section 2 of this Part IV.

1. Reseeding Mountain Meadow Land. For reseeding mountain meadow land with good seed of adapted varieties of the following perennial grasses and legumes or mixtures thereof, brome grass, red top, timothy, alsike clover, meadow fescue, medium red clover, and such other perennial grasses and legumes, except alfalfa, or \$0.20 per pound of seed sown, but not in excess of

mixtures thereof as are recommended by the State Committee and approved by the Director of the Western Division.

\$2.00 per acre.

2. Earthen Dams for Erosion Control on Mountain Meadows. For constructing, according to specifications recommended by the State committee and approved by the Director of the Western Division, earthen dams for the exclusive purpose of diverting flood water of intermittent streams to prevent soil erosion on mountain meadow land."

\$0.15 per cubic yard of fill, but not in excess of \$50.00 for each dam.

Part IV, Section 2, is amended to read as follows:

"Section 2. Range Building Allowance.--The range building allowance for any ranching unit shall be equal to \$1.50 times the grazing capacity thereof, plus, in the case of certain mountain counties designated by the Director of the Western Division, 40¢ times the number of acres of mountain meadow land in the ranching unit from which hay is normally harvested for feeding on the ranching unit to range livestock owned by the operator of the ranching unit. The mountain counties designated by the Director of the Western Division for the purposes of this section shall be those counties for which, upon the basis of the recommendations of the county and State committees, he determines the mountain meadow land practices specified in Part IV of this bulletin to be necessary and effective in promoting land conservation. In determining the grazing capacity of any ranching unit with respect to which an acreage allowance for mountain meadow land may be made, the grazing capacity of such acreage of mountain meadow land shall not be considered."

Part VI, Section 8, Paragraph B, is amended to read as follows:

- "B. An application for payment may be made by an owner, share-tenant, share-cropper, ranch operator, or such other person as may be designated by the Secretary. In the event of the death, disappearance or legal incompetency of an applicant for payment, any payment which has not been received by such applicant prior to his death, disappearance or legal incompetency and which would otherwise be made to such applicant, shall be made to the person who, under rules prescribed by the Secretary, is determined to be eligible to receive such payment."

Part VIII, Section 1, is amended to read as follows:

"Section 1. Soil-Depleting Crops.--Land devoted to any of the following crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested; except as provided in Section 2 of this Part VIII with respect to nurse crops, and as provided in Section 3 of this Part VIII, with respect to emergency forage crops, and winter pasture crops, and

sorghums, Sudan grass, or millets grown in 1937 on designated wind erosion acreage.

- a. Small grains including flax.
- b. Corn (field, sweet, and popcorn).
- c. Potatoes.
- d. Sugar beets.
- e. Root crops grown for feed.
- f. Cultivated sunflowers.
- g. Mustard (commercial).
- h. Rape.
- i. Truck and vegetable crops and their seed, melons and strawberries.
- j. Grain sorghums, sweet sorghums, broom corn, and Sudan grass harvested for seed, grain, hay, or pastured.
- k. Millets.
- l. Soybeans, field beans, canning beans, cowpeas, field peas, seed peas, and canning peas, harvested for grain, seed, or hay."

Part VIII, Section 2 is amended by striking out the word "Land" immediately following the title, "Soil-Conserving Crops", and by substituting in lieu thereof the word "Cropland."

Part VIII, Section 3, item f, is amended to read as follows:

- "f. Small grains seeded as a winter cover crop and pastured, but not harvested for grain or hay."

Part VIII, Section 3, is amended by adding item g to read as follows:

- "g. Sorghums, Sudan grass, or millets grown in 1937 on designated wind erosion acreage in accordance with the provisions for carrying out approved wind erosion control practices on such acreage."

Part XI, Section 3, is amended to read as follows:

"Section 3. Determination of Class II Payments.--The amount of class II payment to be made to any person for carrying out approved soil-building practices shall be computed on all diversion and nondiversion farms owned or operated by such person in the county as follows:

A. For each farm multiply the number of acres devoted to an approved soil-building practice by the rate specified for such practice; multiply this result by the percentage to which the applicant is entitled, and total the amounts thus obtained.

B. Compute the applicant's share of the soil-building allowance as follows:

1. Multiply the class I payment to the applicant for diversion from the general soil-depleting base, determined in accordance with the provisions of Section 1, Subsection D, of this Part XI, by 66.7 percent;

2. On each farm individually, determine the applicant's share of the soil-building allowance (without regard to the minimum soil-building allowance) computed in accordance with the provisions of Part III, Section 2, except that, item 2 in Subsection A of said part and section shall not be used in such computation.

3. To the amount obtained under item 1, above, add the amount obtained under item 2, above, and the result shall be the soil-building allowance for all farms owned or operated by the applicant in the county.

C. The amount obtained under subsection A of this section 3, not in excess of the soil-building allowance obtained under subsection B of this section 3 shall, subject to the applicable provisions of this part XI, be the amount of the class II payment to the applicant.

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - IDAHO, SUPPLEMENT 1

JUL 27 1937

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Idaho is amended by this supplement as follows:

The definition of "RANGE LAND" in part I is amended to read as follows:

"RANGE LAND means any land other than that owned or controlled by the United States Government, or any agency thereof, in which a ranch operator has such a legal estate or interest as to give him control thereof which produces forage for range livestock without cultivation or general irrigation ten acres or more of which, on the average for the ranching unit, are required to graze one animal unit."

Part III, Section 1, Practice O, Item 1, is amended to read as follows:

- "1. Gypsum, in Northern Idaho counties of Boundary, Bonner, Kootenai, Benewah, Shoshone, Latah, Clearwater, Idaho, Lewis, and Nez Perce, when applied to cropland in 1937, in an amount not less than 200 pounds per acre and in connection with new seedings of legumes or legume-grass mixtures." \$2.00 per acre

Part IV, Section 1, first paragraph, is amended to read as follows:

"Section 1. Range-Building Practices and Rates.--- Payment will be made for carrying out on range land in 1937 such of the following range-building practices as are approved by the county committee for the ranching unit prior to their institution, provided that the range-building payment with respect to any ranching unit shall not exceed the range-building allowance for such ranching unit."

Part IV, Section 1, Practice F, is amended to read as follows:

"F. Range Fences.

For building cross fences or drift fences, constructed as follows: \$0.30
(a) not fewer than three tightly stretched wires, attached to posts per rod set not more than 20 feet apart, with corner posts well braced, or
(b) not fewer than three poles, or rails, nailed, with nails not smaller than 40-penny spikes, to posts or jacks spaced not more than 18 feet apart; all posts, poles, rails, and jacks to be good and sound."

Part IV, Section 1, Practice J, is amended to read as follows:

"J. Railing Sagebrush.

For destroying sagebrush by use of railroad rails or by other mechanical methods that result in the destruction of at least 75 percent of the sagebrush cover. Payment for this practice will not be made unless either range-building practice H or K of this Section I of Part IV is also carried out on the acreage on which sagebrush has been railed." \$0.50 per acre

Part IV, Section 1, is amended by adding the following range-building practice at the end thereof:

"I. Mountain Meadow Land Practices in Counties Designated under Section 2 of this Part IV.

1. Reseeding Mountain Meadow Land.

For reseeding mountain meadow land with good seed of adapted varieties of the following perennial grasses and legumes or mixtures thereof, brome grass, red top, timothy, alsike clover, meadow fescue, medium red clover, and such other perennial grasses and legumes, except alfalfa, or mixtures thereof as are recommended by the State committee and approved by the Director of the Western Division. \$0.20 per pound of seed sown, but not in excess of \$2.00 per acre.

2. Earthen Dams for Erosion Control on Mountain Meadows. For constructing, according to specifications recommended by the State committee and approved by the Director of the Western Division, earthen dams for the exclusive purpose of diverting flood water of intermittent streams to prevent soil erosion on mountain meadow land." \$0.15 per cubic yard of fill, but not in excess of \$50.00 for each dam.

Part IV, Section 2, is amended to read as follows: "Section 2. Range-Building Allowance.---The range-building allowance for any ranching unit shall be equal to \$1.50 times the grazing capacity thereof, plus, in the case of certain mountain counties designated by the Director of the Western Division, 40¢ times the number of acres of mountain meadow land in the ranching unit from which hay is normally harvested for feeding on the ranching unit to range livestock owned by the operator of the ranching unit. The mountain counties designated by the Director of the Western Division for the purposes of this section shall be those counties for which, upon the basis of the recommendations of the county and State committees, he determines the mountain meadow land practices specified in Part IV of this bulletin to be necessary and effective in promoting land conservation. In determining the grazing capacity of any ranching unit with respect to which an acreage allowance for mountain meadow land may be made, the grazing capacity of such acreage of mountain meadow land shall not be considered."

Part VI, Section 8, Subsection B, is amended to read as follows:

"B. An application for payment may be made by an owner, share-tenant, share-cropper, ranch operator, or such other person as may be designated by the

Secretary. In the event of the death, disappearance or legal incompetency of an applicant for payment, any payment which has not been received by such applicant prior to his death, disappearance or legal incompetency and which would otherwise be made to such applicant, shall be made to the person who, under rules prescribed by the Secretary, is determined to be eligible to receive such payment."

Part VIII, Section 1, is amended to read as follows:

"Section 1. Soil-Depleting Crops.---Land devoted to any of the following uses or crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested; except as provided in Section 2 of this Part VIII with respect to cover crops, and green manure crops, and as provided in Section 3 of this Part VIII with respect to nurse crops, summer fallow, emergency forage crops, and winter cover crops:

- a. Small grains, including flax.
- b. Corn (field, sweet, and popcorn).
- c. Potatoes.
- d. Sweetpotatoes.
- e. Sugar beets.
- f. Root crops grown for feed.
- g. Hemp.
- h. Cultivated sunflowers.
- i. Mustard (commercial).
- j. Rape.
- k. Truck and vegetable crops and their seeds; melons, and strawberries.
- l. Grain sorghums, sweet sorghums, broom corn and Sudan grass, harvested for seed, grain, or hay; or pastured.
- m. Millets.
- n. Soybeans, field beans, canning beans, cowpeas, field peas, seed peas, and canning peas harvested for seed or hay; or pastured.
- o. Flowers and their seeds.
- p. Kale.
- q. Annual grasses, including Italian rye grass and *Bromus Secalinus*.
- r. Cultivated fallow (summer fallow)."

Part VIII, Section 2, first paragraph, is amended to read as follows:

"Section 2. Soil-Conserving Crops.---Cropland devoted to any of the following crops in 1937 shall be regarded as used for the production of a soil-conserving crop; except that any land devoted to a soil-depleting crop in the same year (within the meaning of Section 1 of this Part VIII) shall be regarded as having been used for the production of a soil-depleting crop for such year, and except as provided in Section 3 of this Part VIII with respect to a poor stand of soil-conserving crops, and soil-conserving crops following summer fallow."

Part VIII, Section 2, Subsection b, is amended to read as follows:

- "b. Green manure crops, including annual legumes, rye, and mixtures of annual legumes and small grains when turned under in 1937, after attaining at least two months' growth; except when followed by summer fallow on non-irrigated cropland."

Part XI, Section 3, is amended to read as follows:

"Section 3. Determination of Class II Payments.--- The amount of Class II payment is to be made to any person for carrying out approved soil-building practices shall be computed on all diversion and nondiversion farms owned or operated by such person in the county as follows:

A. For each farm multiply the number of acres devoted to an approved soil-building practice by the rate specified for such practice; multiply this result by the percentage to which the applicant is entitled, and total the amounts thus obtained.

B. Compute the applicant's share of the soil-building allowance as follows:

1. Multiply the Class I payment to the applicant for diversion from the general soil-depleting base, determined in accordance with the provisions of Section 1, Subsection D, of this Part XI, by 66.7 percent;
2. On each farm individually, determine the applicant's share of the soil-building allowance (without regard to the minimum soil-building allowance) computed in accordance with the provisions of Part III, Section 3, except that, item 2 in Subsection A of said Part and Section shall not be used in such computation.
3. To the amount obtained under item 1, above, add the amount obtained under item 2, above, and the result shall be the soil-building allowance for all farms owned or operated by the applicant in the county.

C. The amount obtained under Subsection A of this Section 3, not in excess of the soil-building allowance obtained under Subsection B of this Section 3 shall, subject to the applicable provisions of this Part XI, be the amount of the Class II payment to the applicant."

UNITED STATES DEPARTMENT OF AGRICULTURE
AGRICULTURAL ADJUSTMENT ADMINISTRATION
WESTERN DIVISION

JUL 27 1937

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - KANSAS, SUPPLEMENT 1

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Kansas is amended by this supplement as follows:

Part II, Section 1, is amended to read as follows:

"Section 1. General Diversion Payments. With respect to diversion farms, payment will be made for each acre diverted in 1937 from the general soil-depleting base established for the farm, not in excess of fifteen percent of such base, at an average rate for the United States of \$6.00 per acre, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States. 1/"

Part III, Section 1, Practice J, is amended to read as follows:

"J. Winter Cover Crops - Non-Legumes - when winter small grains are grown on cropland preceding or following a 1937 vegetable \$1.00 crop or in commercial orchards in 1937 and turned under after per acre attaining at least two months' growth."

Part III, Section 1, Practice K, is amended to read as follows:

"K. Addition of organic material, consisting of hay or straw, in \$5.00 commercial orchards at a rate of not less than five tons per per acre, between February 1, 1937, and October 31, 1937, provided acre such organic material is mechanically incorporated into the soil"

Part III, Section 1, is amended by adding Practice L-3 to read as follows:

"3. When drilled in rows in 1937 at a rate of not less than 400 pounds per acre. Such limestone is to be ground to such fineness \$0.50 that 30 percent will pass through a 100 mesh sieve." per acre

Part III, Section 1, Practice O, is amended to read as follows:

"O. Contour farming on cropland in 1937, when small grain or \$0.50 intertilled crops are planted or seeded on the contour; per provided, however, the slopes are in excess of one percent." acre

1/ The methods to be followed in determining the productivity of the cropland on the farm are contained in Western Region Bulletin No. 102.

Part III, Section 1, Practice Q-1, is amended to read as follows:

- "1. Controlled summer fallowing when tilled in such manner and with such implements as will result in minimum of wind and water erosion, by creating and maintaining a rough-cloddy surface, reasonably free from volunteer growth. First tillage operation must be performed prior to June 15, 1937." \$1.00 per acre

Part III, Section 1, Practice Q-2, is amended to read as follows:

- "2. Establishment of strip cropping and fallow, the fallow strips (two or more strips of fallow) to be not less than five rods nor more than 20 rods in width, with intervening strips of small grain crops, sorghum or Sudan grass, close drilled or broadcast, or listed in rows not more than 28 inches apart, or small grain stubble, provided, however, at least one-third the area is covered by strips of crop or small grain stubble. Payment will not be made for this practice if there is planted in 1937, a fall seeded crop of rye or wheat on the strips devoted in 1937 to crops or small grain stubble. The first tillage operation must be completed before June 15, 1937, strips to be approximately at right angles to the prevailing winds. Payment will be made on the acreage of fallow or the acreage devoted to crops or stubble, whichever is the smaller, and only with respect to the acreage of strip cropping and fallow which is in addition to the acreage used for that practice in 1936." \$1.00 per acre

Part III, Section 1, is amended by adding items Q-5 and Q-6 to read as follows:

- "5. Controlled summer fallow: the summer fallow to be controlled in accordance with the provisions of Practice Q-1, and listed on the contour with lister furrows not more than 4 feet apart nor less than 4 inches in depth or when listed with dams in the listed furrows not more than 16 feet apart, and in accordance with specifications recommended by the State committee and approved by the Director of the Western Division." \$1.50 per acre
6. Combination of Practices Q-2 and Q-5." \$2.00 per acre

Part III, Section 2, is amended by the addition of subsection e as follows:

- "e. The practice specified in Item N together with the practice specified in Item Q, sub-item 1 or sub-item 5."

Part IV, Section 1, Practice F, is amended to read as follows:

- "F. Range Fences.

For building cross fences or drift fences, constructed as follows: (a) not fewer than three tightly stretched wires,

attached to posts set not more than 20 feet apart, with corner posts well braced, or (b) not fewer than three poles, or rails, nailed, with nails not smaller than 40-penny spikes, to posts or jacks spaced not more than 18 feet apart; all posts, poles, rails, and jacks to be good and sound."

\$0.30
per rod

Part VI, Section 4, Subsection A, is amended to read as follows:

"A. If the 1937 acreage of soil-depleting crops, except cotton and tobacco, on any farm is in excess of the general soil-depleting base for the farm, a deduction shall be made from the payment which otherwise would be made with respect to such farm in an amount computed by multiplying the number of such excess acres by the rate per acre determined for the farm under section 1, part II; Provided, however, That if the general soil-depleting base on any non-diversion farm is less than 20 acres, such deduction shall be computed only with respect to the 1937 acreage of soil-depleting crops, except cotton and tobacco, in excess of 20 acres."

Part VI, Section 4, Subsection D is amended to read as follows:

"D. If the total acreage of soil-conserving crops on any farm upon which an acreage of cotton and tobacco is diverted for payment in 1937 does not equal or exceed the sum of (1) the normal soil-conserving acreage established for the farm, and (2) the acreage diverted for payment from the cotton and tobacco soil-depleting bases, a deduction shall be made from any payment which otherwise would be made with respect to the farm at the rate of \$3.00 for each acre by which the total acreage of soil-conserving crops on the farm in 1937 is less than such sum."

Part VI, Section 8, Paragraph B, is amended to read as follows:

"B. An application for payment may be made by an owner, share-tenant, share-cropper, ranch operator, or such other person as may be designated by the Secretary. In the event of the death, disappearance or legal incompetency of an applicant for payment, any payment which has not been received by such applicant prior to his death, disappearance or legal incompetency and which would otherwise be made to such applicant, shall be made to the person who, under rules prescribed by the Secretary, is determined to be eligible to receive such payment."

Part VII, Section 3, Subsection A, is amended by adding the following Item 5 at the end thereof.

"5. The County Committee shall not establish a cotton soil-depleting base for any farm which is no longer a cotton farm and shall adjust downward the cotton soil-depleting base which might otherwise be established for any farm if it is determined that because of a change in the production practices on such farm the acreage

adapted to the production of cotton is less than the cotton soil-depleting base which might otherwise have been established for such farm."

Part VII, Section 3, Subsection B, is amended by adding thereto the following paragraph:

"The sum of the tobacco soil-depleting bases for all farms covered by work sheets in any County, or other specified area, shall not exceed their proportionate share of the quota of tobacco acreage established for such county, or other specified area, by the Agricultural Adjustment Administration."

Part VII, Section 3, is amended by adding at the end thereof the following new sub-section C:

- "C. 1. The normal yield per acre of lint cotton or tobacco for the farm shall be designated by the appropriate community committee, subject to such adjustment by the county committee as is necessary in order that the weighted average yield for all cotton or tobacco farms in the county or other area shall not exceed the yield established for such county or other specified area by the Agricultural Adjustment Administration, unless a variance therefrom is recommended by the State Committee and approved by the Agricultural Adjustment Administration.
2. Each cotton or tobacco farm covered by a work sheet shall be inspected by at least one member of the community committee, serving for the community in which the farm is located, who shall report his observations to the community committee before the yield is designated for the farm.
3. The normal yield designated for any farm shall be that yield, subject to necessary adjustments by the county committee, which the community committee finds from available facts to be the yield which could have been reasonably expected from the land devoted to the production of cotton or tobacco on the farm as an average yield during the 5-year period 1928-1932. Such findings shall be examined by the county committee in the light of all available facts and recommended or modified by it accordingly. In reviewing the yields designated by the community committee the county committee shall give due consideration to the trend of yields per acre, type of soil, drainage, irrigation, erosion, production practices, general fertility of the land, and abnormal weather conditions, but the weighted average yield for all cotton or tobacco farms in the county shall not exceed the limitations prescribed."

Part VII is amended by adding the following new section at the end thereof:

"Section 6. Normal Soil-Conserving Acreage. There will be established for each farm for which a cotton or tobacco soil-depleting base is established

a normal soil-conserving acreage which shall represent the acreage of all soil-conserving crops grown on the farm under normal conditions. The sum of the normal soil-conserving acreages, established for such farms in the county, shall not be greater than nor less than their proportionate share of the total soil-conserving acreage quota for the county. The state committee shall review the total normal soil-conserving acreage established in the county and shall, if necessary, recommend that further adjustments be made to properly correlate the recommendations of the county committee with available statistical information."

Part VIII, Section 1, is amended to read as follows:

"Section 1. Soil-Depleting Crops. Land devoted to any of the following uses or crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested; except as provided in Section 2 of this Part VIII with respect to nurse crops, and as provided in Section 3 of this Part VIII with respect to emergency forage crops, and winter cover crops, and sorghums, Sudan grass, or millets grown in 1937 on designated wind erosion acreage.

- a. Small grains, including flax.
- b. Corn (field, sweet, and popcorn).
- c. Cotton.
- d. Tobacco.
- e. Potatoes and sweetpotatoes.
- f. Sugar beets and root crops grown for feed.
- g. Cultivated sunflowers.
- h. Mustard (commercial).
- i. Truck and vegetable crops and their seed; melons, and strawberries.
- j. Grain sorghums, sweet sorghums, broom corn and Sudan grass, harvested for seed, grain, hay, or pastured.
- k. Rape and millets.
- l. Soybeans, field beans, canning beans, cowpeas, field peas, seed peas, and canning peas, harvested for grain, seed and hay."

Part VIII, Section 2 is amended by striking out the word "Land" immediately following the title, "Soil-Conserving Crops", and by substituting in lieu thereof the word "Cropland."

Part VIII, Section 3, Subsection d, is amended to read as follows:

- "d. Any acreage devoted in 1937 to the production of emergency forage crops consisting of millets, Sudan grass, rape, oats, barley, and annual legumes or mixtures of such crops which the county committee determines is equivalent to the acreage of soil-conserving crops on the farm which was winter-killed or destroyed by drouth in the period beginning July 1, 1936; provided, such use of land shall have been approved by the county committee prior to May 1, 1937."

Part VIII, Section 3, is amended by adding item g to read as follows:

- "g. Sorghums, Sudan grass, or millets grown in 1937 on designated wind erosion acreage in accordance with the provisions for carrying out approved wind erosion control practices on such acreage."

Part X, Section 1, Footnote 2/, is amended to read as follows:

"2/ Pursuant to Subsection A-2, Section 3, Part III of WR Bulletin - 101 - Kansas."

Part X, Section 1, Footnote 3/, is amended to read as follows:

"3/ Pursuant to Subsection A-3 and B-1 of Section 3, Part III of WR Bulletin - 101 - Kansas."

Part XI, Section 4, is amended to read as follows:

"Section 4. Determination of Class II Payments.---The amount of class II payment to be made to any person for carrying out approved soil-building practices shall be computed on all diversion and nondiversion farms owned or operated by such person in the county as follows:

A. For each farm multiply the number of acres devoted to an approved soil-building practice by the rate specified for such practice; multiply this result by the percentage to which the applicant is entitled, and total the amounts thus obtained.

B. Compute the applicant's share of the soil-building allowance as follows:

1. Multiply the Class I payment to the applicant for diversion from the general soil-depleting base, determined in accordance with the provisions of Section 1, Subsection D, of this Part XI, by 66.7 percent.
2. On each farm individually, determine the applicant's share of the soil-building allowance (without regard to the minimum soil-building allowance) computed in accordance with the provisions of Part III, Section 3, except that, item 2 in subsection A of said Part and Section shall not be used in such computation.
3. To the amount obtained under item 1, above, add the amount obtained under item 2, above, and the result shall be the soil-building allowance for all farms owned or operated by the applicant in the county.

C. The amount obtained under Subsection A of this Section 4, not in excess of the soil-building allowance obtained under Subsection B of this Section 4 shall, subject to the applicable provisions of this Part XI, be the amount of the Class II payment to the applicant."

(SEAL)

IN TESTIMONY WHEREOF, H. A. Wallace, Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 3rd day of June, 1937.

H. A. Wallace

UNITED STATES DEPARTMENT OF AGRICULTURE
AGRICULTURAL ADJUSTMENT ADMINISTRATION
WESTERN DIVISION

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - MONTANA, SUPPLEMENT 1

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Montana is amended by this supplement as follows:

The definition of "RANGE LAND" in part I is amended to read as follows:

"RANGE LAND means any land other than that owned or controlled by the United States Government, or any agency thereof, in which a ranch operator has such a legal estate or interest as to give him control thereof which produces forage for range livestock without cultivation or general irrigation ten acres or more of which, on the average for the ranching unit, are required to graze one animal unit."

Part III, Section 1, second paragraph, is amended to read as follows:

"The soil-building practices prescribed in this section shall not be eligible for payment unless such practices are carried out in a locality where, in the determination of the State Committee, such practices are desirable from the standpoint of agricultural conservation and are carried out in conformity with methods generally recognized as desirable for the locality, and which tend to effectuate the purposes of the 1937 Agricultural Conservation Program. Payments will not be made for more than one practice carried out on the same acreage except that payments will be made for the practice prescribed in item F in addition to any one of the practices prescribed in items K, N, and P, and payment will be made for the practice prescribed in item J in addition to the practice prescribed in item K.

Part III, Section 1, Practice K, is amended to read as follows:

"K. Plowless fallow.

First tillage to be completed by June 1, 1937, and subsequent tillage frequently enough to prevent weed growth. All tillage to be done by implements that leave the surface rough and planted growth near the surface. Approved implements to be field cultivator, lister, or one way disc where one way disc is used only for initial cultivation. "

\$1.00
per acre

Part III, Section 1, is amended by adding the following Practice S.

"S. 1. Controlled Summer Fallow.

The summer fallow shall be controlled in accordance with the provisions of Practice K and listed on the contour with lister furrows not more than four feet apart nor less than four inches in depth or listed with dams in the lister furrows not more than sixteen feet apart, and in accordance with specifications recommended by the State Committee and approved by the Director of the Western Division.

\$1.50
per acre

2. Combination of Practices J and S, 1." \$2.00
per acre

Part IV, Section 1, first paragraph, is amended to read as follows:

"Section 1. Range-Building Practices and Rates.--Payment will be made for carrying out on range land in 1937 such of the following range-building practices as are approved by the county committee for the ranching unit prior to their institution, provided that the range-building payment with respect to any ranching unit shall not exceed the range-building allowance for such ranching unit."

Part IV, Section 1, Practice F, is amended to read as follows:

"F. Range Fences.

For building cross fences or drift fences, constructed as follows: (a) not fewer than three tightly stretched wires, attached to posts set not more than 20 feet apart, with corner posts well braced, or (b) not fewer than three poles, or rails, nailed, with nails not smaller than 40-penny spikes, to posts or jacks spaced not more than 18 feet apart; all posts, poles, rails, and jacks to be good and sound."

\$0.30
per rod

Part IV, Section 1, is amended by adding the following range-building practices at the end thereof:

"J. Natural Reseeding by Deferred Grazing.

Payment will be made for withholding range land from grazing for the period (from the start of forage growth to seed maturity) established by the State Committee, at the rate of 35 cents per full month of such period for each animal unit of that number of animal units, not in excess of 25 percent of the grazing capacity, which is the same percentage of the grazing capacity of the ranching unit as the acreage upon which grazing is deferred is of the total acreage of range land in the ranching unit. Payment will not be made for this practice (1) if the operator permits the remainder of the range land in the ranching unit to be grazed to an extent that causes deterioration of such range land, and (2) if the deferred grazing is carried out on range land in the ranching unit which normally is not used for grazing during such period."	\$0.35 per animal unit for each full month
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----------------------------------------------------------

"K. Mountain Meadow Land Practices in Counties Designated under Section 2 of this Part IV.

1. Reseeding Mountain Meadow Land.

For reseeding mountain meadow land with good seed of adapted varieties of the following perennial grasses and legumes or mixtures thereof: brome grass, red top, timothy, alsike clover, meadow fescue, medium red clover, and such other perennial grasses and legumes, except alfalfa, or mixtures thereof as are recommended by the State Committee and approved by the Director of the Western Division."	\$0.20 per pound of seed sown, but not in excess of \$2.00 per acre.
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------

2. Earthen Dams for Erosion Control on Mountain Meadows.

For constructing, according to specifications recommended by the State Committee and approved by the Director of the Western Division, earthen dams for the exclusive purpose of diverting flood water of intermittent streams to prevent soil erosion on mountain meadow land."	\$0.15 per cubic yard of fill, but not in excess of \$50.00 for each dam.
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------

Part IV, Section 2, is amended to read as follows:

"Section 2. Range-Building Allowance.--

The range building allowance for any ranching unit shall be equal to \$1.50 times the grazing capacity thereof, plus, in the case

of certain mountain counties designated by the Director of the Western Division, 40¢ times the number of acres of mountain meadow land in the ranching unit from which hay is normally harvested for feeding on the ranching unit to range livestock owned by the operator of the ranching unit. The mountain counties designated by the Director of the Western Division for the purposes of this section shall be those counties for which, upon the basis of the recommendations of the county and State committees, he determines the mountain meadow land practices specified in Part IV of this bulletin to be necessary and effective in promoting land conservation. In determining the grazing capacity of any ranching unit with respect to which an acreage allowance for mountain meadow land may be made, the grazing capacity of such acreage of mountain meadow land shall not be considered."

Part VI, Section 8, Subsection B, is amended to read as follows:

- "B. An application for payment may be made by an owner, share-tenant, share-cropper, ranch operator, or such other person as may be designated by the Secretary. In the event of the death, disappearance, or legal incompetency of an applicant for payment, any payment which has not been received by such applicant prior to his death, disappearance or legal incompetency and which would otherwise be made to such applicant, shall be made to the person who, under rules prescribed by the Secretary, is determined to be eligible to receive such payment."

Part VIII, Section 1, is amended to read as follows:

"Section 1. Soil-Depleting Crops. Land devoted to any of the following uses or crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested; except as provided in Section 2 of this Part VIII with respect to nurse crops, and green manure crops, and as provided in Section 3 of this Part VIII with respect to nurse crops, summer fallow, or emergency forage crops:

- a. Small grains, including flax.
- b. Corn (field, sweet, and popcorn).
- c. Potatoes.
- d. Sugar beets.
- e. Root crops grown for feed.
- f. Cultivated sunflowers.
- g. Mustard (commercial).
- h. Rape.
- i. Truck and vegetable crops and their seed; melons, and strawberries.
- j. Grain sorghums, sweet sorghum, broom corn and Sudan grass, harvested for seed, grain, or hay; or pastured.
- k. Millets.
- l. Soybeans, field beans, canning beans, cowpeas, field peas, seed peas, and canning peas, harvested for grain, seed or hay.

- m. Cultivated fallow (summer fallow) unless otherwise provided."

Part VIII, Section 2, first paragraph, is amended to read as follows:

"Section 2. Soil-Conserving Crops.--Cropland devoted to any of the following crops in 1937 shall be regarded as used for the production of a soil-conserving crop; except that any land devoted to a soil-depleting crop in the same year (within the meaning of Section 1, Part VIII of this bulletin) shall be regarded as having been used for the production of a soil-depleting crop for such year, and except as provided in Section 3 of this Part VIII with respect to a poor stand of soil-conserving crops, and soil-conserving crops following summer fallow."

Part XI, Section 3, is amended to read as follows:

"Section 3. Determination of Class II Payments.--The amount of Class II payment to be made to any person for carrying out approved soil-building practices shall be computed on all diversion and nondiversion farms owned or operated by such person in the county as follows:

A. For each farm multiply the number of acres devoted to an approved soil-building practice by the rate specified for such practice; multiply this result by the percentage to which the applicant is entitled, and total the amounts thus obtained.

B. Compute the applicant's share of the soil-building allowance as follows:

1. Multiply the Class I payment to the applicant for diversion from the general soil-depleting base, determined in accordance with the provisions of Section 1, Subsection D, of this Part XI, by 66.7 percent;
2. On each farm individually, determine the applicant's share of the soil-building allowance (without regard to the minimum soil-building allowance) computed in accordance with the provisions of Part III, Section 2, except that, item 2 in Subsection A of said Part and Section shall not be used in such computation.
3. To the amount obtained under item 1, above, add the amount obtained under item 2, above, and the result shall be the soil-building allowance for all farms owned or operated by the applicant in the county.

C. The amount obtained under Subsection A of this Section 3, not in excess of the soil-building allowance obtained under Subsection B of this Section 3 shall, subject to the applicable provisions of

this Part XI, be the amount of the class II payment to the applicant."

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - PONDERA COUNTY, MONTANA - SUPPLEMENT 1

AMENDMENTS TO WRB-101 - PONDERA COUNTY, MONTANA

Part III, Section 1, Practices A, B, C, D, and E are amended to make clear the authorization of payment for establishment in 1937 of a good stand of such crops when seeded subsequent to the final date for performance of such practices under the 1936 Agricultural Conservation Program;

Part III, Section 1, Practice F is amended to authorize payment for growing in 1937 crested wheat grass seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program;

Part VI, Section 4 is amended by the addition of a sentence defining the terms "retired from production";

Part VI, Section 6 is amended by the addition of subsection C designed to preclude duplicate payments;

Part XI, Section 1, Paragraph C is amended to provide for deductions with respect to excess in soil-depleting crops; and

Part XI is amended by the addition of Section 3 containing multiple farm provisions with respect to sugar beets.

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Pondera County, Montana, is amended by this supplement as follows:

Part III, Section 1, Practices A, B, C, D, and E are each amended as follows:

Item 1 of each such practice is amended by deleting therefrom the words "Seeding and", by capitalizing the first letter in the word "establishment", by replacing the period at the end of each sentence with a comma, and by adding at the end of each such item the expression "provided that such stand is obtained from a crop seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Item 2 of each such practice is amended by inserting immediately following the words "Seeding on cropland in 1937" the expression "or establishment on cropland in 1937 of a good stand of a crop seeded subsequent to the final date for performance of this

practice under the 1936 Agricultural Conservation Program,".

Items a and b of said Items 2 are revised to read as follows:

- "a. Seeded in 1937, either alone or with a nurse crop which is not harvested for grain or hay.
- "b. Seeded with a nurse crop which is harvested for grain or hay."

Part III, Section 1, Practice F is amended to read as follows:

"Crested Wheat Grass, seeded on cropland in 1937, or grown in 1937 on cropland if seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Part VI, Section 4 is amended by the addition of the following sentence:

"The terms 'retired from production' as used in this section mean cropland which will not be seeded to soil-depleting crops for a sufficient period to permit the establishment of a protective vegetative growth thereon."

Part VI, Section 6 is amended by the addition of the following Subsection C:

"C. Payment will not be made for any soil-building or range-building practice with respect to which a payment was received or applied for under the 1936 Agricultural Conservation Program."

Part XI, Section 1, Paragraph C is amended to read as follows:

"C. The amount obtained under A above or the amount obtained under B above, whichever is the smaller, shall be the amount of soil-building payment to the applicant, subject to such deductions for excess soil-depleting crops on all such farms, determined for each farm pursuant to the provisions of Section 4, Part VI.

Part XI is amended by the addition of Section 3, as follows:

"Section 3. Determination of Sugar Beet Payment.--- The amount of sugar beet payment to be made to any applicant with respect to the 1937 acreage of sugar beets on the farms owned or

operated in the county by such applicant shall be determined as follows:

- A. Determine for each farm the applicant's share of the maximum possible payments computed with respect to the 1937 acreage of sugar beets, without regard to any practices carried out on the farm with relation to sugar beets. Total the amounts thus obtained.
- B. Compute for each farm the applicant's share of the acreage of soil-conserving crops required to qualify the 1937 acreage of sugar beets for full payment in accordance with the provisions of Part II, Section 2, subsection A or subsection B, whichever is applicable for the farm. Total the amounts thus obtained.
- C. Compute for each farm the applicant's share 1/ of the acreage devoted to soil-conserving crops in 1937 on land customarily used in rotation with sugar beets. Total the amounts thus obtained.
- D. If the total obtained under subsection C above equals or exceeds the total obtained under subsection B above the amount obtained under subsection A above shall, subject to the applicable provisions of this Part XI, be the amount of sugar beet payment to the applicant.
- E. If the total obtained under subsection C above is less than the total obtained under subsection B above,
 1. Divide the total obtained under subsection C above by the total obtained under subsection B above, and multiply the percentage thus obtained by the amount obtained under subsection A above.
 2. Compute for each farm individually the applicant's share of the sugar beet payment determined in accordance with the provisions of Part II, Section 2. Total the amounts thus obtained.
- F. The amount obtained under subsection E, item 1, above, or the amount obtained under subsection E, item 2, above, whichever is the larger, shall, subject to the applicable provisions of this Part XI, be the amount of the sugar beet payment to the applicant."

(S E A L)

Done at Washington, D. C., this
23rd day of October, 1937. Wit-
ness my hand and the seal of the
Department of Agriculture.

H A Wallace

Secretary of Agriculture.

1/ If sugar beets were not grown on the farm in 1937, the applicant's share shall be determined in accordance with the provisions of Part V.

JUL 27 1937

UNITED STATES DEPARTMENT OF AGRICULTURE
AGRICULTURAL ADJUSTMENT ADMINISTRATION
WESTERN DIVISION

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - NEVADA, SUPPLEMENT 1

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Nevada is amended by this supplement as follows:

The definition of "RANGE LAND" in part I is amended to read as follows:

"RANGE LAND means any land other than that owned or controlled by the United States Government, or any agency thereof, in which a ranch operator has such a legal estate or interest as to give him control thereof which produces forage for range livestock without cultivation or general irrigation ten acres or more of which, on the average for the ranching unit, are required to graze one animal unit."

Part IV, Section 1, first paragraph, is amended to read as follows:

"Section 1. Range-Building Practices and Rates.--Payment will be made for carrying out on range land in 1937 such of the following range-building practices as are approved by the county committee for the ranching unit prior to their institution, provided that the range-building payment with respect to any ranching unit shall not exceed the range-building allowance for such ranching unit."

Part IV, Section 1, Practice D, is amended to read as follows:

"D. Range Fences.

For building cross fences or drift fences, constructed as follows: (a) not fewer than three tightly stretched wires, attached to posts set not more than 20 feet apart, with corner posts well braced, or (b) not fewer than three poles, or rails, nailed, with nails not smaller than 40-penny spikes, to posts or jacks spaced not more than 18 feet apart; all posts, poles, rails, and jacks to be good and sound."

\$0.30
per rod

Part IV, Section 1, is amended by adding the following range-building practice at the end thereof:

"H. Mountain Meadow Land Practices in Counties Designated under Section 2 of this Part IV.

1. Reseeding Mountain Meadow Land.

For reseeding mountain meadowland with good seed of adapted varieties of the following perennial grasses and legumes or mixtures thereof, brome grass, red top, timothy, alsike clover, meadow fescue, medium red clover, and such other perennial grasses and legumes, except alfalfa, or mixtures thereof as are recommended by the State Committee and approved by the Director of the Western Division."	\$0.20 per pound of seed sown, but not in excess of \$2.00 per acre.
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------

2. Earthen Dams for Erosion Control on Mountain Meadows.

For constructing, according to specifications recommended by the State Committee and approved by the Director of the Western Division, earthen dams for the exclusive purpose of diverting flood water of intermittent streams to prevent soil erosion on mountain meadow land."	\$0.15 per cubic yard of fill, but not in excess of \$50.00 for each dam.
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------

Part IV, Section 2, is amended to read as follows:

"Section 2. Range-Building Allowance.--The range-building allowance for any ranching unit shall be equal to \$1.50 times the grazing capacity thereof; plus, in the case of certain mountain counties designated by the Director of the Western Division, 40¢ times the number of acres of mountain meadow land in the ranching unit from which hay is normally harvested for feeding on the ranching unit to range livestock owned by the operator of the ranching unit. The mountain counties designated by the Director of the Western Division for the purposes of this section shall be those counties for which, upon the basis of the recommendations of the county and State committees, he determines the mountain meadow land practices specified in Part IV of this bulletin to be necessary and effective in promoting land conservation. In determining the grazing capacity of any ranching unit with respect to which an acreage allowance for mountain meadow land may be made, the grazing capacity of such acreage of mountain meadow land shall not be considered."

Part VI, Section 8, Subsection B, is amended to read as follows:

"B. An application for payment may be made by an owner, share-tenant, share-cropper, ranch operator, or such other person as may be designated by the Secretary. In the event of the death, disappearance or legal incompetency of an applicant for payment, any payment which has not been received by such applicant prior to his death, disappearance or legal incompetency and which would otherwise be made to such applicant, shall be made to the person who, under rules prescribed by the Secretary, is determined to be eligible to receive such payment."

Part VIII, Section 1, is amended to read as follows:

"Section 1. Soil-Depleting Crops. Land devoted to any of the following uses or crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested; except as provided in Section 2 of this Part VIII with respect to nurse crops, and green manure crops:

- a. Corn (field, sweet, and popcorn).
- b. Potatoes.
- c. Sugar beet seed.
- d. Cultivated sunflowers.
- e. Truck, canning, and annual vegetable crops, and their seed or plants, and melons.
- f. Sorghums.
- g. Small grains.
- h. Millets.
- i. Soybeans, field beans, cowpeas, field peas, and seed peas, harvested for grain, seed, hay; or pastured; or used for canning purposes.
- j. Root crops, grown for feed.
- k. Cotton."

Part VIII, Section 2 is amended by striking out the word "Land" immediately following the title, "Soil-Conserving Crops", and by substituting in lieu thereof the word "Cropland."

Part XI, Section 3, is amended to read as follows:

"Section 3. Determination of Class II Payments.---The amount of class II payment to be made to any person for carrying out approved soil-building practices shall be computed on all diversion and nondiversion farms owned or operated by such person in the county as follows:

A. For each farm multiply the number of acres devoted to an approved soil-building practice by the rate specified for such practice; multiply this result by the percentage to which the applicant is entitled, and total the amounts thus obtained.

B. Compute the applicant's share of the soil-building allowance as follows:

1. Multiply the class I payment to the applicant for diversion from the general soil-depleting base, determined in accordance with the provisions of Section 1, Subsection D, of this part XI, by 66.7 percent;

2. On each farm individually, determine the applicant's share of the soil-building allowance (without regard to the minimum soil-building allowance) computed in accordance with the provisions of Part III, Section 2, except that, item 2 in Subsection A of said Part and Section shall not be used in such computation.

3. To the amount obtained under item 1, above, add the amount obtained under item 2, above, and the result shall be the soil-building allowance for all farms owned or operated by the applicant in the county.

C. The amount obtained under subsection A of this section 3, not in excess of the soil-building allowance obtained under subsection B of this section 3 shall, subject to the applicable provisions of this part XI, be the amount of the class II payment to the applicant."

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - NEW MEXICO, SUPPLEMENT 1

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - New Mexico is amended by this supplement as follows:

The definition of "RANGE LAND" in part I is amended to read as follows:

"RANGE LAND means any land other than that owned or controlled by the United States Government, or any agency thereof, in which a ranch operator has such a legal estate or interest as to give him control thereof which produces forage for range livestock without cultivation or general irrigation ten acres or more of which, on the average for the ranching unit, are required to graze one animal unit."

Part II, Section 1, is amended to read as follows:

"Section 1. General Diversion Payments.--With respect to diversion farms, payment will be made for each acre diverted in 1937 from the general soil-depleting base established for the farm, not in excess of 15 percent of such base, at an average rate for the United States of \$6.00 per acre, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States."

Part III, Section 1, Practice J, is amended to read as follows:

"J. Contour Listing of Non-Irrigated Cropland.

For cultivation on the contour with a regular double mold-board lister, basin lister, or chisel; provided, the furrows shall be approximately from 2 feet to 4 feet apart and shall, if listed, be not less than 8 inches in width and 6 inches in depth, or if chiseled, be approximately 4 inches in width and 6 inches in depth; and provided, also that no soil-depleting crop is planted for harvest in 1937 on such cropland."

\$1.00
per acre

Part III, Section 1, Practice K, is amended to read as follows:

"K. Border Planting on Non-Irrigated Cropland.

Border Planting on fields where planted borders are 100 feet wide or more, and the crop is not pastured or cut for hay or grain; provided, however, that payment shall be made with respect to the area so planted not in excess of 300 feet in width."	\$1.00 per acre
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--------------------

Part III, Section 1, is amended by changing Practices N and O to read as follows:

"N. Controlled Summer Fallow on Non-Irrigated Cropland.

1. Controlled summer fallowing when tilled in such manner and with such implements as will result in a minimum of wind and water erosion, by creating and maintaining a rough, cloddy surface, reasonably free from volunteer growth, first tillage operation to be performed prior to June 15, 1937. \$1.00 per acre
2. Controlled summer fallowing, in accordance with the provisions of N, 1, when listed on the contour with lister furrows not more than 4 feet apart nor less than 4 inches in depth or when listed with dams in the listed furrow not more than 16 feet apart, and in accordance with specifications recommended by the State committee and approved by the Director of the Western Division." \$1.50 per acre

"O. Contour Strip Cropping and Fallow on Non-Irrigated Cropland.

1. Contour strip planting of any crops when width of strips of crop is not less than 9 feet nor the distance between strips more than 150 feet; Provided, however, that only the area planted to strip crops shall be considered in computing the acreage devoted to this practice. \$1.00 per acre
2. Combination of practices N and O-1." \$2.00 per acre

Part III, Section 1, is amended by adding item P as follows:

"P. Cover Crops to Control Wind-Erosion.

Sudan grass or sweet sorghums when planted in rows not greater than 42 inches apart, or any sorghum	\$2.00 per acre
-----------------------------------------------------------------------------------------------------	--------------------

or Sudan grass when close drilled or broadcast; provided, however, that no portion of the crop is harvested or pastured in any manner whatsoever."

Part IV, Section 1, "first paragraph," is amended to read as follows:

"Section 1. Range-Building Practices and Rates.---

Payment will be made for carrying out on range land in 1937 such of the following range-building practices as are approved by the county committee for the ranching unit prior to their institution, provided that the range-building payment with respect to any ranching unit shall not exceed the range-building allowance for such ranching unit."

Part IV, Section 1, Practice F, is amended to read as follows:

"F. Range Fences.

For building cross fences or drift fences, constructed as follows: (a) not fewer than three tightly stretched wires, attached to posts set not more than 20 feet apart, with corner posts well braced, or (b) not fewer than three poles, or rails, nailed, with nails not smaller than 40-penny spikes, to posts or jacks spaced not more than 18 feet apart; all posts, poles, rails, and jacks to be good and sound." \$0.30 per rod

Part IV, Section 1, is amended by the addition of the following range-building practices at the end thereof.

"J. Natural Reseeding by Deferred Grazing.

Payment will be made for withholding range land from grazing for the period (from the start of forage growth to seed maturity) established by the State Committee, at the rate of 35 cents per full month of such period for each animal unit of that number of animal units, not in excess of 25 percent of the grazing capacity, which is the same percentage of the grazing capacity of the ranching unit as the acreage upon which grazing is deferred is of the total acreage of range land in the ranching unit. Payment will not be made for this practice if (1) the operator permits the remainder of the range land in the ranching unit to be grazed to an extent that causes deterioration of such range land, or (2) the deferred grazing is carried out on rangeland in the ranching unit which normally is not used for grazing during such period." \$0.35 per animal unit for each full month

"K. Mountain Meadow Land Practices in Counties Designated under Section 2 of this Part IV.

1. Reseeding Mountain Meadow Land.

For reseeding mountain meadow land with good seed of adapted varieties of the following perennial grasses and legumes or mixtures thereof, brome grass, red top, timothy, alsike clover, meadow fescue, medium red clover, and such other perennial grasses and legumes, except alfalfa, or mixtures thereof as are recommended by the State Committee and approved by the Director of the Western Division."

\$0.20
per pound
of seed
sown, but
not in ex-
cess of
\$2.00 per
acre.

2. Earthen Dams for Erosion Control on Mountain Meadows.

For constructing, according to specifications recommended by the State Committee and approved by the Director of the Western Division, earthen dams for the exclusive purpose of diverting flood water of intermittent streams to prevent soil erosion on mountain meadow land."

\$0.15
per cubic
yard of
fill, but
not in
excess of
\$50.00 for
each dam.

Part IV, Section 2, is amended to read as follows:

"Section 2. Range-Building Allowance.--The range building allowance for any ranching unit shall be equal to \$1.50 times the grazing capacity thereof, plus, in the case of certain mountain counties designated by the Director of the Western Division, 40¢ times the number of acres of mountain meadow land in the ranching unit from which hay is normally harvested for feeding on the ranching unit to range livestock owned by the operator of the ranching unit. The mountain counties designated by the Director of the Western Division for the purpose of this section shall be those counties for which, upon the basis of the recommendations of the county and State Committees, he determines the mountain meadow land practices specified in Part IV of this bulletin to be necessary and effective in promoting land conservation. In determining the grazing capacity of any ranching unit with respect to which an acreage allowance for mountain meadow land may be made, the grazing capacity of such acreage of mountain meadow land shall not be considered."

Part VI, Section 8, Subdivision B, is amended to read as follows:

"B. An application for payment may be made by an owner, share-tenant, share-cropper, ranch operator, or such other person as may be designated by the Secretary.

In the event of the death, disappearance or legal incompetency of an applicant for payment, any payment which has not been received by such applicant prior to his death, disappearance or legal incompetency and which would otherwise be made to such applicant, shall be made to the person who, under rules prescribed by the Secretary, is determined to be eligible to receive such payment."

Part VI, Section 4, Subsection A, is amended to read as follows:

"A. If the 1937 acreage of soil-depleting crops, except cotton, on any farm is in excess of the general soil-depleting base for the farm, a deduction shall be made from the payment which otherwise would be made with respect to such farm in an amount computed by multiplying the number of such excess acres by the rate per acre determined on any non-diversion farm under section 1, part II; Provided, however, That if the general soil-depleting base for the farm is less than 20 acres, such deduction shall be computed only with respect to the 1937 acreage of soil-depleting crops, except cotton, in excess of 20 acres."

Part VI, Section 4, Subsection C, is amended to read as follows:

"C. If the total acreage of soil-conserving crops on any farm upon which cotton is diverted for payment in 1937 does not equal or exceed the sum of (1) the normal soil-conserving acreage established for the farm, and (2) the acreage diverted for payment from the cotton soil-depleting base, a deduction shall be made from any payment which otherwise would be made with respect to the farm at the rate of \$3.00 for each acre by which the total acreage of soil-conserving crops on the farm in 1937 is less than such sum."

Part VII, Section 3, is amended by adding the following at the end thereof:

"E. The County Committee shall not establish a cotton soil depleting base for any farm which is no longer a cotton farm and shall adjust downward the cotton soil depleting base which might otherwise be established for any farm if it is determined that because of a change in the production practices on such farm the acreage adapted to the production of cotton is less than the cotton soil depleting base which might otherwise have been established for such farm."

"F. 1. The normal yield per acre of lint cotton for the farm shall be designated by the appropriate community committee, subject to such adjustment by the county committee as is necessary in order that the weighted average yield for all cotton farms in

the county or other area shall not exceed the yield established for such county or other specified area by the Agricultural Adjustment Administration, unless a variance therefrom is recommended by the State Committee and approved by the Agricultural Adjustment Administration.

2. Each cotton farm covered by a work sheet shall be inspected by at least one member of the community committee, serving for the community in which the farm is located, who shall report his observations to the community committee before the yield is designated for the farm.
3. The normal yield designated for any farm shall be that yield, subject to necessary adjustments by the county committee, which the community committee finds from available facts to be the yield which could have been reasonably expected from the land devoted to the production of cotton on the farm as an average yield during the 5-year period 1928-1932. Such findings shall be examined by the county committee in the light of all available facts and recommended or modified by it accordingly. In reviewing the yields designated by the community committee the county committee shall give due consideration to the trend of yields per acre, type of soil, drainage, irrigation, erosion, production practices, general fertility of the land, and abnormal weather conditions, but the weighted average yield for all farms in the county shall not exceed the limitations prescribed."

Part VII is amended by the addition of Section 6 as follows:

"Section 6. Normal Soil-Conserving Acreage. There shall be established for each farm for which a cotton soil-depleting base is established a normal soil-conserving acreage which shall represent the acreage of all soil-conserving crops grown on the farm under normal conditions. The sum of the normal soil conserving acreages, established for all cotton farms in the county, shall not be greater than nor less than their proportionate share of the total soil conserving acreage quota for the county. The state committee shall review the total normal soil conserving acreage established for all cotton farms in the county and shall, if necessary, recommend that further adjustments be made to properly correlate the recommendations of the county committee with available statistical information."

Part VIII, Section 1, is amended to read as follows:

"Section 1. Soil-Depleting Crops. Land devoted to any of the following crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested; except as provided in Section 2 of this Part VIII with respect to nurse crops, and green manure crops, and as provided in

Section 3 of this Part VIII with respect to nurse crops, pastured winter cover crops, and emergency forage crops, and sorghums, Sudan grass or millets grown in 1937 on designated wind erosion acreage.

- a. Small grains, including flax.
- b. Corn (field, sweet, and popcorn).
- c. Potatoes.
- d. Sweetpotatoes.
- e. Sugar beets.
- f. Peanuts.
- g. Root crops grown for feed.
- h. Hemp.
- i. Cultivated sunflowers.
- j. Mustard (commercial)
- k. Rape.
- l. Truck and vegetable crops and their seeds; melons and strawberries.
- m. Grain sorghum, sweet sorghums, broom corn and Sudan grass, harvested for seed, grain, or hay; or pastured.
- n. Millets.
- o. Soybeans, field beans, canning beans, cowpeas, field peas, seed peas and canning peas, harvested for seed, or hay; or pastured.
- p. Cotton."

Part VIII, Section 2, first paragraph, is amended to read as follows:

"Section 2. Soil-Conserving Crops. -- Cropland devoted to any of the following crops in 1937 shall be regarded as used for the production of a soil-conserving crop, except that any land devoted to a soil-depleting crop in the same year (within the meaning of Section 1 of Part VIII) shall be regarded as having been used for the production of a soil-depleting crop for such year, and except as provided in Section 3 with respect to a poor stand of soil-conserving crops."

Part VIII, Section 3, is amended by adding item h to read as follows:

- "h. Sorghums, Sudan Grass, or millets grown in 1937 on designated wind erosion acreage in accordance with the provisions for carrying out approved wind erosion control practices on such acreage."

Part VIII is supplemented by the addition of Section 4 as follows:

"Section 4. Soil-Building Practices Substituted for Soil-Conserving Crops. -- Cropland devoted to the following soil-building

practices in 1937 on non-irrigated farms for which a cotton soil-depleting base is established shall be regarded as used for the production of a soil-conserving crop within the meaning of Section 2 of this Part VIII:

A. Contour Listing, when carried out in accordance with the provisions of Practice J of Section 1 of Part III.

B. Controlled Summer Fallow, when carried out in accordance with the provisions of Practice N of Section 1 of Part III."

Part XI, Section 4, is amended to read as follows:

"Section 4. Determination of Class II Payments. -- The amount of Class II payment to be made to any person for carrying out approved soil-building practices shall be computed on all diversion and non-diversion farms owned or operated by such person in the county as follows:

A. For each farm multiply the number of acres devoted to an approved soil-building practice by the rate specified for such practice; multiply this result by the percentage to which the applicant is entitled, and total the amounts thus obtained.

B. Compute the applicant's share of the soil-building allowance as follows:

1. Multiply the Class I payment to the applicant for diversion from the general soil-depleting base, determined in accordance with the provisions of Section 1, Subsection D, of this Part XI, by 66.7 percent;
2. On each farm individually, determine the applicant's share of the soil-building allowance (without regard to the minimum soil-building allowance) computed in accordance with the provisions of Part III, Section 2, except that, item 2 in Subsection A of said Part and Section shall not be used in such computation.
3. To the amount obtained under item 1, above, add the amount obtained under item 2, above, and the result shall be the soil-building allowance for all farms owned or operated by the applicant in the county.

C. The amount obtained under Subsection A of this Section 4, not in excess of the soil-building allowance obtained under Subsection B of this Section 4 shall, subject to the applicable

- 9 -

provisions of this Part XI, be the amount of the Class II payment to the applicant."

UNITED STATES DEPARTMENT OF AGRICULTURE
AGRICULTURAL ADJUSTMENT ADMINISTRATION
WESTERN DIVISION

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - NORTH DAKOTA, SUPPLEMENT 1

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - North Dakota is amended by this supplement as follows:

Part III, Section 1, Practice K, is amended to read as follows:

"K. Plowless fallow.

First tillage to be completed by June 1, 1937, and subsequent tillage frequent enough to prevent weed growth. All tillage to be done by implements that leave the surface rough and planted growth near the surface. Approved implements to be field cultivator, lister, or one way disc where one way disc is used only for initial cultivation." \$1.00 per acre

Part III, Section 1, is amended by adding the following Practice P:

"P. 1. Controlled Summer Fallow.

The summer fallow shall be controlled in accordance with the provisions of Practice K and listed on the contour with listed furrows not more than four feet apart nor less than four inches in depth or listed with dams in the listed furrows not more than sixteen feet apart, and in accordance with specifications recommended by the State Committee and approved by the Director of the Western Division. \$1.50 per acre

2. Combination of Practices J and P, 1." \$2.00 per acre

- 2 -

Part IV, Section 1, first paragraph, is amended to read as follows:

"Payment will be made for the carrying out on range land in 1937, such of the following range-building practices as are approved by the County Committee for the ranching unit, prior to their institution, provided that the range-building payment with respect to any ranching unit shall not exceed the range-building allowance for such ranching unit."

Part IV, Section 1, Practice F, is amended to read as follows:

"F. Range Fences.

For building cross fences or drift fences, constructed as follows: (a) not fewer than three tightly stretched wires, attached to posts set not more than 20 feet apart, with corner posts well braced, or (b) not fewer than three poles, or rails, nailed, with nails not smaller than 40-penny spikes, to posts or jacksspaced not more than 18 feet apart; all posts, poles, rails, and jacks to be good and sound." \$0.30 per rod

Part IV, Section 1, is amended by the addition of Practice I as follows:

"I. Natural Reseeding by Deferred Grazing.

Payment will be made for withholding range land from grazing for the period (from the start of forage growth to seed maturity) established by the State Committee, at the rate of 35 cents per full month of such period for each animal unit of that number of animal units, not in excess of 25 percent of the grazing capacity, which is the same percentage of the grazing capacity of the ranching unit as the acreage upon which grazing is deferred is of the total acreage of range land in the ranching unit. Payment will not be made for this practice (1) if the operator permits the remainder of the range land in the ranching unit to be grazed to an extent that causes deterioration of such range land, and (2) if the deferred grazing is carried out on range land in the ranching unit which normally is not used for grazing during such period." \$0.35 per animal unit for each full month

Part VI, Section 8, Paragraph B, is amended to read as follows:

"B. An application for payment may be made by an owner, share-tenant, share-cropper, ranch operator, or such other person as may be designated by the Secretary. In the event of the death, disappearance or legal incompetency of an applicant for payment, any payment which has not been received by such applicant prior to his death, disappearance or legal incompetency and which would otherwise be made to such applicant, shall be made to the person who, under rules prescribed by the Secretary, is determined to be eligible to receive such payment."

Part VIII, Section 1, is amended to read as follows:

"Section 1. Soil-Depleting Crops.--Land devoted to any of the following crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested; except as provided in Section 2 of this Part VIII with respect to nurse crops, and green manure crops, and as provided in Section 3 of this Part VIII with respect to nurse crops, and emergency forage crops:

- a. Small grains, including flax.
- b. Corn (field, sweet, and popcorn).
- c. Potatoes.
- d. Sugar beets.
- e. Root crops grown for feed.
- f. Cultivated sunflowers.
- g. Mustard (commercial).
- h. Rape.
- i. Truck and vegetable crops and their seed; melons, and strawberries.
- j. Grain sorghums, sweet sorghums, broom corn and Sudan grass, harvested for seed, grain or hay; or pastured.
- k. Millets.
- l. Soybeans, field beans, canning beans, cowpeas, field peas, seed peas, and canning peas, harvested for grain seed or hay."

Part VIII, Section 2, first paragraph, is amended to read as follows:

"Section 2. Soil-Conserving Crops.--Cropland devoted to any of the following crops in 1937 shall be regarded as used for the production of a soil-conserving crop; except that any land devoted to a soil-depleting crop in the same year (within the meaning of Section 1, Part VIII of this bulletin) shall be regarded as having been used for the production of a soil-depleting crop for such year, and except as provided in Section 3 of this Part VIII with respect to a poor stand of soil-conserving crops."

Part XI, Section 3, is amended to read as follows:

"Section 3. Determination of Class II Payments.--The amount of Class II payment to be made to any person for carrying out approved soil-building practices shall be computed on all diversion and nondiversion farms owned or operated by such person in the county as follows:

A. For each farm multiply the number of acres devoted to an approved soil-building practice by the rate specified for such practice; multiply this result by the percentage to which the applicant is entitled, and total the amounts thus obtained.

B. Compute the applicant's share of the soil-building allowance as follows:

1. Multiply the Class I payment to the applicant for diversion from the general soil-depleting base, determined in accordance with the provisions of Section 1, Subsection D, of this Part XI, by 66.7 percent;

2. On each farm individually, determine the applicant's share of the soil-building allowance (without regard to the minimum soil-building allowance) computed in accordance with the provisions of Part III, Section 2, except that, item 2 in Subsection A of said Part and Section shall not be used in such computation.

3. To the amount obtained under item 1, above, add the amount obtained under item 2, above, and the result shall be the soil-building allowance for all farms owned or operated by the applicant in the county.

C. The amount obtained under Subsection A of this Section 3, not in excess of the soil-building allowance obtained under Subsection B of this Section 3 shall, subject to the applicable provisions of this Part XI, be the amount of the Class II payment to the applicant."

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - OREGON, SUPPLEMENT 1

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Oregon is amended by this supplement as follows:

The definition of "RANGE LAND" in part I is amended to read as follows:

"RANGE LAND means any land other than that owned or controlled by the United States Government, or any agency thereof, in which a ranch operator has such a legal estate or interest as to give him control thereof which produces forage for range livestock without cultivation or general irrigation ten acres or more of which, on the average for the ranching unit, are required to graze one animal unit."

Part III, Section 1, Practice J, first paragraph, is amended to read as follows:

"J. Green Manure Crops.

When green manure crops, including rye, commercial mustard, turnips, annual legumes, and mixtures of annual legumes and small grains are grown in 1937 on cropland and turned under after attaining at least two months' growth with no utilization for grain, pasture, seed, or canning purposes."

Part III, Section 1, is amended by the addition of Practice U, Items 1 and 2 as follows:

"U. For applications of gypsum on cropland in 1937,
in connection with new seedings of legumes or
legume-grass mixtures:

1. 400 pounds per acre, containing 20 percent available sulphur or its sulphur equivalent, on irrigated lands in Eastern Oregon. \$3.50 per acre

2. 100 pounds per acre, containing 20 percent available sulphur or its sulphur equivalent, on land in Benton, Multnomah, Clackamas, Marion, Linn, Columbia, Yamhill, Lane, Washington, and Polk Counties." \$1.00 per acre

Part IV, Section 1, first paragraph, is amended to read as follows:

"Section 1. Range-Building Practices and Rates.--Payment will be made for carrying out on range land in 1937 such of the following range-building practices as are approved by the county committee for the ranching unit prior to their institution, provided that the range-building payment with respect to any ranching unit shall not exceed the range-building allowance for such ranching unit."

Part IV, Section 1, Practice F, is amended to read as follows:

"F. Range Fences."

For building cross fences or drift fences, constructed as follows: (a) not fewer than three tightly stretched wires, attached to posts set not more than 20 feet apart, with corner posts well braced, or (b) not fewer than three poles, or rails, nailed, with nails not smaller than 40-penny spikes, to posts or jacks spaced not more than 18 feet apart; all posts, poles, rails, and jacks to be good and sound." \$0.30 per rod

Part IV, Section 1, Item 2, Practice H, is amended to read as follows:

- "2. In the counties of Lane, Douglas, Coos, Curry, Josephine, Jackson, and Linn, for reseeding depleted range land before December 31, 1937, at a rate not less than seven pounds per acre, with such mixtures of the following grasses as may be approved for each county by the State Committee: Common western rye grass, English rye grass, timothy, orchard grass, bent grass, chewings fescue, Kentucky bluegrass, white clover, bur clover, and velvet grass; provided that the range land in the ranching unit is used in 1937 exclusively for the grazing of range livestock." \$1.00 per acre

Part IV, Section 1, is amended by adding the following range-building practice at the end thereof:

- "K. Mountain Meadow Land Practices in Counties Designated under Section 2 of this Part IV."

1. Reseeding Mountain Meadow Land. \$0.20
For reseeding mountain meadow land with good seed of adapted varieties of the following perennial grasses and legumes or mixtures thereof, brome grass, red top, timothy, alsike clover, meadow fescue, medium red clover, and such other perennial grasses and legumes, except alfalfa, or mixtures thereof as are recommended by the State committee and approved by the Director of the Western Division. per pound of seed sown, but not in excess of \$2.00 per acre.

2. Earthen Dams for Erosion Control on Mountain Meadows. \$0.15
For constructing, according to specifications recommended by the State committee and approved by the Director of the Western Division, earthen dams for the exclusive purpose of diverting flood water of intermittent streams to prevent soil erosion on mountain meadow lands." per cubic yard of fill, but not in excess of \$50.00 for each dam.

Part IV, Section 2, is amended to read as follows:

"Section 2. Range-Building Allowance.--The range-building allowance for any ranching unit shall be equal to \$1.50 times the grazing capacity thereof, plus, in the case of certain mountain counties designated by the Director of the Western Division, 40¢ times the number of acres of mountain meadow land in the ranching unit from which hay is normally harvested for feeding on the ranching unit to range livestock owned by the operator of the ranching unit. The mountain counties designated by the Director of the Western Division for the purposes of this section shall be those counties for which, upon the basis of the recommendations of the county and State committees, he determines the mountain meadow land practices specified in Part IV of this bulletin to be necessary and effective in promoting land conservation. In determining the grazing capacity of any ranching unit with respect to which an acreage allowance for mountain meadow land may be made, the grazing capacity of such acreage of mountain meadow land shall not be considered."

Part VI, Section 8, Paragraph B, is amended to read as follows:

"B. An application for payment may be made by an owner, share-tenant, share-cropper, ranch operator, or such other person as may be designated by the Secretary. In the event of the death, disappearance or legal incompetency of an applicant for payment, any payment which has not been received by such applicant prior to his death, disappearance, or legal incompetency and which would otherwise be made to such applicant, shall be made to the person

who, under rules prescribed by the Secretary, is determined to be eligible to receive such payment."

Part VIII, Section 1, is amended to read as follows:

"Section 1. Soil-Depleting Crops.---Land devoted to any of the following uses or crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested; except as provided in Section 2 of this Part VIII with respect to nurse crops, and green manure crops, and as provided in Section 3 of this Part VIII with respect to nurse crops, summer fallow, emergency forage crops, cover crops, and support crops:

- a. Small grains, including flax.
- b. Corn (field, sweet, and popcorn).
- c. Potatoes.
- d. Sweetpotatoes.
- e. Sugar beets.
- f. Root crops grown for feed.
- g. Hemp.
- h. Cultivated sunflowers.
- i. Mustard (commercial).
- j. Rape.
- k. Truck and vegetable crops (except perennial vegetables) and their seeds; melons, and strawberries.
- l. Grain sorghums, sweet sorghums, broom corn, and Sudan grass, harvested for seed, grain, or hay; or pastured.
- m. Millets.
- n. Soybeans, field beans, canning beans, cowpeas, field peas, seed peas, and canning peas, harvested for seed, or hay; or pastured.
- o. Flowers and their seeds.
- p. Kale.

q. Annual grasses, including Italian rye grass and *Bromus Secalinus*.

r. Cultivated fallow (summer fallow)."

Part VIII, Section 2, first paragraph, is amended to read as follows:

"Section 2. Soil-Conserving Crops. Cropland devoted to any of the following crops in 1937 shall be regarded as used for the production of a soil-conserving crop; except that any land devoted to a soil-depleting crop in the same year (within the meaning of Section 1 of Part VIII) shall be regarded as having been used for the production of a soil-depleting crop for such year, and except as provided in Section 3 of this Part VIII with respect to a poor stand of soil-conserving crops, and the seeding of soil-conserving crops following summer fallow."

Part VIII, Section 2, Subsection b, is amended to read as follows:

"b. Green manure crops, including annual legumes, commercial mustard, turnips, rye, and mixtures of annual legumes and small grains when turned under in 1937, after attaining at least two months' growth; except when followed by summer fallow on non-irrigated cropland in Eastern Oregon."

Part VIII, Section 3, Subsection f, is amended to read as follows:

"f. Any acreage devoted in 1937 to the production of emergency forage crops consisting of millets, Sudan grass, rape, oats, barley, and annual legumes or mixtures of such crops which the county committee determines is equivalent to the acreage of soil-conserving crops or winter-seeded peas and vetch with small grains as a support crop, on the farm which was winter-killed or destroyed by drought in the period beginning July 1, 1936; provided, such use of land shall have been approved by the county committee prior to May 1, 1937."

Part XI, Section 3, is amended to read as follows:

"Section 3. Determination of Class II Payments.--
The amount of Class II payment to be made to any person for carrying out approved soil-building practices shall be computed on all diversion and nondiversion farms owned or operated by such person in the county as follows:

A. For each farm multiply the number of acres devoted to an approved soil-building practice by the rate specified for such practice; multiply this result by the percentage to which the applicant is entitled, and total the amounts thus obtained.

B. Compute the applicant's share of the soil-building allowance as follows:

1. Multiply the Class I payment to the applicant for diversion from the general soil-depleting base, determined in accordance with the provisions of Section I, Subsection D, of this Part XI, by 66.7 percent;

2. On each farm individually, determine the applicant's share of the soil-building allowance (without regard to the minimum soil-building allowance) computed in accordance with the provisions of Part III, Section 3, except that, item 2 in Subsection A of said Part and Section shall not be used in such computation.

3. To the amount obtained under item 1, above, add the amount obtained under item 2, above, and the result shall be the soil-building allowance for all farms owned or operated by the applicant in the county.

C. The amount obtained under Subsection A of this Section 3, not in excess of the soil-building allowance obtained under Subsection B of this Section 3 shall, subject to the applicable provisions of this Part XI, be the amount of the Class II payment to the applicant."

UNITED STATES DEPARTMENT OF AGRICULTURE
AGRICULTURAL ADJUSTMENT ADMINISTRATION
WESTERN DIVISION

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - UTAH, SUPPLEMENT 1

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Utah is amended by this supplement as follows:

The definition of "RANGE LAND" in part I is amended to read as follows:

"RANGE LAND means any land other than that owned or controlled by the United States Government, or any agency thereof, in which a ranch operator has such a legal estate or interest as to give him control thereof which produces forage for range livestock without cultivation or general irrigation ten acres or more of which, on the average for the ranching unit, are required to graze one animal unit."

Part IV, Section 1, first paragraph, is amended to read as follows:

"Section 1. Range-Building Practices and Rates.---Payment will be made for carrying out on range land in 1937 such of the following range-building practices as are approved by the county committee for the ranching unit prior to their institution, provided that the range-building payment with respect to any ranching unit shall not exceed the range-building allowance for such ranching unit."

Part IV, Section 1, Practice F, is amended to read as follows:

"F. Range Fences.

For building cross fences or drift fences, constructed as follows: (a) not fewer than three tightly stretched wires, attached to posts set not more than 20 feet apart, with corner posts well braced, or (b) not fewer than three poles, or rails, nailed, with nails not smaller than 40-penny spikes, to posts or jacks spaced not more than 18 feet apart; all posts, poles, rails, and jacks to be good and sound." \$0.30 per rod.

Part IV, Section 1, is amended by adding the following range-building practice at the end thereof:

"K. Mountain Meadow Land Practices in Counties Designated under Section 2 of this Part IV.

1. Reseeding Mountain Meadow Land.

For reseeding mountain meadow land with good seed of adapted varieties of the following perennial grasses and legumes or mixtures thereof, brome grass, red top, timothy, alsike clover, meadow fescue, medium red clover, and such other perennial grasses and legumes, except alfalfa, or mixtures thereof as are recommended by the State Committee and approved by the Director of the Western Division."	\$0.20 per pound of seed sown, but not in excess of \$2.00 per acre.
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------

2. Earthen Dams for Erosion Control on Mountain Meadows.

For constructing, according to specifications recommended by the State Committee and approved by the Director of the Western Division, earthen dams for the exclusive purpose of diverting flood water of intermittent streams to prevent soil erosion on mountain meadow land."	\$0.15 per cubic yard of fill, not in excess of \$50.00 for each dam.
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------

Part IV, Section 2, is amended to read as follows:

"Section 2. Range-Building Allowance.--The range-building allowance for any ranching unit shall be equal to \$1.50 times the grazing capacity thereof, plus, in the case of certain mountain counties designated by the Director of the Western Division, 40¢ times the number of acres of mountain meadow land in the ranching unit from which hay is normally harvested for feeding on the ranching unit to range livestock owned by the operator of the ranching unit. The mountain counties designated by the Director of the Western Division for the purposes of this Section shall be those counties for which, upon the basis of the recommendations of the county and State committees, he determines the mountain meadow land practices specified in Part IV of this bulletin to be necessary and effective in promoting land conservation. In determining the grazing capacity of any ranching unit with respect to which an acreage allowance for mountain meadow land may be made, the grazing capacity of such acreage of mountain meadow land shall not be considered.

Part VI, Section 8, Subsection B, is amended to read as follows:

"B. An application for payment may be made by an owner, share tenant, share-cropper, ranch operator or such other person as may be designated by the Secretary. In the event of the death, disappearance or legal incompetency of an applicant

for payment, any payment which has not been received by such applicant prior to his death, disappearance or legal incompetency and which would otherwise be made to such applicant, shall be made to the person who, under rules prescribed by the Secretary, is determined to be eligible to receive such payment."

Part VIII, Section 1, is amended to read as follows:

"Section 1. Soil-Depleting Crops.-- Land devoted to any of the following uses or crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested; except as provided in Section 2 of this Part VIII with respect to nurse crops, and cover and green manure crops, and as provided in Section 3 of this Part VIII with respect to soil-conserving crops following summer fallow:

- a. Corn (field, sweet, and popcorn).
- b. Potatoes.
- c. Sugar Beets for sugar or seed.
- d. Cultivated sunflowers.
- e. Annual truck, canning, and vegetable crops, and their seeds.
- f. Melons.
- g. Sorghums, including grain sorghums, sweet sorghums, and Sudan grass for seed, grain, hay, or pasture.
- h. Sweet sorghums for syrup.
- i. Small grains, including flax.
- j. Millets.
- k. Soybeans, field beans, cowpeas, field peas, and seed peas, for grain, hay, pasture or canning purposes.
- l. Root crops grown for feed or seed.
- m. Fiber plants.
- n. Annual cut flowers and their seeds.
- o. Rape.
- p. Cultivated fallow (summer fallow) including approved summer fallow."

Part VIII, Section 2, first paragraph, is amended to read as follows:

"Sec. 2. Soil-Conserving Crops. Cropland devoted to any of the following uses or crops in 1937 shall be regarded as used for the production of a soil-conserving crop; except that any land devoted to a soil-depleting crop in the same year (within the meaning of Section 1 of Part VIII), shall be regarded as having been used for the production of a soil-depleting crop for such year, and except as provided in Section 3 of this Part VIII with respect to soil-conserving crops following summer fallow."

Part VIII, Section 2, Subsection b, is amended to read as follows:

- "b. Cover and green manure crops consisting of annual, biennial and perennial legumes; rye, barley, oats,

and grain mixtures; vetches; and such other crops as may be approved by the Director of the Western Division; when turned under in 1937, after attaining at least two months' growth; except when followed by summer fallow on non-irrigated cropland."

Part XI, Section 3, is amended to read as follows:

"Sec. 3. Determination of Class II Payments. The amount of class II payments to be made to any person for carrying out approved soil-building practices shall be computed on all diversion and non-diversion farms owned or operated by such person in the county as follows:

A. For each farm multiply the number of acres devoted to an approved soil-building practice by the rate specified for such practice; multiply this result by the percentage to which the applicant is entitled, and total the amounts thus obtained.

B. Compute the applicant's share of the soil-building allowances as follows:

1. Multiply the class I payment to the applicant for diversion from the general soil-depleting base, determined in accordance with the provisions of Section 1, Subsection D, of this part XI, by 66.7 percent;

2. On each farm individually, determine the applicant's share of the soil-building allowance (without regard to the minimum soil-building allowance) computed in accordance with the provisions of part III, Section 2, except that, item 2 in subsection A of said part and Section shall not be used in such computation;

3. To the amount obtained under item 1, above, add the amount obtained under item 2, above, and the result shall be the soil-building allowance for all farms owned or operated by the applicant in the county.

C. The amount obtained under Subsection A of this Section 3, not in excess of the soil-building allowance obtained under Subsection B of this Section 3 shall, subject to the applicable provisions of this part XI, be the amount of the class II payment to the applicant."

IN TESTIMONY WHEREOF, H. A. Wallace,
Secretary of Agriculture, has hereunto set
his hand and caused the official seal of
the Department of Agriculture to be affixed
in the City of Washington, District of
Columbia, this 3rd day of June, 1937.

UNITED STATES DEPARTMENT OF AGRICULTURE
AGRICULTURAL ADJUSTMENT ADMINISTRATION
WESTERN DIVISION

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - WEBER AND DAVIS COUNTIES, UTAH, SUPPLEMENT 1

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Weber and Davis Counties, Utah, is amended by this supplement as follows:

The definition of "RANGE LAND" in part I is amended to read as follows:

"RANGE LAND means any land other than that owned or controlled by the United States Government, or any agency thereof, in which a ranch operator has such a legal estate or interest as to give him control thereof which produces forage for range livestock without cultivation or general irrigation ten acres or more of which, on the average for the ranching unit, are required to graze one animal unit."

Part IV, Section 1, first paragraph, is amended to read as follows:

"Section 1. Range-Building Practices and Rates.--Payment will be made for carrying out on range land in 1937 such of the following range-building practices as are approved by the county committee for the ranching unit prior to their institution, provided that the range-building payment with respect to any ranching unit shall not exceed the range-building allowance for such ranching unit."

Part IV, Section 1, Practice F, is amended to read as follows:

"F. Range Fences.

For building cross fences or drift fences, constructed as follows: (a) not fewer than three tightly stretched wires, attached to posts set not more than 20 feet apart, with corner posts well braced, or (b) not fewer than three poles, or rails, nailed, with nails not smaller than 40-penny spikes, to posts or jacks spaced not more than 18 feet apart; all posts, poles, rails, and jacks to be good and sound." \$0.30 per rod.

Part IV, Section 1, is amended by adding the following range-building practice at the end thereof:

"K. Mountain Meadow Land Practices Applicable Only if an Acreage Allowance for Mountain Meadow Land is Established under Section 2 of this Part IV.

1. Reseeding Mountain Meadow Land.

For reseeding depleted mountain meadow land with good seed of adapted varieties of the following perennial grasses, and legumes or mixtures thereof, brome grass, red top, timothy, alsike clover, meadow fescue, medium red clover, and such other perennial grasses and legumes, except alfalfa, or mixtures thereof as are recommended by the State Committee and approved by the Director of the Western Division."

\$0.20
per pound
of seed
sown, but
not in ex-
cess of
\$2.00 per
acre.

2. Earthen Dams for Erosion Control on Mountain Meadows.

For constructing, according to specifications recommended by the State Committee and approved by the Director of the Western Division, earthen dams for the exclusive purpose of diverting flood water of intermittent streams to prevent soil erosion on mountain meadow land."

\$0.15
per cubic
yard of
fill, not
in excess
of \$50.00
for each
dam.

Part IV, Section 2, is amended to read as follows:

"Section 2. Range-Building Allowance.---The range-building allowance for any ranching unit shall be equal to \$1.50 times the grazing capacity thereof. However, if the Director of the Western Division determines, upon the basis of the recommendations of the county and State committees, that the mountain meadow land practices specified in Part IV, Section 1, Practice K, are necessary and effective in promoting land conservation in either Weber or Davis County, or both, the range-building allowance shall be equal to \$1.50 times the grazing capacity thereof, plus 40 cents times the number of acres of mountain land in the ranching unit from which hay is normally harvested for feeding on the ranching unit to range livestock owned by the operator of the ranching unit. In determining the grazing capacity of any ranching unit with respect to which an acreage allowance for mountain meadow land may be made, the grazing capacity of such acreage of mountain meadow land shall not be considered."

Part VI, Section 8, Subsection B, is amended to read as follows:

"B. An application for payment may be made by an owner, share-tenant, share-cropper, ranch-operator, or such other person as may be designated by the Secretary. In the event of the death, disappearance or legal incompetency of an applicant for payment, any payment which has not been received by such applicant prior to his death, disappearance or legal incompetency and which would otherwise be made to such applicant shall be made to the person who, under rules prescribed by the Secretary, is determined to be eligible to receive such payment."

Part VIII, Section 1, is amended to read as follows:

"Section 1. Soil-Depleting Crops.--Land devoted to any of the following uses or crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested; except as provided in Section 2 of this Part VIII with respect to nurse crops, and cover and green manure crops, and as provided in Section 3 of this Part VIII with respect to soil-conserving crops following summer fallow:

- a. Corn (field, sweet, and popcorn).
- b. Potatoes.
- c. Sugar Beets for sugar or seed.
- d. Cultivated sunflowers.
- e. Annual truck, canning, and vegetable crops, and their seeds.
- f. Melons.
- g. Sorghums, including grain sorghums, sweet sorghums, and Sudan grass for seed, grain, hay, or pasture.
- h. Sweet sorghums for syrup.
- i. Small grains, including flax.
- j. Millets.
- k. Soybeans, field beans, cowpeas, field peas, and seed peas, for grain, hay, pasture or canning purposes.
- l. Root crops grown for feed or seed.
- m. Fiber plants.
- n. Annual cut flowers and their seeds.
- o. Rape.
- p. Cultivated fallow (summer fallow) including approved summer fallow."

Part VIII, Section 2, first paragraph, is amended to read as follows:

"Sec. 2. Soil-Conserving Crops.--Cropland devoted to any of the following uses or crops in 1937 shall be regarded as used for the production of a soil-conserving crop; except that any land devoted to a soil-depleting crop in the same year (within the meaning of Section 1 of Part VIII), shall be regarded as having been used for the production of a soil-depleting crop for such year, and except as provided in Section 3 of this Part VIII with respect to soil-conserving crops following summer fallow."

Part VIII, Section 2, Subsection b, is amended to read as follows:

- "b. Cover and green manure crops consisting of annual, biennial, and perennial legumes; rye, barley, oats, and grain mixtures; vetches; and such other crops as may be approved by the Director of the Western Division; when turned under in 1937, after attaining at least two months' growth; except when followed by summer fallow on non-irrigated cropland."

Part X is added to read as follows:

"PART X.--COUNTY AVERAGE RATES

Section 1. County Average Rates for Computing Diversion Payments and Soil-Building Allowances.--The county average rates per acre for computing

diversion payments and the county average rates per acre to be used in computing those portions of the soil-building allowance which vary as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States shall be as follows:

County	Average Rate per Acre for Diversion From Soil-Depleting Base <u>1/</u>	Average Soil-Building Allowance Rate per Acre on Acreage Diverted for Payment <u>2/</u>	Average Soil-Building Allowance Rate per Acre on all Cropland on Non-Diversion Farms and Commercial Orchard Land on Diversion Farms <u>3/</u>
Davis	\$10.60	\$7.05	\$1.41
Weber	9.70	6.45	1.29

- 1/ Pursuant to Section 1, Part II of WR Bulletin No. 101.- Weber and Davis Counties, Utah.
- 2/ Pursuant to Subsection A-2, Section 2, Part III of WR Bulletin No. 101 - Weber and Davis Counties, Utah.
- 3/ Pursuant to Subsection A-3 and B-1 of Section 2, Part III of WR Bulletin No. 101 - Weber and Davis Counties, Utah.

Section 2. Rates as Applied to Individual Farms.--For any individual farm the rate of payment for diversion from the soil-depleting base and the rates to be used in computing those portions of the soil-building allowance which vary as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States shall be those rates determined by multiplying the applicable average rate per acre for the county in which the farm is located by the productivity index established for the farm and by dividing the result by 100, except that for any farm on which normal summer fallow acreage represents a part of the soil-depleting base established for such farm, a downward adjustment must be made in the farm rates, so determined, in proportion to the amount of acreage normally devoted to summer fallow which has been included in the soil-depleting base established for the farm.

The productivity index for the farm shall be determined on the basis of the farm yield as compared with the county yield of a crop which is generally grown throughout the county or, on such other basis as the Director of the Western Division may authorize for the purpose of obtaining an accurate reflection of the productivity of the cropland on the farm. The average of the productivity indexes for all farms for which work sheets are filed in a county, weighted by the respective crop acreages for such farms, shall not exceed 100, unless a variance therefrom is recommended by the State committee and approved by the Agricultural Adjustment Administration."

Part XI is added to read as follows:

"PART XI.--MULTIPLE FARM HOLDINGS

Section 1. Determination of Class I Payment for Diversion.--The amount of class I payment to be made to any person for diversion from the soil-depleting base shall be determined on the basis of the performance on all diversion farms owned or operated by such person in the county as follows:

A. Compute for each such farm the applicant's share 1/ of class I payment with respect to the decrease from the soil-depleting base and total the amounts thus obtained;

B. Compute for each such farm the applicant's share of deduction with respect to the 1937 acreage of all soil-depleting crops in excess of the soil-depleting base, and total the amounts thus obtained;

C. Compute for each such farm the applicant's share of the maximum possible class I payment for diversion from the soil-depleting bases respectively and total the amounts thus obtained;

D. Subtract the total obtained under subsection B from the total obtained under subsection A. The result, not in excess of the amount obtained under subsection C, shall, subject to other applicable provisions of this part XI, be the class I payment to the applicant for diversion from the soil-depleting base; Provided, however, that, if the total obtained under subsection B is larger than the total obtained under subsection A, the difference shall be deducted from any payment other than a range-building payment which otherwise would be made to the applicant.

Section 2. Non-diversion Farms.--

A. The foregoing provisions of section 1 of this part XI are not applicable to non-diversion farms, Provided, however, that any non-diversion farm upon which there has been an increase in the 1937 acreage of soil-depleting crops in excess of the soil-depleting base or 20 acres, whichever is the larger, shall be considered a diversion farm.

Section 3. Determination of Class II Payments.-- The amount of class II payments to be made to any person for carrying out approved soil-building practices shall be computed on all diversion and non-diversion farms owned or operated by such person in the county as follows:

A. For each farm multiply the number of acres devoted to an approved soil-building practice by the rate specified for such practice; multiply this result by the percentage to which the applicant is entitled, and total the amounts thus obtained.

1/ The applicant's share of any payment, deduction, acreage, etc., shall be determined in accordance with the provisions of part V governing the applicant's share of payment.

B. Compute the applicant's share of the soil-building allowances as follows:

1. Multiply the class I payment to the applicant for diversion from the soil-depleting base, determined in accordance with the provisions of Section 1, Subsection D, of this Part XI, by 66.7 percent:

2. On each farm individually, determine the applicant's share of the soil-building allowance (without regard to the minimum soil-building allowance) computed in accordance with the provisions of Part III, Section 2, except that, item 2 in subsection A of said part and section shall not be used in such computation;

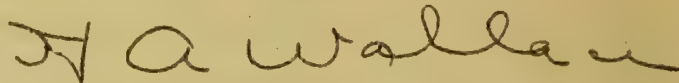

3. To the amount obtained under item 1, above add the amount obtained under item 2, above, and the result shall be the soil-building allowance for all farms owned or operated by the applicant in the county.

C. The amount obtained under Subsection A of this Section 3, not in excess of the soil-building allowance obtained under Subsection B of this Section 3 shall, subject to the applicable provisions of this Part XI, be the amount of the class II payment to the applicant.

Section 4. Adjustment of Payments.--In the event that any person who makes application for payment with respect to any diversion farm has an interest as owner or operator in another farm or farms in the same State upon which the aggregate 1937 acreage of soil-depleting crops exceeds the soil-depleting base acreage for such farm or farms, the applicant's share of any payment may, in the discretion of the Secretary, be adjusted to offset such increase in soil-depleting acreage.

WESTERN DIVISION

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - WASHINGTON, SUPPLEMENT 1

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Washington is amended by this supplement as follows:

The definition of "RANGE LAND" in part I is amended to read as follows:

"RANGE LAND means any land other than that owned or controlled by the United States Government, or any agency thereof, in which a ranch operator has such a legal estate or interest as to give him control thereof which produces forage for range livestock without cultivation or general irrigation ten acres or more of which, on the average for the ranching unit, are required to graze one animal unit."

Part III, Section 1, Practice J, Item 2b is amended to read as follows:

"On all cropland in Western Washington 1/ in addition to the irrigated districts of Yakima, Kittitas, Okanogan, Chelan, Benton, Walla Walla, Franklin, Douglas, Spokane and Asotin counties."

Part III, Section 1, Practice M, Footnote 1/, is amended to read as follows:

"1/ As used herein, the "dry land areas" means that part of Garfield County known as Pataha, Pomeroy Ward One, and Pomeroy Ward Two, and that part of Okanogan County known as Ellisforde, Mason City, Elmerton, Riverside, and Anglin precincts, in addition to the area specified in Footnote 1/, Section 1, WR Bulletin -2- Washington -1. Revised, issued July 14, 1936."

Part III, Section 1, Practice P, is amended to read as follows:

"P. Superphosphate application in Western Washington and on irrigated lands in Eastern Washington.	\$2.25
When superphosphate is applied in 1937 to new seedings of legumes or legume and grass mixtures at or before time of seeding and to old meadows and crop-	per acre

land pastures at rate of not less than 60 pounds of available P_2O_5 per acre in combination with not less than 6 tons of barnyard manure or its equivalent in liquid manure."

Part IV, Section 1, first paragraph, is amended to read as follows:

"Section 1. Range-Building Practices and Rates.--

Payment will be made for carrying out on range land in 1937 such of the following range-building practices as are approved by the county committee for the ranching unit prior to their institution, provided that the range-building payment with respect to any ranching unit shall not exceed the range-building allowance for such ranching unit."

Part IV, Section 1, Practice F, is amended to read as follows:

"F. Range Fences.

For building cross fences or drift fences, constructed as follows: (a) not fewer than three tightly stretched wires, attached to posts set not more than 20 feet apart, with corner posts well braced, or (b) not fewer than three poles, or rails, nailed, with nails not smaller than 40-penny spikes, to posts or jacks spaced not more than 18 feet apart; all posts, poles, rails, and jacks to be good and sound." \$0.30 per rod

Part IV, Section 1, is amended by adding the following range-building practice at the end thereof:

"K. Mountain Meadow Land Practices in Counties Designated under Section 2 of this Part IV.

1. Reseeding Mountain Meadow Land.

For reseeding mountain meadow land with good seed of adapted varieties of the following perennial grasses and legumes or mixtures thereof, brome grass, red top, timothy, alsike clover, meadow fescue, medium red clover, and such other perennial grasses and legumes, except alfalfa, or mixtures thereof as are recommended by the State committee and approved by the Director of the Western Division. \$0.20 per pound of seed sown, but not in excess of \$2.00 per acre.

2. Earthen Dams for Erosion Control on Mountain Meadows.

\$0.15
per cubic
yard of fill,
but not in
excess of
\$50.00 for
each dam.

For constructing, according to specifications recommended by the State committee and approved by the Director of the Western Division, earthen dams for the exclusive purpose of diverting flood water of intermittent streams to prevent soil erosion on mountain meadow land."

Part IV, Section 2, is amended to read as follows:

"Section 2. Range-Building Allowance.--The range-building allowance for any ranching unit shall be equal to \$1.50 times the grazing capacity thereof, plus, in the case of certain mountain counties designated by the Director of the Western Division, 40¢ times the number of acres of mountain meadow land in the ranching unit from which hay is normally harvested for feeding on the ranching unit to range livestock owned by the operator of the ranching unit. The mountain counties designated by the Director of the Western Division for the purposes of this section shall be those counties for which, upon the basis of the recommendations of the county and State committees, he determines the mountain meadow land practices specified in Part IV of this bulletin to be necessary and effective in promoting land conservation. In determining the grazing capacity of any ranching unit with respect to which an acreage allowance for mountain meadow land may be made, the grazing capacity of such acreage of mountain meadow land shall not be considered."

Part VI, Section 8, Paragraph B, is amended to read as follows:

"B. An application for payment may be made by an owner, share-tenant, share-cropper, ranch operator, or such other person as may be designated by the Secretary. In the event of the death, disappearance or legal incompetency of an applicant for payment, any payment which has not been received by such applicant prior to his death, disappearance or legal incompetency and which would otherwise be made to such applicant, shall be made to the person who, under rules prescribed by the Secretary, is determined to be eligible to receive such payment."

Part VIII, Section 1, is amended to read as follows:

"Section 1. Soil-Depleting Crops. Land devoted to any of the following uses or crops shall be regarded as used for the

production of a soil-depleting crop for the year in which such crop would normally be harvested; except as provided in Section 2 of this Part VIII with respect to nurse crops, and green manure crops, and as provided in Section 3 of this Part VIII with respect to nurse crops, soil-conserving crops following summer fallow, emergency forage crops, cover crops, and support crops:

- a. Small grains, including flax.
- b. Corn (field, sweet, and popcorn).
- c. Potatoes.
- d. Sweetpotatoes.
- e. Sugar beets.
- f. Root crops grown for feed.
- g. Hemp.
- h. Cultivated sunflowers.
- i. Mustard (commercial).
- j. Rape.
- k. Truck and vegetable crops (except perennial vegetables) and their seeds; melons and strawberries.
- l. Grain sorghums, sweet sorghums, broom corn, and Sudan grass, harvested for seed, grain, or hay; or pastured.
- m. Millets.
- n. Soybeans, field beans, canning beans, cowpeas, field peas, seed peas, and canning peas, harvested for seed, or hay; or pastured.
- o. Flowers and their seeds.
- p. Kale
- q. Annual grasses, including Italian rye grass and *Bromus Secalinus*.
- r. Cultivated fallow (summer fallow)."

Part VIII, Section 2, first paragraph, is amended to read as follows:

"Sec. 2. Soil-Conserving Crops. Cropland devoted to any of the following crops in 1937 shall be regarded as used for the production of a soil-conserving crop; except that any land devoted to a soil-depleting crop in the same year (within the meaning of Section 1 of this Part VIII) shall be regarded as having been used for the production of a soil-depleting crop for such year; and except as provided in Section 3 of this Part VIII with respect to a poor stand of soil-conserving crops; and soil-conserving crops following summer fallow."

Part VIII, Section 2, Subsection b, is amended to read as follows:

- "b. Green manure crops, including annual legumes, rye, and mixtures of annual legumes and small grains when turned under in 1937, after attaining at least two months' growth, except when followed by summer fallow on non-irrigated cropland."

Part VIII, Section 3, Subsection f, is amended to read as follows:

- "f. Any acreage devoted in 1937 to the production of emergency forage crops consisting of millets, Sudan grass, rape, oats, barley, and annual legumes or mixtures of such crops which the county committee determines is equivalent to the acreage of soil-conserving crops; or winter-seeded peas and vetch when seeded with small grains as a support crop, on the farm which was winter-killed or destroyed by drought in the period beginning July 1, 1936; provided, such use of land shall have been approved by the county committee prior to May 1, 1937."

Part XI, Section 3 is amended to read as follows:

"Section 3. Determination of Class II Payments.--The amount of Class II payment to be made to any person for carrying out approved soil-building practices shall be computed on all diversion and non-diversion farms owned or operated by such person in the county as follows:

- "A. For each farm multiply the number of acres devoted to an approved soil-building practice by the rate specified for such practice; multiply this result by the percentage to which the applicant is entitled, and total the amounts thus obtained."
- "B. Compute the applicant's share of the soil-building allowance as follows:

1. Multiply the Class I payment to the applicant for diversion from the general soil-depleting base, determined in accordance with the provisions of Section 1, Subsection D, of this Part XI, by 66.7 percent;
 2. On each farm individually, determine the applicant's share of the soil-building allowance (without regard to the minimum soil-building allowance) computed in accordance with the provisions of Part III, Section 3, except that, item 2 in Subsection A of said Part and Section shall not be used in such computation.
 3. To the amount obtained under item 1, above, add the amount obtained under item 2, above, and the result shall be the soil-building allowance for all farms owned or operated by the applicant in the county."
- "C. The amount obtained under Subsection A of this Section 3, not in excess of the soil-building allowance obtained under Subsection B of this Section 3 shall, subject to the applicable provisions of this Part XI, be the amount of the Class II payment to the applicant."

WESTERN DIVISION

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - WYOMING, SUPPLEMENT 1

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Wyoming is amended by this supplement as follows:

The definition of "RANGE LAND" in part I is amended to read as follows:

"RANGE LAND means any land other than that owned or controlled by the United States Government, or any agency thereof, in which a ranch operator has such a legal estate or interest as to give him control thereof which produces forage for range livestock without cultivation or general irrigation ten acres or more of which, on the average for the ranching unit, are required to graze one animal unit."

Part III, Section 1, first paragraph is amended to read as follows:

"Section 1. Soil-Building Practices and Rates. -- Payment will be made for carrying out on cropland or on non-crop pasture land in 1937 any of the soil-building practices listed below, provided that the soil-building payment with respect to any farm shall not exceed the soil-building allowance for the farm. The soil-building practices prescribed in this section shall not be eligible for payment unless such practices are carried out in a locality where, in the determination of the State Committee, such practices are desirable from the standpoint of agricultural conservation and are carried out in conformity with methods generally recognized as desirable for the locality, and which tend to effectuate the purposes of the 1937 Agricultural Conservation Program. Payments will not be made for more than one practice carried out on the same acreage except that payments will be made for any one of the practices prescribed in Items A, B, C, D, and E in addition to any one of the practices prescribed in Items F, H, and I."

JUL 27 1937

142
W 527B

Part III, Section 1 "Practice H" is amended to read as follows:

"H. In the counties of Laramie, Goshen, Platte, Niobrara, Converse, Natrona, Weston, Crook, Campbell, Sheridan, Johnson, and Lincoln and such other counties or portions of counties as may be recommended by the State Committee and approved by the Director of the Western Division:

1. Controlled summer fallowing, when tilled in such manner and with such implements as will result in minimum of wind and water erosion, by creating and maintaining a rough, cloddy, trashy, surface, reasonably free from volunteer growth. First tillage operation to be performed prior to June 15, 1937. \$1.00
per acre
2. Controlled summer fallow, in accordance with the provisions of H, 1, when listed on the contour with lister furrows not more than 4 feet apart, nor less than 4 inches in depth or when listed with dams in the lister furrow not more than 16 feet apart, and in accordance with specifications recommended by the State committee and approved by the Director of the Western Division." \$1.50
per acre

Part III, Section 1, "Practice I" is amended to read as follows:

"I. In the counties of Laramie, Goshen, Platte, Niobrara, Converse, Natrona, Weston, Crook, and Campbell and such other counties or portions of counties as may be recommended by the State Committee and approved by the Director of the Western Division:

1. Establishment of strip cropping and fallow, the fallow strips (two or more strips of fallow) to be not less than one rod nor more than 20 rods in width with intervening strips of small grain crops, sudan grass, close drilled or broadcast, or small grain stubble; provided, however, at least one third the area is covered by strips of crop or small grain stubble. Payment will not be made for this practice if there is planted in 1937 a fall seeded crop of rye or wheat on the strips devoted in 1937 to crops or small grain stubble. The first tillage operation must be completed before June 15, 1937, strips to be approximately at right angles to the prevailing winds. Payment will be made on the acreage of fallow or strips devoted to crops or stubble, \$1.00
per acre

whichever is the smaller, and only with respect to the acreage of strip crop and fallow which is in addition to the acreage used for that practice in 1936.

2. Combination of practices H, and I, 1."

\$2.00
per acre

Part IV, Section 1, first paragraph is amended to read as follows:

"Section 1. Range-Building Practices and Rates.---

Payment will be made for carrying out on range land in 1937 such of the following range-building practices as are approved by the county committee for the ranching unit prior to their institution, provided that the range-building payment with respect to any ranching unit shall not exceed the range-building allowance for such ranching unit."

Part IV, Section 1, Practice F, is amended to read as follows:

"F. Range Fences.

For building cross fences or drift fences, constructed as follows: (a) not fewer than three tightly stretched wires, attached to posts set not more than 20 feet apart, with corner posts well braced, or (b) not fewer than three poles, or rails, nailed, with nails not smaller than 40-penny spikes, to posts or jacks spaced not more than 18 feet apart; all posts, poles, rails, and jacks to be good and sound."

\$0.30
per rod

Part IV, Section 1, is amended by adding the following range-building practice at the end thereof:

"J. Mountain Meadow Land Practices in Counties Designated under Section 2 of this Part IV.

1. Reseeding Mountain Meadow Land.

\$0.20
per pound
of seed
sown, but
not in
excess of
\$2.00 per
acre

For reseeding mountain meadow land with good seed of adapted varieties of the following perennial grasses and legumes or mixtures thereof, brome grass, red top, timothy, alsike clover, meadow fescue, medium red clover, and such other perennial grasses and legumes, except alfalfa, or mixtures thereof as are recommended by the State Committee and approved by the Director of the Western Division."

2. Earthen Dams for Erosion Control on Mountain Meadow.

\$0.15
per cubic
yard of
fill, but
not in
excess of
\$50.00 for
each dam.

For constructing, according to specifications recommended by the State Committee and approved by the Director of the Western Division, earthen dams for the exclusive purpose of diverting flood water of intermittent streams to prevent soil erosion on mountain meadow land."

Part IV, Section 2, is amended to read as follows:

"Section 2. Range-Building Allowance.--The range-building allowance for any ranching unit shall be equal to \$1.50 times the grazing capacity thereof, plus, in the case of certain mountain counties designated by the Director of the Western Division, 40¢ times the number of acres of mountain meadow land in the ranching unit from which hay is normally harvested for feeding on the ranching unit to range livestock owned by the operator of the ranching unit. The mountain counties designated by the Director of the Western Division for the purposes of this section shall be those counties for which, upon the basis of the recommendations of the county and State committees, he determines the mountain meadow land practices specified in Part IV of this bulletin to be necessary and effective in promoting land conservation. In determining the grazing capacity of any ranching unit with respect to which an acreage allowance for mountain meadow land may be made, the grazing capacity of such acreage of mountain meadow land shall not be considered."

Part VI, Section 8, Subsection B, is amended to read as follows:

"B. An application for payment may be made by an owner, share-tenant, share-cropper, ranch operator, or such other person as may be designated by the Secretary. In the event of the death, disappearance or legal incompetency of an applicant for payment, any payment which has not been received by such applicant prior to his death, disappearance or legal incompetency and which would otherwise be made to such applicant, shall be made to the person who, under rules prescribed by the Secretary, is determined to be eligible to receive such payment."

Part VIII, Section 1, is amended to read as follows:

"Section 1. Soil-Depleting Crops. Land devoted to any of the following crops shall be regarded as used for the production of a

soil-depleting crop for the year in which such crop would normally be harvested; except as provided in Section 2 of this Part VIII with respect to nurse crops, and as provided in Section 3 of this Part VIII with respect to emergency forage crops:

- a. Small grains, including flax.
- b. Corn (field, sweet, and popcorn).
- c. Potatoes.
- d. Sugar beets.
- e. Root crops grown for feed.
- f. Cultivated sunflowers.
- g. Truck and vegetable crops and their seed; melons, and strawberries.
- h. Grain sorghums, sweet sorghum, and Sudan grass, harvested for seed, grain, or hay; or pastured.
- i. Millets.
- j. Soybeans, field beans, canning beans, cowpeas, field peas, seed peas, and canning peas, harvested for grain, seed or hay.
- k. Rape."

Part VIII, Section 2 is amended by striking out the word "Land" immediately following the title, "Soil-Conserving Crops", and by substituting in lieu thereof the word "Cropland".

Part VIII, Section 2, Item a, is amended to read as follows:

- "a. The following legumes and perennial grasses and such other legumes and grasses as may be approved by the Director of the Western Division when seeded without a nurse crop, or when seeded with a nurse crop if such nurse crop is not harvested for grain or hay; alfalfa, alsike clover, sweet clover, red clover, bluegrass, orchard grass, brome grass, grama grass, buffalo grass, wheat grasses, rye grasses, timothy, and redtop."

Part XI, Section 3, is amended to read as follows:

"Section 3. Determination of Class II Payments.---The amount of Class II payment to be made to any person for carrying out ap-

proved soil-building practices shall be computed on all diversion and nondiversion farms owned or operated by such person in the county as follows:

A. For each farm multiply the number of acres devoted to an approved soil-building practice by the rate specified for such practice; multiply this result by the percentage to which the applicant is entitled, and total the amounts thus obtained.

B. Compute the applicant's share of the soil-building allowance as follows:

1. Multiply the Class I payment to the applicant for diversion from the general soil-depleting base, determined in accordance with the provisions of Section 1, Subsection D, of this Part XI, by 66.7 percent;
2. On each farm individually, determine the applicant's share of the soil-building allowance (without regard to the minimum soil-building allowance) computed in accordance with the provisions of Part III, Section 2, except that, item 2 in Subsection A of said Part and Section shall not be used in such computation.
3. To the amount obtained under item 1, above, add the amount obtained under item 2, above, and the result shall be the soil-building allowance for all farms owned or operated by the applicant in the county.

C. The amount obtained under Subsection A of this Section 3, not in excess of the soil-building allowance obtained under Subsection B of this Section 3 shall, subject to the applicable provisions of this Part XI, be the amount of the Class II payment to the applicant."

1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

WESTERN REGION BULLETIN NO. 101—ARIZONA—
SUPPLEMENT 2

AMENDMENTS TO WRB-101—ARIZONA AS AMENDED

- PART IV, section 1, practice F: Addition of poles and logs as fencing material for range fences.
PART VI, section 3: Payment restricted to effectuate purposes of the program.
PART VI, section 8, subsection D: Establishes location of a farm when it is divided by county lines.
PART VIII, section 1, first paragraph: Clarifies meaning of soil-depleting crops and deletes reference to nurse crops in connection with soil-conserving crops.
PART VIII, section 2, first paragraph: Deletes reference to a poor stand of soil-conserving crops.
PART VIII, section 3: Item (e) is deleted and a new item (e) is substituted in lieu thereof to classify cropland planted to forest trees between January 1, 1930, and January 1, 1934.
PART XI, section 4, subsection B-1: Clarifies definition of soil-depleting base.

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101—Arizona, as amended by Supplement 1, is hereby further amended:

Part IV, section 1, practice F, is amended to read as follows:

"F. Range Fences.—For building cross fences or drift fences, constructed as follows: (a) not fewer than three tightly stretched wires, attached to posts set not more than 20 feet apart, with corner posts well braced, (b) not fewer than three poles, or rails, nailed with nails not smaller than 40-penny spikes, to posts or jacks spaced not more than 18 feet apart, or (c) not fewer than 4 logs laid in worm-like fashion, with corners to be notched and saddled, or braced on either side at point of log intersection with two upright poles or other suitable bracing material wired together with not less than 3 binding wires; all posts, logs, poles, rails, and jacks to be good and sound; provided, that with reference to wire fences, the posts may be set not more than 30 feet apart if stays not more than 7½ feet apart are placed in the intervening spaces: \$0.30 per rod."

Part VI, section 3, is amended to read as follows:

"SEC. 3.—Payments Restricted to Effectuation of Purposes of the Program.—No person shall be entitled to receive or retain any part of any payment if such person has adopted any practice which the Secretary determines tends to defeat any of the purposes of the 1937 Program, or if such person has offset, or through any scheme or device whatsoever, such as but not limited to operating by or through or participating in the operation of a firm, partnership, association, corporation, estate, or trust, has participated in offsetting, or has benefited or is in position to benefit by such offsetting, in whole or in part, the performance rendered in respect of which such payment would otherwise be made."

1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

WESTERN REGION BULLETIN NO. 101—CALIFORNIA,
SUPPLEMENT 2

AMENDMENTS TO WRB-101—CALIFORNIA AS AMENDED

- PART IV, section 1, practice D: Addition of poles and logs as fencing material for range fences.
- PART VI, section 3: Payments restricted to effectuate purposes of the program.
- PART VI, section 4, subsection F: Provides for determining percentage amount of deductions.
- PART VI, section 8, subdivision D: Establishes location of farm when it is divided by county lines.
- PART VIII, section 1, first paragraph: Clarifies meaning of soil-depleting crops.
- PART XI, section 4 subsection B-1: Clarifies definition of soil-depleting base.

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101—California, as amended by Supplement 1, is further amended by this supplement as follows:

Part IV, section 1, practice D is amended to read as follows:

"D. Range Fences.—For building cross fences or drift fences, constructed as follows: (a) not fewer than three tightly stretched wires, attached to posts set not more than 20 feet apart, with corner posts well braced, or (b) not fewer than three poles, or rails, nailed with nails not smaller than 40-penny spikes to posts or jacks spaced not more than 18 feet apart, or (c) not fewer than 4 logs laid in worm-like fashion, with corners to be notched and saddled, or braced on either side at point of log intersection with two upright poles or other suitable bracing material wired together with not less than 3 binding wires; all posts, poles, logs, rails, and jacks to be good and sound, provided, that on land where conditions are such that posts cannot be set regularly at the distances apart designated herein, the posts may be set not more than 30 feet apart with stays not more than 7½ feet apart placed in the intervening spaces: \$0.30 per rod."

Part VI, section 3, is amended to read as follows:

"SEC. 3.—Payments Restricted to Effectuation of Purposes of the Program.—No person shall be entitled to receive or retain any part of any payment if such person has adopted any practice which the Secretary determines tends to defeat any of the purposes of the 1937 program, or if such person has offset, or through any scheme or device whatsoever, such as but not limited to operating by or through or participating in the operation of a firm, partnership, association, corporation, estate, or trust, has participated in offsetting, or has benefited or is in position to benefit by such offsetting, in whole or in part, the performance rendered in respect of which such payment would otherwise be made."

Part VI, section 4, is amended by the addition of subsection F to read as follows:

"F. Notwithstanding the provisions of subsections A, B, and C of this section 4, the amount of such deductions provided therein which shall be made from the payment which otherwise would be made to any person with respect to the farm shall be equal to the amount obtained by multiplying the total deduction, computed in accordance with the provisions of said subsections, A, B, and C, by the percentage of the principal crop, other than the rice crop, to which such person is entitled (such percentage to be determined in accordance with the provisions of part V, section 1, sub-section A); provided, however, that if sugar beets were grown on the farm in 1937 and the division of the sugar beet crop differs from the division of the principal crop, other than rice, the amount of deduction which shall be made from the payment to any person with respect to the farm shall be equal to the sum obtained by multiplying the amount of such total deductions by such person's percentage of the computed gross payment (not including any rice payment) for the farm."

Part VI, section 8, subsection B, is amended to read as follows:

"B. An application for payment may be made by an owner, share-tenant, share-cropper, ranch operator, or such other person as may be designated by the Secretary."

Part VI, section 8, is amended by the addition of the subsection D to read as follows:

"D. A farm located in two or more adjoining counties shall be regarded as located in the county in which the principal dwelling thereon is located or if there is no such principal dwelling, such farm shall be regarded as located in the county in which the major portion of such farm is located."

Part VIII, section 1, first paragraph, is amended to read as follows:

"Land seeded to any of the following crops shall be regarded as used for the production of a soil-depleting crop for the year in which crop would normally be harvested, except as provided in section 2 of this part VIII with respect to nurse crops, cover and green manure crops and volunteer grain for pasture."

Part XI, section 4, is amended to have subsection B-1 read as follows:

"1. Multiply the Class I payment to the applicant for diversion from the soil-depleting base, determined in accordance with the provisions of section 1, subsection D, of this part XI, by 66.7 percent."

UNITED STATES DEPARTMENT OF AGRICULTURE
AGRICULTURAL ADJUSTMENT ADMINISTRATION

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

Bulletin No. 101 - Colorado - Supplement-2

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Colorado, is hereby amended by this Supplement-2 as follows:

Part III, "Rates and Conditions of Soil-Building Payment", is supplemented by the addition of the following Section:

"Sec. 3. Designation of Wind-Erosion Area and Special Provisions Applicable Thereto. The provisions of this Section 3 shall be applicable only to farms located in the counties of Baca, Bent, Cheyenne, Crowley, Kiowa, Las Animas, Otero, Prowers, and such additional counties or parts of counties, subject to wind erosion in 1937, as may be recommended by the State Committee and approved by the Director of the Western Division.

A. Farm Acreage Subject to Active Wind-Erosion in 1937. The county committee shall determine for each farm in the wind-erosion area, upon which the operator intends to perform wind-erosion control practices in 1937, the acreage of cropland, excluding the maximum acreage which may be diverted for payment on such farm, subject in 1937, to active wind erosion. Such acreage shall be referred to as the "wind-erosion acreage".

B. Additional Soil-Building Allowance. For each farm with respect to which the county committee has designated a wind-erosion acreage there will be added to the soil-building allowance, computed in accordance with the provisions of Section 2 of this Part III, an additional amount of 75 cents for each acre of wind-erosion acreage. Such additional soil-building allowance may be earned only performing wind-erosion control practices.

C. Wind-Erosion Control Practices. Payment will be made for carrying out on wind-erosion acreage in 1937, such of the following practices as are approved by the county committee for the farm, prior to their institution:

1.42
61527
JUN 7 1937

Practices and Conditions	Rate of Payment
<p>P. <u>Contour Listing</u></p> <p>For cultivation on the contour with a regular double mold-board lister, basin lister, or chisel; provided, that the furrows shall be not more than 4 feet nor less than 2 feet apart and shall, if listed, be not less than 8 inches in width and 6 inches in depth, or if chiseled, be not less than approximately 4 inches in width and 6 inches in depth.</p>	<p>\$ 0.25 per Acre</p>
<p>Q. <u>Listing or Furrowing</u></p> <p>For cultivation at approximate right angles to the direction of prevailing winds with a regular double mold-board lister, basin lister, or chisel; provided, that the furrows shall be not more than 4 feet nor less than 2 feet apart and shall, if listed, be not less than 8 inches in width and 6 inches in depth, or if chiseled, be not less than approximately 4 inches in width and 6 inches in depth.</p>	<p>\$ 0.20 per Acre</p>
<p>R. <u>Strip Listing or Furrowing</u></p> <p>For cultivation at approximate right angles to the direction of prevailing winds with a regular three-row or four-row double mold-board lister, basin lister, chisel, or hole digger; provided, that the width between strips shall not exceed 30 feet. This practice may be performed more than once on the same acreage, if necessary, to assure effective control following rains or prolonged periods of soil drifting.</p>	<p>\$0.10 per Acre for each cultivation, total payment not to exceed \$0.20 per Acre</p>
<p>S. <u>Planting of Cover Crops</u></p> <p>Sorghums, sudan grass or millets when planted in rows, not greater than 42 inches apart, or close drilled; provided, however, that a reasonably good growth is attained, that only the heads of the sorghum or seed of the sudan grass are removed, that all of the stalks are left on the ground where grown, and that the operator's farming plan provides that such stalks may be left standing on the land until late in the spring of 1938, as a protection against wind erosion.</p>	

Practices and Conditions	Rate of Payment
1. If seeded on the contour or in combination with basin listing.	\$0.50 per Acre
2. If not seeded on the contour or in combination with basin listing.	\$0.35 per Acre
(Payment may be made with respect to this practice, in addition to Practices K, P, Q, or R, if carried out on the same acreage.)	

D. Deductions. The payments provided for in this Section shall not be subject to any deduction for increase in soil-depleting crops. However, such payments shall be subject to deduction for administrative expenses in accordance with the provisions of Section 7 of Part VI.

E. Eligibility for Payment. Notwithstanding the provisions of Part V, payment for any of the foregoing wind-erosion control practices shall be made to the 1937 owner or operator who the county committee determines has performed such practices.

F. Preliminary Application for Payment. By preliminary application made on the prescribed form, any 1937 owner or operator, who has carried out before June 1, 1937, such wind-erosion control practices as are provided for in this Section, may receive a preliminary payment amounting to 85 percent of the amount of payment computed in accordance with the provisions of subsection C above. Such preliminary payment shall not be in excess of 85 percent of the additional soil-building allowance provided for in subsection B above. The amount of such preliminary payment will be deducted from the total amount computed as due such 1937 owner or operator under the complete and final application made by him for payment under the provisions of the 1937 Agricultural Conservation Program. In connection with such complete and final application, appropriate deduction shall be made for administrative expenses.

(SEAL)

IN TESTIMONY WHEREOF, Harry L. Brown, Acting Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 3rd day of April, 1937.

Harry L. Brown
Acting Secretary of Agriculture

Issued April 3, 1937

UNITED STATES DEPARTMENT OF AGRICULTURE
AGRICULTURAL ADJUSTMENT ADMINISTRATION

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

Bulletin No. 101 - Kansas - Supplement-2

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Kansas, is hereby amended by this Supplement-2 as follows:

Part III, "Rates and Conditions of Soil-Building Payment", is supplemented by the addition of the following Section:

"Sec. 4. Designation of Wind-Erosion Area and Special Provisions Applicable Thereto. The provisions of this Section 4 shall be applicable only to farms located in the counties of Clark, Finney, Ford, Grant, Gray, Greeley, Hamilton, Haskell, Hodgeman, Kearny, Lane, Meade, Morton, Scott, Seward, Stanton, Stevens, Wichita, and such additional counties or parts of counties, subject to wind erosion in 1937, as may be recommended by the State Committee and approved by the Director of the Western Division.

A. Farm Acreage Subject to Active Wind-Erosion in 1937. The county committee shall determine for each farm in the wind-erosion area, upon which the operator intends to perform wind-erosion control practices in 1937, the acreage of cropland, excluding the maximum acreage which may be diverted for payment on such farm, subject in 1937, to active wind erosion. Such acreage shall be referred to as the "wind-erosion acreage".

B. Additional Soil-Building Allowance. For each farm with respect to which the county committee has designated a wind-erosion acreage there will be added to the soil-building allowance, computed in accordance with the provisions of Section 3 of this Part III, an additional amount of 75 cents for each acre of the wind-erosion acreage. Such additional soil-building allowance may be earned only by performing wind-erosion control practices.

C. Wind-Erosion Control Practices. Payment will be made for carrying out on wind-erosion acreage in 1937, such of the following practices as are approved by the county committee for the farm, prior to their institution.

Practices and Conditions	Rate of Payment
<p>U. <u>Contour Listing.</u></p> <p>For cultivation on the contour with a regular double mold-board lister, basin lister, or chisel; provided, that the furrows shall be not more than 4 feet nor less than 2 feet apart and shall, if listed, be not less than 8 inches in width and 6 inches in depth, or if chiseled, be not less than approximately 4 inches in width and 6 inches in depth.</p>	<p>\$0.25 per Acre</p>
<p>V. <u>Listing or Furrowing.</u></p> <p>For cultivation at approximate right angles to the direction of prevailing winds with a regular double moldboard lister, basin lister, or chisel; provided, that the furrows shall be not more than 4 feet nor less than 2 feet apart and shall, if listed, be not less than 8 inches in width and 6 inches in depth, or if chiseled, be not less than approximately 4 inches in width and 6 inches in depth.</p>	<p>\$0.20 per Acre</p>
<p>W. <u>Strip Listing or Furrowing.</u></p> <p>For cultivation at approximate right angles to the direction of prevailing winds with a regular three-row or four-row double mold-board lister, basin lister, chisel, or hole digger; provided, that the width between strips shall not exceed 30 feet. This practice may be performed more than once on the same acreage, if necessary to assure effective control following rains or prolonged periods of soil drifting.</p>	<p>\$0.10 per Acre for each cultivation, total pay- ment not to exceed \$0.20 per Acre.</p>
<p>X. <u>Planting of Cover Crops.</u></p> <p>Sorghums, sudan grass or millets when planted in rows, not greater than 42 inches apart, or close drilled; provided, however, that a reasonably good growth is attained, that only the heads of the sorghum or seed of the sudan grass are removed, that all of the stalks are left on the ground where grown, and that the operator's farming plan provides that such stalks may be left standing on the land until late in the spring of 1938, as a protection against wind erosion.</p>	

Practices and Conditions	Rate of payment
1. If seeded on the contour or in combination with basin listing.	\$0.50 per Acre
2. If not seeded on the contour or in combination with basin listing.	\$0.35 per Acre

(Payment may be made with respect to this practice, in addition to Practices N, O, U, V, or W, if carried out on the same acreage.)

D. Deductions. The payments provided for in this Section shall not be subject to any deduction for increase in soil-depleting crops. However, such payment shall be subject to deduction for administrative expenses in accordance with the provisions of Section 7 of Part VI.

E. Eligibility for Payment. Notwithstanding the provisions of Part V, payment for any of the foregoing wind-erosion control practices shall be made to the 1937 owner or operator who the county committee determines has performed such practices.

F. Preliminary Application for Payment. By preliminary application made on the prescribed form, any 1937 owner or operator, who has carried out before June 1, 1937 such wind-erosion control practices as are provided for in this Section, may receive a preliminary payment amounting to 85 percent of the amount of payment computed in accordance with the provisions of subsection C above. Such preliminary payment shall not be in excess of 85 percent of the additional soil-building allowance provided for in subsection B above. The amount of such preliminary payment will be deducted from the total amount computed as due such 1937 owner or operator under the complete and final application made by him for payment under the provisions of the 1937 Agricultural Conservation Program. In connection with such complete and final application, appropriate deductions shall be made for administrative expenses.

[SEAL]

IN TESTIMONY WHEREOF, Harry L. Brown, Acting Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the City of Washington, District of Columbia, this 3rd day of April, 1937.

SUPPLEMENT 2

AMENDMENTS TO WRB-101—IDAHO AS AMENDED

- PART IV, section 1, practice F: Addition of poles and logs as fencing material for range fences.
PART VI, section 3: Payment restricted to effectuate purposes of the program.
PART VI, section 8, subsection D: Establishes location of a farm when it is divided by county lines.
PART VIII, section 1, first paragraph: Clarifies meaning of soil-depleting crops and deletes reference to nurse crops in connection with soil-conserving crops.
PART VIII, section 2, first paragraph: Deletes reference to poor stand of soil-conserving crops.
PART VIII, section 3: Item (d) is deleted and a new item (d) is substituted in lieu thereof to classify cropland planted to forest trees between January 1, 1930, and January 1, 1934.
PART XI, section 3, subsection B-1: Clarifies definition of soil-depleting base.

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101—Idaho, as amended by Supplement 1, is further amended by this supplement as follows:

Part IV, section 1, practice F is amended to read as follows:

"F. Range Fences.—For building cross fences or drift fences, constructed as follows: (a) not fewer than three tightly stretched wires, attached to posts set not more than 20 feet apart, with corner posts well braced, (b) not fewer than three poles, or rails, nailed, with nails not smaller than 40-penny spikes, to posts or jacks spaced not more than 18 feet apart, or (c) not fewer than 4 logs laid in worm-like fashion, with corners to be notched and saddled, or braced on either side at point of log intersection with two upright poles or other suitable bracing material wired together with not less than 3 binding wires; all posts, logs, poles, rails, and jacks to be good and sound; \$0.30 per rod."

Part VI, section 3, is amended to read as follows:

"SEC. 3—Payments Restricted to Effectuation of Purposes of the Program.—No person shall be entitled to receive or retain any part of any payment if such person has adopted any practice which the Secretary determines tends to defeat any of the purposes of the 1937 program, or if such person has offset, or through any scheme or device whatsoever, such as but not limited to operating by or through or participating in the operation of a firm, partnership, association, corporation, estate, or trust, has participated in offsetting, or has benefited or is in position to benefit by such offsetting, in whole or in part, the performance rendered in respect of which such payment would otherwise be made."

Part VI, section 8, subsection B, is amended to read as follows:

"B. An application for payment may be made by an owner, share-tenant, share-cropper, ranch operator, or such other person as may be designated by the Secretary."

Part VI, section 8, is amended by the addition of the following subsection D:

"D. A farm located in two or more adjoining counties shall be regarded as located in the county in which the principal dwelling thereon is located or if there is no such principal dwelling, such farm shall be regarded as located in the county in which the major portion of such farm is located."

Part VIII, section 1, first paragraph is amended to read as follows:

"Land devoted to any of the following uses or seeded to any of the following crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested; except as provided in Section 2 of this Part VIII with respect to nurse crops, and green manure crops, and as provided in Section 3 of this Part VIII with respect to summer fallow, emergency forage crops, and winter cover crops."

Part VIII, section 2, first paragraph is amended to read as follows:

"Cropland devoted to any of the following crops in 1937 shall be regarded as used for the production of a soil-conserving crop: except that any land devoted to a soil-depleting crop in the same year (within the meaning of Section 1 of this Part VIII) shall be regarded as having been used for the production of a soil-depleting crop for such year, and except as provided in Section 3 of this Part VIII with respect to soil-conserving crops following summer fallow."

Part VIII, section 3 is amended by deleting item d and substituting in lieu thereof a new item d which reads as follows:

"d. Cropland planted to forest trees between January 1, 1930, and January 1, 1934."

Part XI, section 3, Subsection B, item 1 is amended to read as follows:

"1. Multiply the Class I payment to the applicant for diversion from the soil-depleting base, determined in accordance with the provisions of Section 1, subsection D, of this part XI, by 66.7 percent."

Done at Washington, D. C., this 23rd day of July 1937. Witness my hand and the seal of the Department of Agriculture.

Harry L. Brown

Acting Secretary of Agriculture.

UNITED STATES DEPARTMENT OF AGRICULTURE
AGRICULTURAL ADJUSTMENT ADMINISTRATION

JUL 27 1937

1937 AGRICULTURAL CONSERVATION PROGRAM - - - - - WESTERN REGION
BULLETIN NO. 101 - MONTANA - Supplement 2

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Montana, as amended, is hereby further amended:

Part III, section 1, practice J, is amended to read as follows:

"J. Establishment of strip-cropping and fallow.

1. The fallow strips (two or more strips of fallow) to be not less than 5 rods nor more than 20 rods in width with intervening strips of small grain crops or small grain stubble the width or twice the width of the fallow strips. The first tillage operation must be completed before June 1, 1937, strips to be approximately at right angles to the prevailing winds. Payment to be made on the acreage of fallow land only and then only when additional to the acreage used for that practice in 1936. \$1.00
Per Acre
2. In designated drouth counties 1/ the fallow strips (two or more strips of fallow) to be not less than 5 rods nor more than 20 rods in width with intervening strips of small grain crops, small grain stubble, or natural protective vegetative growth, the width or twice the width of the fallow strips, strips to be approximately at right angles to the prevailing winds. The first tillage operation must be completed before July 15, 1937. Payment to be made on the acreage of fallow land only and then only when additional to the acreage devoted to this practice in 1936." \$1.00
Per Acre

Part III, section 1, practice N is amended to read as follows:

"N. Diking for flood water diversion.

1. When practiced on non-irrigated cropland in 1937, in accordance with specifications approved by the Director of the Western Division. \$1.00
Per Acre
diked for
flooding
2. When practiced on non-crop pasture land in 1937 in designated emergency drouth counties 1/ in accordance with specifications approved by the Director of the Western Division; provided, that after inspection of the proposed diking area the county committee approves such practice."

1/ Big Horn, Blaine, Broadwater, Carbon, Carter, Cascade, Chouteau, Custer, Daniels, Dawson, Fallon, Fergus, Garfield, Glacier, Golden Valley, Hill, Judith Basin, Lewis and Clark, Liberty, McCone, Meagher, Musselshell, Park, Petroleum, Phillips, Pondera, Powder River, Prairie, Richland, Roosevelt, Rosebud, Sheridan, Stillwater, Sweetgrass, Teton, Toole, Treasure, Valley, Wheatland, Wibaux, and Yellowstone.

Part III, section 1, is amended by the addition of practice T.

- "T. Earthen pits or reservoirs for holding run-off and impounding precipitation in counties designated as emergency drouth counties. ^{1/} For constructing earthen pits or reservoirs, with spillways adequate to prevent dams from washing out, in accordance with specifications issued by the Director of the Western Division." \$0.15 per cubic yard of fill or excavation

Part IV, section 1, practice F, as amended in Supplement 1 - Western Region Bulletin 101 - Montana, is further amended to read as follows:

- "F. Range Fences.

For building cross fences or drift fences, constructed as follows: (a) not fewer than three tightly stretched wires, attached to posts set not more than 20 feet apart, with corner posts well braced, or (b) not fewer than three poles, or rails, nailed, with nails not smaller than 40-penny spikes, to posts or jacks spaced not more than 18 feet apart, or (c) not fewer than 4 logs laid in worm like fashion, with corners to be notched and saddled, or braces on either side at point of log intersection with two upright poles or other suitable bracing material wired together with not less than 3 binding wires; all posts, logs, poles, rails, and jacks to be good and sound." \$0.30 Per Rod

Part VI, section 3, is amended to read as follows:

"Section 3 - Payments Restricted to Effectuation of Purposes of the Program: No person shall be entitled to receive or retain any part of any payment if such person has adopted any practice which the Secretary determines tends to defeat any of the purposes of the 1937 Program, or if such person has offset, or through any scheme or device whatsoever, such as but not limited to operating by or through or participating in the operation of a firm, partnership, association, corporation, estate, or trust, has participated in offsetting, or has benefited or is in position to benefit by such offsetting, in whole or in part, the performance rendered in respect of which such payment would otherwise be made."

Part VI, section 8, is amended by the addition of the following subsection D:

"D. A farm located in two or more adjoining counties shall be regarded as located in the county in which the principal dwelling thereon is located or if there is no such principal dwelling, such farm shall be regarded as located in the county in which the major portion of such farm is located."

Part VIII, section 1, first paragraph as amended by Supplement 1, WRB-101 - Montana, is further amended to read as follows:

^{1/} See footnote, page 1.

"Section 1. Soil-Depleting Crops. Land devoted to any of the following uses or seeded to any of the following crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested; except as provided in Section 2 of this Part VIII with respect to nurse crops, and green manure crops, and as provided in Section 3 of this Part VIII with respect to summer fallow and emergency forage crops."

Part VIII, section 2, first paragraph as amended by Supplement 1, WRB-101 - Montana, is further amended to read as follows:

"Section 2. Soil-Conserving Crops. Cropland devoted to any of the following crops in 1937, excluding such cropland upon which no stand of a soil-conserving crop is secured, shall be regarded as used for the production of a soil-conserving crop; except as provided in item e, Section 3, of this Part VIII, with respect to legumes and grasses; and except that any land devoted to a soil-depleting crop in the same year (within the meaning of Section 1, Part VIII of this bulletin) shall be regarded as having been used for the production of a soil-depleting crop for such year."

Part VIII, section 3, is deleted in its entirety and the following is substituted in lieu thereof:

"Section 3. Neutral Uses. Land devoted to the following uses or crops shall be regarded as devoted to neutral uses:

- a. Orchards, vineyards, nut trees, bush fruits, hops, and perennial vegetables, regardless of the use of the land between the rows.
- b. Idle cropland.
- c. Bulbs and nursery stock.
- d. Cropland planted to forest trees between January 1, 1930, and January 1, 1934.
- e. Any acreage on which perennial or biennial legumes or perennial grasses have been seeded following summer fallow when no soil-depleting crop has been seeded on such land for harvest in 1937.
- f. Emergency Forage Crops.
 1. Any acreage devoted in 1937 to the production of emergency forage crops consisting of millets, Sudan grass, rape, oats, barley, and annual legumes or mixtures of such crops which the county committee determines is equivalent to the acreage of soil-conserving crops on the farm which was winter-killed or destroyed by drouth in the period beginning July 1, 1936, provided, such use of land shall have been approved by the county committee prior to May 1, 1937.

2. In counties designated as emergency drouth counties, 1/

1/ See footnote, page 1.

any acreage devoted in 1937 to the production of emergency forage crops consisting of millets, Sudan grass, rape, oats, barley, sorghums, close drilled corn, and annual legumes or mixtures of such crops which the county committee determines is equivalent to the acreage of soil-conserving crops on the farm which was winter-killed or destroyed by drouth in the period beginning July 1, 1936, provided such use of land shall have been approved by the county committee prior to July 15, 1937."

Part XI, section 3, as amended by Supplement 1 - Western Region Bulletin 101 - Montana, is further amended by amending subsection B-1 to read as follows:

"1. Multiply the Class I Payment to the applicant for diversion from the soil-depleting base, determined in accordance with the provisions of Section 1, subsection D, of this Part XI, by 66.7 percent."

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - PONDERA COUNTY, MONTANA - Supplement 2

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Pondera County, Montana, as amended by Supplement 1, is further amended by this supplement as follows:

Part IX, Section 1 is amended to read as follows:

"Sec. 1. Appeals from Determinations of County Committee: --

Any person who considers himself aggrieved by any recommendation or determination of the county committee with respect to: (a) soil-depleting base; (b) productivity index; (c) grazing capacity; (d) the division of payment; or (e) any other matter affecting the right to or the amount of his payment with respect to the farm or ranching unit may, within 15 days after notice thereof is forwarded to or available to him, request the county committee in writing to reconsider its recommendation or determination; provided, however, that any such person may file such request at any time prior to March 1, 1938, notwithstanding that more than 15 days have elapsed since notice of the county committee's recommendation or determination was forwarded to or available to him.

The county committee shall notify such person of its decision within 15 days after receipt of such written request for reconsideration; provided, however, that any time prior to March 1, 1938, the county committee shall notify such person of its decision notwithstanding that more than 15 days have elapsed since the receipt of such person's request for reconsideration.

If such person is dissatisfied with the decision of the county committee he may within 15 days after such decision appeal in writing to the State committee; provided, however, that any such person may so appeal at any time prior to March 1, 1938, notwithstanding that more than 15 days have elapsed since the decision of the county committee.

The State committee shall notify such person of its decision within 30 days after the receipt of the appeal; provided, however, that any time prior to March 1, 1938, the State committee shall

notify such person of its decision notwithstanding that more than 30 days have elapsed since the receipt of such appeal.

If such person is dissatisfied with the decision of the State committee, he may within 15 days thereafter request the Regional Director to review the decision of the State committee; provided, however, that such person may so request the Regional Director at any time prior to March 1, 1938, notwithstanding that more than 15 days have elapsed since the decision of the State committee.

The determinations of the Regional Director in any appeal case as to the facts, or as to the application of the terms and conditions of the 1937 Agricultural Conservation Program when in conformity with the provisions of said program as approved by the Secretary of Agriculture, shall be final and binding upon all parties."

1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

WESTERN REGION BULLETIN NO. 101—NEVADA, SUPPLEMENT 2

AMENDMENTS TO WRB-101—NEVADA AS AMENDED.

- PART IV, section 1, practice D: Addition of poles and logs as fencing material for range fences.
PART VI, section 3: Payments restricted to effectuate purposes of the program.
PART VI, section 8, subsection D: Establishes location of farm when it is divided by county lines.
PART VIII, section 1, first paragraph: Clarifies meaning of soil-depleting crops.
PART XI, section 3, subsection B-1: Clarifies definition of soil-depleting base.

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101—Nevada, as amended by Supplement 1, is further amended by this supplement as follows:

Part IV, section 1, practice D is amended to read as follows:

"D. Range Fences.—For building cross fences or drift fences, constructed as follows: (a) not fewer than three tightly stretched wires, attached to posts set not more than 20 feet apart, with corner posts well braced, or (b) not fewer than three poles, or rails, nailed, with nails not smaller than 40-penny spikes, to posts or jacks spaced not more than 18 feet apart, or (c) not fewer than 4 logs laid in worm-like fashion, with corners to be notched and saddled, or braced on either side at point of log intersection with two upright poles or other suitable bracing material wired together with not less than three binding wires; all posts, logs, poles, rails and jacks to be good and sound: \$0.30 per rod."

Part VI, section 3, is amended to read as follows:

"SEC. 3.—Payments Restricted to Effectuation of Purposes of the Program.—No person shall be entitled to receive or retain any part of any payment if such person has adopted any practice which the Secretary determines tends to defeat any of the purposes of the 1937 program, or if such person has offset, or through any scheme or device whatsoever, such as but not limited to operating by or through or participating in the operation of a firm, partnership, association, corporation, estate, or trust, has participated in offsetting, or has benefited or is in position to benefit by such offsetting, in whole or in part, the performance rendered in respect of which such payment would otherwise be made."

Part VI, section 8, subsection B, is amended to read as follows:

"B. An application for payment may be made by an owner, share-tenant, share-cropper, ranch operator, or such other person as may be designated by the Secretary."

Part VI, section 8, is amended by the addition of the following subsection D:

Acting Secretary of Agriculture.

Issued April 3, 1937.

UNITED STATES DEPARTMENT OF AGRICULTURE
AGRICULTURAL ADJUSTMENT ADMINISTRATION

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

Bulletin No. 101 - New Mexico - Supplement-2

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101-New Mexico, is hereby amended by this Supplement-2 as follows:

Part III, "Rates and Conditions of Soil-Building Payment", is supplemented by the addition of the following section:

"Sec. 3. Designation of Wind-Erosion Area and Special Provisions Applicable Thereto. The provisions of this Section 3 shall be applicable only to farms located in the counties of De Baca, Colfax, Curry, Guadalupe, Harding, Mora, Quay, Roosevelt, San Miguel, Union, and such additional counties or parts of counties, subject to wind erosion in 1937, as may be recommended by the State committee and approved by the Director of the Western Division.

A. Farm Acreage Subject to Active Wind Erosion in 1937. The county committee shall determine for each farm in the wind-erosion area, upon which the operator intends to perform wind erosion-control practices in 1937, the acreage of cropland, excluding the maximum acreage which may be diverted for payment on such farm, subject in 1937, to active wind erosion. Such acreage shall be referred to as the "wind-erosion acreage."

B. Additional Soil-Building Allowance. For each farm with respect to which the county committee has designated a wind-erosion acreage there will be added to the soil-building allowance, computed in accordance with the provisions of Section 2 of this Part III, an additional amount of 75 cents for each acre of the wind-erosion acreage. Such additional soil-building allowance may be earned only by performing wind-erosion control practices.

C. Wind-Erosion Control Practices. Payment will be made for carrying out on wind-erosion acreage in 1937, such of the following practices as are approved by the county committee for the farm, prior to their institution:

JUN 7 1937

Practices and Conditions	Rate of Payment
Q. <u>Contour Listing.</u>	
For cultivation on the contour with a regular double mold-board lister, basin lister, or chisel; provided, that the furrows shall be not more than 4 feet nor less than 2 feet apart and shall, if listed, be not less than 8 inches in width and 6 inches in depth, or if chiseled, be not less than approximately 4 inches in width and 6 inches in depth.	\$0.25 per acre
R. <u>Listing or Furrowing.</u>	
For cultivation at approximate right angles to the direction of prevailing winds with a regular double mold-board lister, basin lister, or chisel; provided, that the furrows shall be not more than 4 feet nor less than 2 feet apart and shall, if listed, be not less than 8 inches in width and 6 inches in depth, or if chiseled, be not less than approximately 4 inches in width and 6 inches in depth.	\$0.20 per acre
S. <u>Strip Listing or Furrowing.</u>	
For cultivation at approximate right angles to the direction of prevailing winds with a regular three-row or four-row double mold-board lister, basin lister, chisel, or hole digger; provided, that the width between strips shall not exceed 30 feet. This practice may be performed more than once on the same acreage, if necessary, to assure effective control following rains or prolonged periods of soil drifting.	\$0.10 per acre for each cultivation, not to exceed \$0.20 per Acre.
T. <u>Planting of Cover Crops.</u>	
Sorghums, sudan grass or millets when planted in rows, not greater than 42 inches apart, or close drilled; provided, however, that a reasonably good growth is attained, that only the heads, of the sorghum or seed of the sudan grass are removed, that all of the stalks are left on the ground where grown, and that the operator's farming plan provides that such stalks may be left standing on the land until late in the spring of 1938, as a protection against wind erosion.	

Practices and Conditions	: Rate of : Payment
1. If seeded on the contour or in combination with basin listing.	\$0.50 per acre
2. If not seeded on the contour or in combination with basin listing (Payment may be made with respect to this practice, in addition to Practices I, Q, R, or S, if carried out on the same acreage.)	\$0.35 per acre

D. Deductions. The payments provided for in this Section shall not be subject to any deduction for increase in soil-depleting crops or for failure to have sufficient acreage of soil-conserving crops. However, payment provided for in this Section shall be subject to deduction for administrative expenses in accordance with the provisions of Section 7 of Part VI.

E. Eligibility for Payment. Notwithstanding the provisions of Part V, payment for any of the foregoing wind-erosion control practices shall be made to the 1937 owner or operator who, the county committee determines, has performed such practices.

F. Preliminary Application for Payment. By preliminary application made on the prescribed form, any 1937 owner or operator, who has carried out before June 1, 1937 such wind-erosion control practices as are provided for in this Section, may receive a preliminary payment amounting to 85 percent of the amount of payment computed in accordance with the provisions of subsection C above. Such preliminary payment shall not be in excess of 85 percent of the additional soil-building allowance provided for in subsection B above. The amount of such preliminary payment will be deducted from the total amount computed as due such 1937 owner or operator under the complete and final application made by him for payment under the provisions of the 1937 Agricultural Conservation Program. In connection with such complete and final application, appropriate deductions shall be made for administrative expenses.

IN TESTIMONY WHEREOF, Harry L. Brown, Acting Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture, to be affixed in the City of Washington, District of Columbia, this 3rd day of April, 1937.

(SEAL)

Harry L. Brown
Acting Secretary of Agriculture.

UNITED STATES DEPARTMENT OF AGRICULTURE
AGRICULTURAL ADJUSTMENT ADMINISTRATION

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

BULLETIN NO. 101 - NORTH DAKOTA - Supplement 2

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - North Dakota, as amended, is hereby further amended:

The definition of "Range Land" in Part I is amended to read as follows:

"Range Land means any land other than that owned or controlled by the United States Government, or any agency thereof, in which a ranch operator has such a legal estate or interest as to give him control thereof which produces forage for range livestock without cultivation or general irrigation ten acres or more of which, on the average for the ranching unit, are required to graze one animal unit."

Part III, section 1, practice J, is amended to read as follows:

"J. Establishment of strip cropping and fallow.

1. The fallow strips (two or more strips of fallow) to be not less than 5 rods nor more than 20 rods in width with intervening strips of small grain crops or small grain stubble the width or twice the width of the fallow strips. The first tillage operation must be completed before June 1, 1937, strips to be approximately at right angles to the prevailing winds. Payment to be made on the acreage of fallow land only and then only when additional to the acreage used for that practice in 1936. \$1.00
per acre
2. In designated drouth counties,^{1/} the fallow strips (two or more strips of fallow) to be not less than 5 rods nor more than 20 rods in width with intervening strips of small grain crops, small grain stubble, or natural protective vegetative growth, the width or twice the width of the fallow strips, strips to be approximately at right angles to the prevailing winds. The first tillage operation must be completed before July 15, 1937. Payment to be made on the acreage of \$1.00
per acre

^{1/} Adams, Billings, Bowman, Bottineau, Burleigh, Burke, Divide, Dunn, Emmons, Golden Valley, Grant, Hettinger, McHenry, McKenzie, McLean, Mercer, Morton, Mountrail, Oliver, Renville, Sheridan, Sioux, Slope, Stark, Ward, Williams.

fallow land only and then only when additional to the acreage devoted to this practice in 1936."

Part III, section 1, is amended by the addition of practice Q:

"Q. Earthen pits or reservoirs for holding run-off and impounding precipitation in counties designated as emergency drouth counties.^{1/} For constructing earthen pits or reservoirs, with spillways adequate to prevent dams from washing out, in accordance with specifications issued by the Director of the Western Division." \$0.15 per cubic yard of fill or excavation.

Part IV, Section 1, first paragraph, is amended to read as follows:

"Section 1. Range-Building Practices and Rates.--Payment will be made for carrying out on range land in 1937 such of the following range-building practices as are approved by the county committee for the ranching unit prior to their institution, provided that the range-building payment with respect to any ranching unit shall not exceed the range-building allowance for such ranching unit."

Part IV, Section 1, practice F, as amended in Supplement 1 - WRB-101 - North Dakota, is further amended to read as follows:

"F. Range Fences.

For building cross fences or drift fences, constructed as follows: (a) not fewer than three tightly stretched wires, attached to posts set not more than 20 feet apart, with corner posts well braced, or (b) not fewer than three poles, or rails, nailed, with nails not smaller than 40-penny spikes, to posts or jacks spaced not more than 18 feet apart, or (c) not fewer than 4 logs laid in wormlike fashion, with corners to be notched and saddled, or braces on either side at point of log intersection with two upright poles or other suitable bracing material wired together, with not less than 3 binding wires; all posts, logs, poles, rails, and jacks to be good and sound." \$.30 per rod

Part VI, Section 3, is amended to read as follows:

"Section 3 - Payments Restricted to Effectuation of Purposes of the Program: No person shall be entitled to receive or retain any part of any payment if such person has adopted any practice which the Secretary determines tends to defeat any of the purposes of the 1937 program, or if such person has offset, or through any scheme or device whatsoever, such as but not limited to operating by or through or participating in the operation of a firm, partnership, association, corporation, estate, or trust, has participated in offsetting, or has benefited or is in position to benefit by such offsetting, in whole or in part, the per-

^{1/} See footnote, page 1.

formance rendered in respect of which such payment would otherwise be made."

Part VI, Section 8, is amended by the addition of the following subsection D:

"D. A farm located in two or more adjoining counties shall be regarded as located in the county in which the principal dwelling thereon is located or if there is no such principal dwelling, such farm shall be regarded as located in the county in which the major portion of such farm is located."

Part VIII, Section 1, first paragraph, as amended by Supplement 1 - WRB-101 - North Dakota, is further amended to read as follows:

"Section 1. Soil-Depleting Crops.--Land seeded to any of the following crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested; except as provided in Section 2 of this Part VIII with respect to nurse crops, and green manure crops, and as provided in Section 3 of this Part VIII with respect to emergency forage crops."

Part VIII, Section 2, first paragraph, as amended by Supplement 1, WRB-101 - North Dakota, is further amended to read as follows:

"Section 2. Soil-Conserving Crops.--Cropland devoted to any of the following crops in 1937, excluding such cropland upon which no stand of a soil-conserving crop is secured, shall be regarded as used for the production of a soil-conserving crop; except that any land devoted to a soil-depleting crop in the same year (within the meaning of Section 1, Part VIII of this bulletin) shall be regarded as having been used for the production of a soil-depleting crop for such year."

Part VIII, Section 3, is deleted in its entirety and the following is substituted in lieu thereof:

"Section 3. Neutral Uses.--Land devoted to the following uses or crops shall be regarded as devoted to neutral uses:

- a. Orchards, vineyards, nut trees, bush fruits, hops, and perennial vegetables, regardless of the use of the land between the rows.
- b. Idle cropland.
- c. Bulbs and nursery stock.
- d. Cropland planted to forest trees between January 1, 1930 and January 1, 1934.
- e. Cultivated fallow (Summer fallow).

f. Emergency Forage Crops.

1. Any acreage devoted in 1937 to the production of emergency forage crops consisting of millets, Sudan grass, rape, oats, barley, and annual legumes or mixtures of such crops which the county committee determines is equivalent to the acreage of soil-conserving crops on the farm which was winter-killed or destroyed by drouth in the period beginning July 1, 1936, provided, such use of land shall have been approved by the ^{county} committee prior to May 1, 1937.
2. In counties designated as emergency drouth counties,^{1/} any acreage devoted in 1937 to the production of emergency forage crops consisting of millets, Sudan grass, rape, oats, barley, sorghums, close-drilled corn, and annual legumes or mixtures of such crops which the county committee determines is equivalent to the acreage of soil-conserving crops on the farm which was winter-killed or destroyed by drouth in the period beginning July 1, 1936, provided such use of land shall have been approved by the county committee prior to July 15, 1937."

Part XI, Section 3, as amended by Supplement 1 - Western Region Bulletin - 101, North Dakota, is further amended by amending subsection B-1 to read as follows:

- "1. Multiply the Class I payment to the applicant for diversion from the soil-depleting base, determined in accordance with the provisions of Section 1, subsection D, of this Part XI, by 66.7 percent."

WRB-101—OREGON, Supplement 2

Issued July 23, 1937

UNITED STATES DEPARTMENT OF AGRICULTURE

AGRICULTURAL ADJUSTMENT ADMINISTRATION

1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

WESTERN REGION BULLETIN NO. 101—OREGON,
SUPPLEMENT 2

AMENDMENTS TO WRB-101—OREGON AS AMENDED

- PART III, section 1, subsection U-2: Extends practice to four additional counties.
- PART IV, section 1, practice F: Addition of poles and logs as fencing material for range fences.
- PART VI, section 3: Payments restricted to effectuate purposes of the program.
- PART VI, section 8, subsection D: Establishes location of a farm when it is divided by county lines.
- PART VIII, section 1, first paragraph: Clarifies meaning of soil-depleting crops and deletes reference to nurse crops in connection with conserving crops.
- PART VIII, section 2, first paragraph: Deletes reference to poor stand of soil-conserving crops.
- PART VIII, section 3, item (d): Item (d) is deleted and a new item (d) is substituted in lieu thereof to classify cropland planted to forest trees between January 1, 1930, and January 1, 1934.
- PART XI, section 3, subsection B-1: Clarifies definition of soil-depleting base.

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101—Oregon, as amended by Supplement 1, is further amended by this supplement as follows:

Part III, section 1, subsection U, item 2 is amended to read as follows:

"2. 100 pounds per acre, containing 20 percent available sulphur or its sulphur equivalent, on land in Benton, Multnomah, Clackamas, Marion, Linn, Columbia, Yamhill, Lane, Washington, Polk, Josephine, Jackson, Douglas and Hood River Counties."

Part IV, section 1, practice F, is amended to read as follows:

"F. Range Fences.—For building cross fences or drift fences, constructed as follows: (a) not fewer than three tightly stretched wires, attached to posts set not more than 20 feet apart, with corner posts well braced, (b) not fewer than three poles, or rails, nailed, with nails not smaller than 40-penny spikes, to posts or jacks spaced not more than 18 feet apart, or (c) not fewer than 4 logs laid in worm-like fashion, with corners to be notched and saddled, or braced on either side at point of log intersection with two upright poles or other suitable bracing material wired together with not less than 3 binding wires; all posts, logs, poles, rails and jacks to be good and sound: \$.30 per rod."

Part VI, section 3, is amended to read as follows:

"SEC. 3.—Payments Restricted to Effectuation of Purposes of the Program.—No person shall be entitled to receive or retain any part of any payment if such person has adopted any practice which the Secretary determines tends to defeat any of the purposes of the 1937 program, or if such person has offset, or through any scheme or device whatsoever, such as but not limited

to operating by or through or participating in the operation of a firm, partnership, association, corporation, estate, or trust, has participated in offsetting, or has benefited or is in position to benefit by such offsetting, in whole or in part, the performance rendered in respect of which such payment would otherwise be made."

Part VI, section 8, subsection B, is amended to read as follows:

"B. An application for payment may be made by an owner, share-tenant, share-cropper, ranch operator, or such other person as may be designated by the Secretary."

Part VI, section 8, is amended by the addition of subsection D to read as follows:

"D. A farm located in two or more adjoining counties shall be regarded as located in the county in which the principal dwelling thereon is located or if there is no such principal dwelling, such farm shall be regarded as located in the county in which the major portion of such farm is located."

Part VIII, section 1, first paragraph, is amended to read as follows:

"Land devoted to any of the following uses or seeded to any of the following crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested; except as provided in section 2 of this part VIII with respect to nurse crops, and green manure crops, and as provided in section 3 of this part VIII with respect to summer fallow, emergency forage crops, cover crops, and support crops."

Part VIII, section 2, first paragraph is amended to read as follows:

"Cropland devoted to any of the following crops in 1937 shall be regarded as used for the production of a soil-conserving crop; except that any land devoted to a soil-depleting crop in the same year (within the meaning of section 1 of part VIII) shall be regarded as having been used for the production of a soil-depleting crop for such year, and except as provided in section 3 of this part VIII with respect to the seeding of soil-conserving crops following summer fallow."

Part VIII, section 3, is amended by deleting item d and substituting in lieu thereof a new item d, which reads as follows:

"d. Cropland planted to forest trees between January 1, 1930, and January 1, 1934."

Part XI, section 3, subsection B, item 1, is amended to read as follows:

"1. Multiply the Class 1 payment to the applicant for diversion from the soil-depleting base, determined in accordance with the provisions of section 1, subsection D, of this part XI, by 66.7 percent."

Done at Washington, D. C., this 23rd day of July, 1937. Witness my hand and the seal of the Department of Agriculture.

Harry L. Brown

Acting Secretary of Agriculture.

SEP 9 1937

WRB-101—UTAH, Supplement 2

Issued July 23, 1937

UNITED STATES DEPARTMENT OF AGRICULTURE
 AGRICULTURAL ADJUSTMENT ADMINISTRATION

1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

WESTERN REGION BULLETIN NO. 101—UTAH,
 SUPPLEMENT 2

AMENDMENTS TO WRB-101—UTAH AS AMENDED

- PART IV, section 1, practice F: Addition of poles and logs as fencing material for range fences.
 PART VI, section 3: Payment restricted to effectuate purposes of the program.
 PART VI, section 8, subsection D: Establishes location of a farm when it is divided by county lines.
 PART VIII, section 1, first paragraph: Clarifies meaning of soil-depleting crops.
 PART XI, section 3, subsection B-1: Clarifies definition of soil-depleting base.

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101—Utah as amended by Supplement 1 is further amended by this supplement as follows:

Part IV, section 1, practice F is amended to read as follows:

"F. Range Fences.—For building cross fences or drift fences, constructed as follows: (a) not fewer than three tightly stretched wires, attached to posts set not more than 20 feet apart, with corner posts well braced, or (b) not fewer than three poles, or rails, nailed, with nails not smaller than 40-penny spikes, to posts or jacks spaced not more than 18 feet apart, or (c) not fewer than four logs laid in worm-like fashion, with corners to be notched and saddled or braced on either side at point of log intersection with two upright poles or other suitable bracing material wired together, with not less than three binding wires; all posts, logs, poles, rails, and jacks to be good and sound: \$0.30 per rod."

Part VI, section 3, is amended to read as follows:

"SEC. 3—Payments Restricted to Effectuation of Purposes of the Program.—No person shall be entitled to receive or retain any part of any payment if such person has adopted any practice which the Secretary determines tends to defeat any of the purposes of the 1937 program, or if such person has offset, or through any scheme or device whatsoever, such as but not limited to operating by or through or participating in the operation of a firm, partnership, association, corporation, estate, or trust, has participated in offsetting, or has benefited or is in position to benefit by such offsetting, in whole or in part, the performance rendered in respect of which such payment would otherwise be made."

Part VI, section 8, subsection B, is amended to read as follows:

"B. An application for payment may be made by an owner, share-tenant, share-cropper, ranch operator, or such other person as may be designated by the Secretary."

Part VI, section 8, is amended by the addition of the following subsection D:

"D. A farm located in two or more adjoining counties shall be regarded as located in the county in which the principal dwelling thereon is located, or if there is no such principal dwelling, such farm shall be regarded as located in the county in which the major portion of such farm is located."

Part VIII, section 1, first paragraph, is amended to read as follows:

"Land devoted to any of the following uses or seeded to any of the following crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested; except as provided in section 2 of this part VIII with respect to nurse crops, and cover and green manure crops, and as provided in section 3 of this part VIII with respect to soil-conserving crops following summer fallow."

Part XI, section 3, subsection B, item 1, is amended to read as follows:

"1. Multiply the Class I payment to the applicant for diversion from the soil-depleting base, determined in accordance with the provisions of section 1, subsection D, of this part XI, by 66.7 percent."

Done at Washington, D. C., this 23rd day of July, 1937. Witness my hand and the seal of the Department of Agriculture.

WRB-101—WEBER AND DAVIS, Supplement 2

Issued July 23, 1937

UNITED STATES DEPARTMENT OF AGRICULTURE

AGRICULTURAL ADJUSTMENT ADMINISTRATION

1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

WESTERN REGION BULLETIN NO. 101—WEBER AND
 DAVIS COUNTIES, UTAH, SUPPLEMENT 2

AMENDMENTS TO WRB-101—WEBER AND DAVIS COUNTIES, UTAH, AS
 AMENDED

PART IV, section 1, practice F: Addition of poles and logs as fencing material
 for range fences.

PART VI, section 3: Payment restricted to effectuate purposes of the program.

PART VI, section 8, subsection D: Establishes location of a farm when it is
 divided by county lines.

PART VIII, section 1, first paragraph: Clarifies meaning of soil-depleting crops

Pursuant to the authority vested in the Secretary of Agriculture
 under section 8 of the Soil Conservation and Domestic Allotment
 Act, Western Region Bulletin No. 101—Weber and Davis Counties,
 Utah as amended by Supplement 1 is further amended by this sup-
 plement as follows:

Part IV, section 1, practice F, is amended to read as follows:

"F. Range Fences.—For building cross fences or drift fences, constructed as
 follows: (a) not fewer than three tightly stretched wires, attached to posts set
 not more than 20 feet apart, with corner posts well braced, or (b) not fewer than
 three poles, or rails, nailed, with nails not smaller than 40-penny spikes, to posts
 or jacks spaced not more than 18 feet apart, or (c) not fewer than four logs
 laid in worm-like fashion, with corners to be notched and saddled or braced on
 either side at point of log intersection with two upright poles or other suitable
 bracing material wired together, with not less than three binding wires; all
 posts, logs, poles, rails, and jacks to be good and sound: \$0.30 per rod."

Part VI, section 3, is amended to read as follows:

"SEC. 3—Payments Restricted to Effectuation of Purposes of the Program:—
 No person shall be entitled to receive or retain any part of any payment if such
 person has adopted any practice which the Secretary determines tends to defeat
 any of the purposes of the 1937 program, or if such person has offset, or
 through any scheme or device whatsoever, such as but not limited to operating
 by or through or participating in the operation of a firm, partnership, associa-
 tion, corporation, estate, or trust, has participated in offsetting, or has benefited
 or is in position to benefit by such offsetting, in whole or in part, the perform-
 ance rendered in respect of which such payment would otherwise be made."

Part VI, section 8, subsection B, is amended to read as follows:

"B. An application for payment may be made by an owner, share-tenant,
 share-cropper, ranch operator, or such other person as may be designated by the
 Secretary."

Issued July 23, 1937

UNITED STATES DEPARTMENT OF AGRICULTURE

AGRICULTURAL ADJUSTMENT ADMINISTRATION

1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

WESTERN REGION BULLETIN NO. 101—WASHINGTON,
SUPPLEMENT 2

AMENDMENTS TO WRB-101—WASHINGTON AS AMENDED

PART IV, section 1, practice F: Addition of poles and logs as fencing material for range fences.

PART VI, section 3: Payments restricted to effectuate purposes of the program.

PART VI, section 8, subsection D: Establishes location of a farm when it is divided by county lines.

PART VIII, section 1, first paragraph: Clarifies meaning of soil-depleting crops and deletes reference to nurse crops in connection with soil-conserving crops.

PART VIII, section 2, first paragraph: Deletes reference to poor stand of soil-depleting crops.

PART VIII, section 3: Item (d) is deleted and a new item (d) is substituted in lieu thereof to classify cropland planted to forest trees between January 1, 1930, and January 1, 1934.

PART XI, section 3, subsection B-1: Clarifies definition of soil-depleting base.

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101—Washington, as amended by Supplement 1, is further amended by this supplement as follows:

Part IV, section 1, practice F, is amended to read as follows:

"F. Range Fences.—For building cross fences or drift fences, constructed as follows: (a) not fewer than three tightly stretched wires, attached to posts set not more than 20 feet apart, with corner posts well braced, (b) not fewer than three poles, or rails, nailed, with nails not smaller than 40-penny spikes, to posts or jacks spaced not more than 18 feet apart, or (c) not fewer than 4 logs laid in worm-like fashion, with corners to be notched and saddled, or braced on either side at point of log intersection with two upright poles or other suitable bracing material wired together with not less than 3 binding wires; all posts, logs, poles, rails, and jacks to be good and sound: \$0.30 per rod."

Part VI, section 3, is amended to read as follows:

"SEC. 3. Payments Restricted to Effectuation of Purposes of the Program.—No person shall be entitled to receive or retain any part of any payment if such person has adopted any practice which the Secretary determines tends to defeat any of the purposes of the 1937 program, or if such person has offset, or through any scheme or device whatsoever, such as but not limited to operating by or through or participating in the operation of a firm, partnership, association, corporation, estate, or trust, has participated in offsetting, or has benefited or is in position to benefit by such offsetting, in whole or in part, the performance rendered in respect of which such payment would otherwise be made."

Part VI, section 8, subsection B, is amended to read as follows:

"B. An application for payment may be made by an owner, share-tenant, share-cropper, ranch operator, or such other person as may be designated by the Secretary."

Part VI, section 8, is amended by the addition of the following subsection D:

"D. A farm located in two or more adjoining counties shall be regarded as located in the county in which the principal dwelling thereon is located or if there is no such principal dwelling, such farm shall be regarded as located in the county in which the major portion of such farm is located."

Part VIII, section 1, first paragraph is amended to read as follows:

"Land devoted to any of the following uses or seeded to any of the following crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested; except as provided in section 2 of this part VIII with respect to nurse crops, and green manure crops, and as provided in section 3 of this part VIII with respect to soil-conserving crops following summer fallow, emergency forage crops, cover crops, and support crops."

Part VIII, section 2, first paragraph, is amended to read as follows:

"Cropland devoted to any of the following crops in 1937 shall be regarded as used for the production of a soil-conserving crop; except that any land devoted to a soil-depleting crop in the same year (within the meaning of section 1 of this part VIII) shall be regarded as having been used for the production of a soil-depleting crop for such year; and except as provided in section 3 of this part VIII with respect to soil-conserving crops following summer fallow."

Part VIII, section 3, is amended by deleting item d and substituting in lieu thereof a new item d to read as follows:

"d. Cropland planted to forest trees between January 1, 1930, and January 1, 1934."

Part XI, section 3, subsection B, item 1, is amended to read as follows:

"1. Multiply the Class I payment to the applicant for diversion from the soil-depleting base, determined in accordance with the provisions of section 1, subsection D, of this part XI, by 66.7 percent."

Done at Washington, D. C., this 23rd day of July, 1937. Witness my hand and the seal of the Department of Agriculture.

UNITED STATES DEPARTMENT OF AGRICULTURE

AGRICULTURAL ADJUSTMENT ADMINISTRATION

1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

WESTERN REGION BULLETIN NO. 101—WYOMING,
 SUPPLEMENT 2

AMENDMENTS TO WRB-101—WYOMING AS AMENDED

- PART IV, section 1, practice F: Addition of poles and logs as fencing material for range fences.
 PART VI, section 3: Payments restricted to effectuate purposes of the program.
 PART VI, section 8, subsection D: Establishes location of a farm when it is divided by county lines.
 PART VIII, section 1, first paragraph: Clarifies meaning of soil-depleting crops.
 PART VIII, section 3: Classifies cropland planted to forest trees between January 1, 1930, and January 1, 1934.
 PART XI, section 3, subsection B-1: Clarifies definition of soil-depleting base.

Pursuant to the authority vested in the Secretary of Agriculture under section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101—Wyoming, as amended by Supplement 1 is further amended by this supplement as follows:

Part IV, section 1, practice F, is amended to read as follows:

"F. Range Fences.—For building cross fences or drift fences, constructed as follows: (a) not fewer than three tightly stretched wires, attached to posts set not more than 20 feet apart, with corner posts well braced, or (b) not fewer than three poles, or rails, nailed, with nails not smaller than 40-penny spikes, to posts or jacks spaced not more than 18 feet apart, or (c) not fewer than four logs laid in worm-like fashion, with corners to be notched and saddled or braced on either side at point of log intersection with two upright poles or other suitable bracing material wired together with not less than three binding wires; all posts, logs, poles, rails, and jacks to be good and sound: \$.30 per rod."

Part VI, section 3, is amended to read as follows:

"SEC. 3.—Payments Restricted to Effectuation of Purposes of the Program.—No person shall be entitled to receive or retain any part of any payment if such person has adopted any practice which the Secretary determines tends to defeat any of the purposes of the 1937 program, or if such person has offset, or through any scheme or device whatsoever, such as but not limited to operating by or through or participating in the operation of a firm, partnership, association, corporation, estate, or trust, has participated in offsetting, or has benefited or is in position to benefit by such offsetting, in whole or in part, the performance rendered in respect of which such payment would otherwise be made."

Part VI, section 8, subsection B, is amended to read as follows:

"B. An application for payment may be made by an owner, share-tenant, share-cropper, ranch operator, or such other person as may be designated by the Secretary."

Part VI, section 8, is amended by the addition of the following subsection D:

"D. A farm located in two or more adjoining counties shall be regarded as located in the county in which the principal dwelling thereon is located, or if there is no such principal dwelling, such farm shall be regarded as located in the county in which the major portion of such farm is located."

Part VIII, section 3, is amended by the addition of item f as follows:

"f. Cropland planted to forest trees between January 1, 1930, and January 1, 1934."

Part VIII, section 1, first paragraph, is amended to read as follows:

"Land seeded to any of the following crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested; except as provided in section 2 of this part VIII with respect to nurse crops, and as provided in section 3 of this part VIII with respect to emergency forage crops."

Part XI, section 3, subsection B, item 1, is amended to read as follows:

"1. Multiply the Class I payment to the applicant for diversion from the general soil-depleting base, determined in accordance with the provisions of section 1, subsection D, of this part XI, by 66.7 percent."

Done at Washington, D. C., this 23rd day of July, 1937. Witness my hand and the seal of the Department of Agriculture.

Acting Secretary of Agriculture.

UNITED STATES DEPARTMENT OF AGRICULTURE
AGRICULTURAL ADJUSTMENT ADMINISTRATION
WESTERN DIVISION

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - ARIZONA - SUPPLEMENT 3

AMENDMENTS TO WRB-101 - ARIZONA AS AMENDED

Part III, Section 1, Practices A, B, C, D, and E are amended to make clear the authorization of payment for establishment in 1937 of a good stand of such crops when seeded subsequent to the final date for performance of such practices under the 1936 Agricultural Conservation Program;

Part VI, Section 6, is amended by the addition of subsection C designed to preclude duplicate payments; and

Part XI is amended by the addition of Section 6 containing multiple farm provisions with respect to sugar beets.

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - ARIZONA, as amended by Supplement 1 and Supplement 2, is further amended by this supplement as follows:

Part III, Section 1, Practices A, B, C, D, and E are each amended as follows:

Item 1 of each such practice is amended by deleting therefrom the words "Seeding and", by capitalizing the first letter in the word "establishment", by replacing the period at the end of each sentence with a comma, and by adding at the end of each item the expression "provided that such stand is obtained from a crop seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Item 2 of each such practice is amended by inserting immediately following the words "Seeding on cropland in 1937" the expression "or establishment on cropland in 1937 of a good stand of a crop seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Items a and b of said Items 2 are revised to read as follows:

"a. Seeded in 1937, either alone or with a nurse crop which is not harvested for grain or hay."

"b. Seeded with a nurse crop which is harvested for grain or hay."

Part VI, Section 6 is amended by the addition of the following subsection C:

"C. Payment will not be made for any soil-building or range-building practice with respect to which a payment was received or applied for under the 1936 Agricultural Conservation Program."

Part XI is amended by the addition of section 6, as follows:

"Section 6. Determination of Sugar Beet Payment.--The amount of sugar beet payment to be made to any applicant with respect to the 1937 acreage of sugar beets on the farms owned or operated in the county by such applicant shall be determined as follows:

- A. Determine for each farm the applicant's share of the maximum possible payments computed with respect to the 1937 acreage of sugar beets, without regard to any practices carried out on the farm with relation to sugar beets. Total the amounts thus obtained.
- B. Compute for each farm the applicant's share of the acreage of soil-conserving crops required to qualify the 1937 acreage of sugar beets for full payment in accordance with the provisions of Part II, Section 3, subsection A or subsection B, whichever is applicable for the farm. Total the amounts thus obtained.
- C. Compute for each farm the applicant's share 1/ of the acreage devoted to soil-conserving crops in 1937 on land customarily used in rotation with sugar beets. Total the amounts thus obtained.
- D. If the total obtained under subsection C above equals or exceeds the total obtained under subsection B above, the amount obtained under subsection A above shall, subject to the applicable provisions of this Part XI, be the amount of sugar beet payment to the applicant.
- E. If the total obtained under subsection C above is less than the total obtained under subsection B above,
 1. Divide the total obtained under subsection C above by the total obtained under subsection B above, and multiply the percentage thus obtained by the amount obtained under subsection A above.
 2. Compute for each farm individually the applicant's share of the sugar beet payment determined in accordance with the provisions of Part II, Section 3. Total the amounts thus obtained.

1/ If sugar beets were not grown on the farm in 1937, the applicant's share shall be determined in accordance with the provisions of Part V.

F. The amount obtained under subsection E, item 1, above, or the amount obtained under subsection E, item 2, above, whichever is the larger, shall, subject to the applicable provisions of this Part XI, be the amount of the sugar beet payment to the applicant."

WR BULLETIN NO. 101 - CALIFORNIA - SUPPLEMENT 3

AMENDMENTS TO WRB-101 - CALIFORNIA AS AMENDED

Part III, Section 1, Practices A, B, C, D, and E are amended to make clear the authorization of payment for establishment in 1937 of a good stand of such crops when seeded subsequent to the final date for performance of such practices under the 1936 Agricultural Conservation Program;

Part III, Section 1, Practice F is amended to authorize payment for growing in 1937 crested wheat grass seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program;

Part VI, Section 6 is amended by the addition of subsection C designed to preclude duplicate payments; and

Part XI is amended by the addition of Section 6 containing multiple farm provisions with respect to sugar beets.

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin 101 - California, as amended by Supplement 1, and Supplement 2, is further amended by this supplement as follows:

Part III, Section 1, Practices A, B, C, D, and E are each amended as follows:

Item 1 of each such practice is amended by deleting therefrom the words "Seeding and", by capitalizing the first letter in the word "establishment", by replacing the period at the end of each sentence with a comma, and by adding at the end of each item the expression "provided that such stand is obtained from a crop seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program".

Item 2 of each such practice is amended by inserting immediately following the words "Seeding on cropland in 1937" the expression "or establishment on cropland in 1937 of a good stand of a crop seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program".

Items a and b of said Items 2 are revised to read as follows:

- "a. Seeded in 1937, either alone or with a nurse crop which is not harvested for grain or hay".
- "b. Seeded with a nurse crop which is harvested for grain or hay".

Part III, Section 1, Practice F is amended to read as follows:

"Crested Wheat Grass, seeded on cropland in 1937, or grown in 1937 on cropland if seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Part VI, Section 6 is amended by the addition of the following subsection C:

"C. Payment will not be made for any soil-building or range-building practice with respect to which a payment was received or applied for under the 1936 Agricultural Conservation Program."

Part XI is amended by the addition of Section 6, as follows:

"Section 6. Determination of Sugar Beet Payment - The amount of sugar beet payment to be made to any applicant with respect to the 1937 acreage of sugar beets on the farms owned or operated in the county by such applicant shall be determined as follows:

- A. Determine for each farm the applicant's share of the maximum possible payment computed with respect to the 1937 acreage of sugar beets, without regard to any practices carried out on the farm with relation to sugar beets. Total the amounts thus obtained.
- B. Compute for each farm the applicant's share of the acreage of sugar beets grown on the farm in 1937. Total the amounts thus obtained.
- C. Compute for each farm the applicant's share 1/ of the sum of the following:
 - 1. The acreage of soil-conserving crops in 1937 on land customarily used in rotation with sugar beets, multiplied by 2.5.
 - 2. The acreage of green manure or cover crops planted on acreage devoted to sugar beets in 1937 immediately following the harvest of the sugar beets and turned under in the fall or winter after 90 days ungrazed growth, multiplied by 1.25.

1/ If sugar beets were not grown on the farm in 1937, the applicant's share shall be determined in accordance with the provisions of Part V.

3. The acreage of green manure or cover crops turned under on the acreage devoted to sugar beets in 1937 immediately preceding the planting of the sugar beets, multiplied by 1.25.
 4. The acreage of sugar beets grown in 1937 on land devoted to perennial or biennial legumes in 1936.
Total the amounts thus obtained.
- D. If the total obtained under subsection C above equals or exceeds the total obtained under subsection B above, the amount obtained under subsection A above shall, subject to the applicable provisions of this Part XI, be the amount of sugar beet payment to the applicant.
- E. If the total obtained under subsection C above is less than the total obtained under subsection B above -
1. Divide the total obtained under subsection C above, by the total obtained under subsection B above, and multiply the percentage thus obtained by the amount obtained under subsection A above.
 2. Compute for each farm the applicant's share of the acreage of soil-conserving crops required to qualify the 1937 acreage of sugar beets for full payment in accordance with the provisions of Part II, Section 4, subsection A or subsection F, whichever is applicable for the farm. Total the amounts thus obtained.
 3. Compute for each farm the applicant's share 1/ of the acreage devoted to soil-conserving crops in 1937 on land customarily used in rotation with sugar beets. Total the amounts thus obtained.
 4. If the total obtained under item 3 above, equals or exceeds the total obtained under item 2 above, the amount obtained under subsection A above shall, subject to the applicable provisions of this Part XI, be the amount of sugar beet payment to the applicant.
- F. If the total obtained under subsection E, item 3 above, is less than the total obtained under subsection E, item 2 above -
1. Divide the total obtained under subsection E, item 3, by the total obtained under subsection E, item 2, and multiply the percentage thus obtained by the amount obtained under subsection A above.

1/ If sugar beets were not grown on the farm in 1937, the applicant's share shall be determined in accordance with the provisions of Part V.

2. Compute for each farm individually the applicant's share of the sugar beet payment determined in accordance with the provisions of Part II, Section 4. Total the amounts thus obtained.
- G. The amount obtained under subsection E, item 1 above, or the amount under subsection F, item 1 above, or the amount obtained under F, item 2 above, whichever is the largest, shall, subject to the applicable provisions of this Part XI, be the amount of sugar beet payment to the applicant."

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - COLORADO, SUPPLEMENT 3

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Colorado, as amended by Supplement 2, is hereby further amended:

Part III, Section 3C practices P and Q of Supplement 2, WRB-101 - Colorado, are amended to read as follows:

"P. Contour Listing.

For cultivation on the contour with a regular double mold-board lister, basin lister, or chisel; provided, that the furrows shall be not more than 4 feet nor less than 20 inches apart and shall, if listed, be not less than 8 inches in width and 6 inches in depth, or if chiseled, be not less than approximately 4 inches in width and 6 inches in depth.

\$0.25
per acre

(Attention is called to Part III, Section 1 of WRB-101 - Colorado, as amended by Supplements 1 and 2, whereby payment will not be made with respect to more than one practice carried out on the same acreage except as specifically provided otherwise.)

"Q. Listing or Furrowing.

For cultivation at approximate right angles to the direction of prevailing winds with a regular double mold-board lister, basin lister, or chisel; provided, that the furrows shall be not more than 4 feet nor less than 20 inches apart and shall, if listed, be not less than 8 inches in width and 6 inches in depth, or if chiseled, be not less than approximately 4 inches in width and 6 inches in depth."

\$0.20
per acre

Part III, Section 3, paragraph F of Supplement 2, WRB-101 - Colorado, is amended to read as follows:

"F. Preliminary Application for Payment. By preliminary application made on the prescribed form, any 1937 owner or operator, who has carried out before June 20, 1937, such wind-erosion control practices as are provided for in this Section, may receive a preliminary payment amounting to 85 percent of the amount of payment computed in accordance with the provisions of subsection C above. Such preliminary payment shall not be in excess of 85 percent of the additional soil-building allowance provided for in subsection B above. The amount of such preliminary payment will be deducted from the total amount computed as due such 1937 owner or operator under the complete and final application made by him for payment under the provisions of the 1937 Agricultural Conservation Program. In connection with such complete and final application, appropriate deductions shall be made for administrative expenses."

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - IDAHO - SUPPLEMENT 3

AMENDMENTS TO WRB-101 - IDAHO AS AMENDED

Part III, Section 1, Practices A, B, C, D, and F are amended to make clear the authorization of payment for establishment in 1937 of a good stand of such crops when seeded subsequent to the final date for performance of such practices under the 1936 Agricultural Conservation Program;
Part III, Section 1, Practice E is amended to authorize payment for growing in 1937 crested wheat grass seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program;
Part VI, Section 6 is amended by the addition of subsection C designed to preclude duplicate payments; and
Part XI is amended by the addition of Section 5 containing multiple farm provisions with respect to sugar beets.

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Idaho, as amended by Supplement 1 and Supplement 2, is further amended by this supplement as follows:

Part III, Section 1, Practices A, B, C, D, and F are each amended as follows:

Item 1 of each such practice is amended by deleting therefrom the words "Seeding and", by capitalizing the first letter in the word "establishment", by replacing the period at the end of each sentence with a comma, and by adding at the end of each such item the expression "provided that such stand is obtained from a crop seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Item 2 of each such practice is amended by inserting immediately following the words "Seeding on cropland in 1937" the expression "or establishment on cropland in 1937 of a good stand of a crop seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

WRB-101 - IDAHO, Supplement 3

Items a and b of said Items 2 are revised to read as follows:

- "a. Seeded in 1937, either alone or with a nurse crop which is not harvested for grain or hay."
- "b. Seeded with a nurse crop which is harvested for grain or hay."

Part III, Section 1, Practice E is amended to read as follows:

"Crested Wheat Grass, seeded on cropland in 1937, or grown in 1937 on cropland if seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Part VI, Section 6 is amended by the addition of the following subsection C:

"C. Payment will not be made for any soil-building or range-building practice with respect to which a payment was received or applied for under the 1936 Agricultural Conservation Program."

Part XI is amended by the addition of Section 5, as follows:

"Section 5. Determination of Sugar Beet Payment.---
The amount of sugar beet payment to be made to any applicant with respect to the 1937 acreage of sugar beets on the farms owned or operated in the county by such applicant shall be determined as follows:

- A. Determine for each farm the applicant's share of the maximum possible payments computed with respect to the 1937 acreage of sugar beets, without regard to any practices carried out on the farm with relation to sugar beets. Total the amounts thus obtained.
- B. Compute for each farm the applicant's share of the acreage of soil-conserving crops required to qualify the 1937 acreage of sugar beets for full payment in accordance with the provisions of Part II, Section 2, subsection A or subsection B, whichever is applicable for the farm. Total the amounts thus obtained.

WRB-101 - IDAHO, Supplement 3

- C. Compute for each farm the applicant's share ^{1/} of the acreage devoted to soil-conserving crops in 1937 on land customarily used in rotation with sugar beets. Total the amounts thus obtained.
- D. If the total obtained under subsection C above equals or exceeds the total obtained under subsection B above, the amount obtained under subsection A above shall, subject to the applicable provisions of this Part XI, be the amount of sugar beet payment to the applicant.
- E. If the total obtained under subsection C above is less than the total obtained under subsection B above,
1. Divide the total obtained under subsection C above by the total obtained under subsection B above, and multiply the percentage thus obtained by the amount obtained under subsection A above.
 2. Compute for each farm individually the applicant's share of the sugar beet payment determined in accordance with the provisions of Part II, Section 2. Total the amounts thus obtained.
- F. The amount obtained under subsection E, item 1, above, or the amount obtained under subsection E, item 2, above, whichever is the larger, shall, subject to the applicable provisions of this Part XI, be the amount of the sugar beet payment to the applicant."

WR BULLETIN NO. 101 - NEVADA - SUPPLEMENT 3

AMENDMENTS TO WRB-101 - NEVADA AS AMENDED

Part III, Section 1, Practices A, B, C, D, and E are amended to make clear the authorization of payment for establishment in 1937 of a good stand of such crops when seeded subsequent to the final date for performance of such practices under the 1936 Agricultural Conservation Program;

Part III, Section 1, Practice F is amended to authorize payment for growing in 1937 crested wheat grass seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program; and

Part VI, Section 6, is amended by the addition of subsection C designed to preclude duplicate payments.

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Nevada, as amended by Supplement 1 and Supplement 2, is further amended by this supplement as follows:

Part III, Section 1, Practices A, B, C, D, and E are each amended as follows:

Item 1 of each such practice is amended by deleting therefrom the words "Seeding and", by capitalizing the first letter in the word "establishment", by replacing the period at the end of each sentence with a comma, and by adding at the end of each such item the expression "provided that such stand is obtained from a crop seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Item 2 of each such practice is amended by inserting immediately following the words "Seeding on cropland in 1937" the expression "or establishment on cropland in 1937 of a good stand of a crop seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program,".

Items a and b of said Items 2 are revised to read as follows:

- "a. Seeded in 1937, either alone or with a nurse crop which is not harvested for grain or hay.

WRB-101 - NEVADA, Supplement 3

"b. Seeded with a nurse crop which is harvested for grain or hay."

Part III, Section 1, Practice F is amended to read as follows:

"Crested Wheat Grass, seeded on cropland in 1937, or grown in 1937 on cropland if seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Part VI, Section 6 is amended by the addition of the following subsection C:

"C. Payment will not be made for any soil-building or range-building practice with respect to which a payment was received or applied for under the 1936 Agricultural Conservation Program."

WR BULLETIN NO. 101 - UTAH - SUPPLEMENT 3

AMENDMENTS TO WRB-101 - UTAH AS AMENDED

Part III, Section 1, Practices A, B, C, D, and E are amended to make clear the authorization of payments for establishment in 1937 of a good stand of such crops when seeded subsequent to the final date for performance of such practices under the 1936 Agricultural Conservation Program;

Part III, Section 1, Practice F is amended to authorize payment for growing in 1937 crested wheat grass seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program;

Part VI, Section 6 is amended by the addition of Subsection C designed to preclude duplicate payments; and

Part XI is amended by the addition of Section 5 containing multiple farm provisions with respect to sugar beets.

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Utah, as amended by Supplement 1 and Supplement 2, is further amended by this supplement as follows:

Part III, Section 1, Practices A, B, C, D, and E are each amended as follows:

Item 1 of each such practice is amended by deleting therefrom the words "Seeding and", by capitalizing the first letter in the word "establishment", by replacing the period at the end of each sentence with a comma, and by adding at the end of each such item the expression "provided that such stand is obtained from a crop seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Item 2 of each such practice is amended by inserting immediately following the words "Seeding on cropland in 1937" the expression "or establishment on cropland in 1937 of a good stand of a crop seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program,".

Items a and b of said Items 2 are revised to read as follows:

- "a. Seeded in 1937, either alone or with a nurse crop which is not harvested for grain or hay.
- "b. Seeded with a nurse crop which is harvested for grain or hay."

Part III, Section 1, Practice F, is amended to read as follows:

"Crested Wheat Grass, seeded on cropland in 1937, or grown in 1937 on cropland if seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Part VI, Section 6 is amended by the addition of the following Subsection C:

"C. Payment will not be made for any soil-building or range-building practice with respect to which a payment was received or applied for under the 1936 Agricultural Conservation Program."

Part XI is amended by the addition of Section 5, as follows:

"Section 5. Determination of Sugar Beet Payment.--The amount of sugar beet payment to be made to any applicant with respect to the 1937 acreage of sugar beets on the farms owned or operated in the county by such applicant shall be determined as follows:

- A. Determine for each farm the applicant's share of the maximum possible payments computed with respect to the 1937 acreage of sugar beets, without regard to any practices carried out on the farm with relation to sugar beets. Total the amounts thus obtained.
- B. Compute for each farm the applicant's share of the acreage of soil-conserving crops required to qualify the 1937 acreage of sugar beets for full payment in accordance with the provisions of Part II, Section 2, subsection A or subsection B, whichever is applicable for the farm. Total the amounts thus obtained.
- C. Compute for each farm the applicant's share 1/ of the acreage devoted to soil-conserving crops in 1937 on land customarily used in rotation with sugar beets. Total the amounts thus obtained.
- D. If the total obtained under subsection C above equals or exceeds the total obtained under subsection B above, the amount obtained under subsection A above shall, subject to the applicable provisions of this Part XI, be the amount of sugar beet payment to the applicant.

1/ If sugar beets were not grown on the farm in 1937, the applicant's share shall be determined in accordance with the provisions of Part V.

- E. If the total obtained under subsection C above is less than the total obtained under subsection B above,
1. Divide the total obtained under subsection C above by the total obtained under subsection B above, and multiply the percentage thus obtained by the amount obtained under subsection A above.
 2. Compute for each farm individually the applicant's share of the sugar beet payment determined in accordance with the provisions of Part II, Section 2. Total the amounts thus obtained.
- F. The amount obtained under subsection E, item 1 above, or the amount obtained under subsection E, item 2 above, whichever is the larger, shall, subject to the applicable provisions of this Part XI, be the amount of the sugar beet payment to the applicant."

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - WEBER AND DAVIS COUNTIES, UTAH - SUPPLEMENT 3

AMENDMENTS TO WRB-101 - WEBER AND DAVIS COUNTIES, UTAH, AS AMENDED

Part III, Section 1, Practices A, B, C, D, and E are amended to make clear the authorization of payment for establishment in 1937 of a good stand of such crops when seeded subsequent to the final date for performance of such practices under the 1936 Agricultural Conservation Program;

Part III, Section 1, Practice F is amended to authorize payment for growing in 1937 crested wheat grass seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program;

Part VI, Section 6 is amended by the addition of subsection C designed to preclude duplicate payments; and

Part XI is amended by the addition of Section 5 containing multiple farm provisions with respect to sugar beets.

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Weber and Davis Counties, Utah, as amended by Supplement 1 and Supplement 2, is further amended by this supplement as follows:

Part III, Section 1, Practices A, B, C, D, and E are each amended as follows:

Item 1 of each such practice is amended by deleting therefrom the words "Seeding and", by capitalizing the first letter in the word "establishment", by replacing the period at the end of each sentence with a comma, and by adding at the end of each such item the expression "provided that such stand is obtained from a crop seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Item 2 of each such practice is amended by inserting immediately following the words "Seeding on cropland in 1937" the expression "or establishment on cropland in 1937 of a good stand of a crop seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Items a and b of said Items 2 are revised to read as follows:

"a. Seeded in 1937, either alone or with a nurse crop which is not harvested for grain or hay."

"b. Seeded with a nurse crop which is harvested for grain or hay."

Part III, Section 1, Practice F is amended to read as follows:

"Crested Wheat Grass, seeded on cropland in 1937, or grown in 1937 on cropland if seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Part VI, Section 6 is amended by the addition of the following subsection C:

"C. Payment will not be made for any soil-building or range-building practice with respect to which a payment was received or applied for under the 1936 Agricultural Conservation Program."

Part XI is amended by the addition of section 5, as follows:

"Section 5. Determination of Sugar Beet Payment.--- The amount of sugar beet payment to be made to any applicant with respect to the 1937 acreage of sugar beets on the farms owned or operated in the county by such applicant shall be determined as follows:

- A. Determine for each farm the applicant's share of the maximum possible payments computed with respect to the 1937 acreage of sugar beets, without regard to any practices carried out on the farm with relation to sugar beets. Total the amounts thus obtained.
- B. Compute for each farm the applicant's share of the acreage of soil-conserving crops required to qualify the 1937 acreage of sugar beets for full payment in accordance with the provisions of Part II, Section 2, subsection A or subsection B, whichever is applicable for the farm. Total the amounts thus obtained.
- C. Compute for each farm the applicant's share^{1/} of the acreage devoted to soil-conserving crops in 1937 on land customarily used in rotation with sugar beets. Total the amounts thus obtained.
- D. If the total obtained under subsection C above equals or exceeds the total obtained under subsection B above, the amount obtained under subsection A above shall, subject to the applicable provisions of this Part XI, be the amount of sugar beet payment to the applicant.
- E. If the total obtained under subsection C above is less than the total obtained under subsection B above,
 1. Divide the total obtained under subsection C above by the total obtained under subsection B above, and multiply the percentage thus obtained by the amount obtained under subsection A above.

^{1/} If sugar beets were not grown on the farm in 1937, the applicant's share shall be determined in accordance with the provisions of Part V.

2. Compute for each farm individually the applicant's share of the sugar beet payment determined in accordance with the provisions of Part II, Section 2. Total the amounts thus obtained.
- F. The amount obtained under subsection E, item 1, above, or the amount obtained under subsection E, item 2, above, whichever is the larger, shall, subject to the applicable provisions of this Part XI, be the amount of the sugar beet payment to the applicant."

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - WASHINGTON - SUPPLEMENT 3

AMENDMENTS TO WRB-101 - WASHINGTON AS AMENDED

Part III, Section 1, Practices A, B, C, D, and F are amended to make clear the authorization of payment for establishment in 1937 of a good stand of such crops when seeded subsequent to the final date for performance of such practices under the 1936 Agricultural Conservation Program;

Part III, Section 1, Practice E is amended to authorize payment for growing in 1937 crested wheat grass seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program;

Part VI, Section 6 is amended by the addition of Subsection C designed to preclude duplicate payments; and

Part XI is amended by the addition of Section 5 containing multiple farm provisions with respect to sugar beets.

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Washington, as amended by Supplement 1 and Supplement 2, is further amended by this supplement as follows:

Part III, Section 1, Practices A, B, C, D, and F are each amended as follows:

Item 1 of each such practice is amended by deleting therefrom the words "Seeding and", by capitalizing the first letter in the word "establishment", by replacing the period at the end of each sentence with a comma, and by adding at the end of each such item the expression "provided that such stand is obtained from a crop seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Item 2 of each such practice is amended by inserting immediately following the words "Seeding on cropland in 1937" the expression "or establishment on cropland in 1937 of a good stand of a crop seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program,".

Items a and b of said Items 2 are revised to read as follows:

- "a. Seeded in 1937, either alone or with a nurse crop which is not harvested for grain or hay.
- "b. Seeded with a nurse crop which is harvested for grain or hay."

Part III, Section 1, Practice E is amended to read as follows:

"Crested Wheat Grass, seeded on cropland in 1937, or grown in 1937 on cropland if seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Part VI, Section 6 is amended by the addition of the following subsection C:

"C. Payment will not be made for any soil-building or range-building practice with respect to which a payment was received or applied for under the 1936 Agricultural Conservation Program."

Part XI is amended by the addition of Section 5, as follows:

"Section 5. Determination of Sugar Beet Payment.--The amount of sugar beet payment to be made to any applicant with respect to the 1937 acreage of sugar beets on the farms owned or operated in the county by such applicant shall be determined as follows:

- A. Determine for each farm the applicant's share of the maximum possible payments computed with respect to the 1937 acreage of sugar beets, without regard to any practices carried out on the farm with relation to sugar beets. Total the amounts thus obtained.
- B. Compute for each farm the applicant's share of the acreage of soil-conserving crops required to qualify the 1937 acreage of sugar beets for full payment in accordance with the provisions of Part II, Section 2, subsection A or subsection B, whichever is applicable for the farm. Total the amounts thus obtained.
- C. Compute for each farm the applicant's share^{1/} of the acreage devoted to soil-conserving crops in 1937 on land customarily used in rotation with sugar beets. Total the amounts thus obtained.

^{1/} If sugar beets were not grown on the farm in 1937, the applicant's share shall be determined in accordance with the provisions of Part V.

- 3 -

- D. If the total obtained under subsection C above equals or exceeds the total obtained under subsection B above, the amount obtained under subsection A above shall, subject to the applicable provisions of this Part XI, be the amount of sugar beet payment to the applicant.
- E. If the total obtained under subsection C above is less than the total obtained under subsection B above,
1. Divide the total obtained under subsection C above by the total obtained under subsection B above, and multiply the percentage thus obtained by the amount obtained under subsection A above.
 2. Compute for each farm individually the applicant's share of the sugar beet payment determined in accordance with the provisions of Part II, Section 2. Total the amounts thus obtained.
- F. The amount obtained under subsection E, item 1 above, or the amount obtained under subsection E, item 2 above, whichever is the larger, shall, subject to the applicable provisions of this Part XI, be the amount of the sugar beet payment to the applicant."

WR BULLETIN NO. 101 - WYOMING - Supplement 3

AMENDMENTS TO WRB-101 - WYOMING AS AMENDED

Part III, Section 1, Practices A, B, C, and E are amended to make clear the authorization of payment for establishment in 1937 of a good stand of such crops when seeded subsequent to the final date for performance of such practices under the 1936 Agricultural Conservation Program;

Part III, Section 1, Practice D is amended to authorize payment for growing in 1937 crested wheat grass seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program;

Part VI, Section 6 is amended by the addition of Subsection C designed to preclude duplicate payments; and

Part XI is amended by the addition of Section 5 containing multiple farm provisions with respect to sugar beets.

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Wyoming, as amended by Supplement 1 and Supplement 2, is further amended by this supplement as follows:

Part III, Section 1, Practices A, B, C, and E are each amended as follows:

Item 1 of each such practice is amended by deleting therefrom the words "Seeding and", by capitalizing the first letter in the word "establishment", by replacing the period at the end of each sentence with a comma, and by adding at the end of each such item the expression "provided that such stand is obtained from a crop seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Item 2 of each such practice is amended by inserting immediately following the words "Seeding on cropland in 1937" the expression "or establishment on cropland in 1937 of a good stand of a crop seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program,".

Items a and b of said Items 2 are revised to read as follows:

- "a. Seeded in 1937, either alone or with a nurse crop which is not harvested for grain or hay.
- "b. Seeded with a nurse crop which is harvested for grain or hay."

Part III, Section 1, Practice D is amended to read as follows:

"Crested Wheat Grass, seeded on cropland in 1937, or grown in 1937 on cropland if seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Part VI, Section 6 is amended by the addition of the following Subsection C:

"C. Payment will not be made for any soil-building or range-building practice with respect to which a payment was received or applied for under the 1936 Agricultural Conservation Program."

Part XI is amended by the addition of Section 5, as follows:

"Section 5. Determination of Sugar Beet Payment. --The amount of sugar beet payment to be made to any applicant with respect to the 1937 acreage of sugar beets on the farms owned or operated in the county by such applicant shall be determined as follows:

- A. Determine for each farm the applicant's share of the maximum possible payments computed with respect to the 1937 acreage of sugar beets, without regard to any practices carried out on the farm with relation to sugar beets. Total the amounts thus obtained.
- B. Compute for each farm the applicant's share of the acreage of soil-conserving crops required to qualify the 1937 acreage of sugar beets for full payment in accordance with the provisions of Part II, Section 2, subsection A or subsection B, whichever is applicable for the farm. Total the amounts thus obtained.
- C. Compute for each farm the applicant's share 1/ of the acreage devoted to soil-conserving crops in 1937 on land customarily used in rotation with sugar beets. Total the amounts thus obtained.

- D. If the total obtained under subsection C above equals or exceeds the total obtained under subsection B above, the amount obtained under subsection A above shall, subject to the applicable provisions of this Part XI, be the amount of sugar beet payment to the applicant.
- E. If the total obtained under subsection C above is less than the total obtained under subsection B above:
1. Divide the total obtained under subsection C above by the total obtained under subsection B above, and multiply the percentage thus obtained by the amount obtained under subsection A above.
 2. Compute for each farm individually the applicant's share of the sugar beet payment determined in accordance with the provisions of Part II, Section 2. Total the amounts thus obtained.
- F. The amount obtained under subsection E, item 1, above, or the amount obtained under subsection E, item 2 above, whichever is the larger, shall, subject to the applicable provisions of this Part XI, be the amount of the sugar beet payment to the applicant."

1/ If sugar beets were not grown on the farm in 1937, the applicant's share shall be determined in accordance with the provisions of Part V.

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - ARIZONA - SUPPLEMENT 4

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - ARIZONA, as amended by Supplement 1, Supplement 2 and Supplement 3, is further amended by this supplement as follows:

Part XI, Section 2, is amended to read as follows:

"Sec. 2. Deduction for Insufficient Acreage of Soil-Conserving Crops. -- Where a net Class I Payment for diversion from the cotton soil-depleting base has been computed for the applicant in accordance with the applicable provisions of the foregoing Section I, the deduction for failure to have sufficient soil-conserving acreage on the farms with respect to which cotton soil-depleting bases have been established will be determined as follows:

A. Determine the applicant's share $\frac{7}{100}$ of the acreage of soil-conserving crops required with respect to the cotton soil-depleting bases as follows:

1. To the sum of the applicant's share of the net decrease from the cotton soil-depleting bases or the sum of the applicant's share of maximum diversion from the cotton soil-depleting bases, whichever sum is the smaller, add the sum of the applicant's share of the normal acreage of soil-conserving crops on each farm with a cotton soil-depleting base.

B. For each farm with a cotton soil-depleting base, compute the applicant's share $\frac{7}{100}$ of the 1937 acreage of soil-conserving crops and total the amounts thus obtained.

$\frac{7}{100}$ The applicant's share of any payment, deduction, acreage, etc., shall be determined in accordance with the provisions of Part V governing the applicant's share of payment.

WESTERN REGION BULLETIN NO. 101—COLORADO,
SUPPLEMENT 4AMENDMENTS TO WESTERN REGION BULLETIN 101—COLORADO AS
AMENDED

- PART III, section 2, subsection A-2: Clarifies definition of soil-depleting base.
PART III, section 3, subsection C: Clarifies classification of designated wind-erosion acreage.
PART III, section 3, subsection F: Extends date for carrying out wind-erosion control practices with respect to preliminary payment.
PART IV, section 1, practice F: Addition of poles and logs as fencing material for range fences.
PART VI, section 3: Payment restricted to effectuate purposes of program.
PART VI, section 8, subsection D: Establishes location of farm when it is divided by county lines.
PART VIII, section 1, first paragraph: Clarifies meaning of soil-depleting crops.
PART VIII, section 3: Rewritten to show neutral classification of land.
PART XI, section 3, subsection B-1: Clarifies definition of soil-depleting base.

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101—Colorado, as amended by Supplement 1, Supplement 2, and Supplement 3, is hereby further amended:

Part III, section 2, subsection A, item 2, is amended to read as follows:

2. \$4.00, varying among individual farms as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States¹ for each acre diverted for payment from the soil-depleting base.

Part III, section 3, subsection C, is amended to read as follows:

C. Wind-Erosion Control Practices.—Payment will be made for the carrying out on designated wind-erosion acreage in 1937 such of the following practices as are approved by the County Committee for the farm prior to their institution, without such practices, when carried out on designated wind-erosion acreage, being regarded as in any way affecting the prior classification of such acreage.

Part III, section 3, subsection F, is amended to read as follows:

F. Preliminary Application for Payment.—By preliminary application made on the prescribed form, any 1937 owner or operator, who has carried out before July 1, 1937, such wind-erosion control practices as are provided for in this section, may receive a preliminary payment amounting to 85 percent of the amount

¹ The methods to be followed in determining the productivity of the cropland on the farm are contained in Western Region Bulletin No. 102.

Part IX, Section 1 is amended to read as follows:

"Sec. 1. Appeals from Determinations of County Committee. --
Any person who considers himself aggrieved by any recommendation or determination of the county committee with respect to: (a) soil-depleting base; (b) productivity index; (c) grazing capacity; (d) the division of payment; or (e) any other matter affecting the right to or the amount of his payment with respect to the farm or ranching unit may, within 15 days after notice thereof is forwarded to or available to him, request the county committee in writing to reconsider its recommendation or determination; provided, however, that any such person may file such request at any time prior to March 1, 1938, notwithstanding that more than 15 days have elapsed since notice of the county committee's recommendation or determination was forwarded to or available to him.

The county committee shall notify such person of its decision within 15 days after receipt of such written request for reconsideration; provided, however, that any time prior to March 1, 1938, the county committee shall notify such person of its decision notwithstanding that more than 15 days have elapsed since the receipt of such person's request for reconsideration.

If such person is dissatisfied with the decision of the county committee he may within 15 days after such decision appeal in writing to the State committee; provided, however, that any such person may so appeal at any time prior to March 1, 1938, notwithstanding that more than 15 days have elapsed since the decision of the county committee.

The State committee shall notify such person of its decision within 30 days after the receipt of the appeal, provided, however, that any time prior to March 1, 1938, the State committee shall notify

such person of its decision notwithstanding that more than 30 days have elapsed since the receipt of such appeal.

If such person is dissatisfied with the decision of the State committee, he may within 15 days thereafter request the Regional Director to review the decision of the State committee; provided, however, that such person may so request the Regional Director at any time prior to March 1, 1938, notwithstanding that more than 15 days have elapsed since the decision of the State committee.

The determinations of the Regional Director in any appeal case as to the facts, or as to the application of the terms and conditions of the 1937 Agricultural Conservation Program when in conformity with the provisions of said program as approved by the Secretary of Agriculture, shall be final and binding upon all parties."

Issued July 23, 1937

UNITED STATES DEPARTMENT OF AGRICULTURE
AGRICULTURAL ADJUSTMENT ADMINISTRATION

1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

WESTERN REGION BULLETIN NO. 101—KANSAS,
SUPPLEMENT 4

AMENDMENTS TO WESTERN REGION BULLETIN 101—KANSAS
AS AMENDED

PART I: Clarifies definition of range land.

PART III, section 4, subsection C: Clarifies classification of designated wind-erosion acreage.

PART III, section 4, subsection F: Extends date for carrying out wind-erosion control practices with respect to preliminary payment.

PART IV, section 1, first paragraph: Limits payment for range-building practices to the range-building allowance.

PART IV, section 1, practice F: Addition of poles and logs as fencing material for range fences.

PART VI, section 3: Payments restricted to effectuate purposes of the program.

PART VI, section 4: Clarifies method of determining deductions.

PART VI, section 8, subsection D: Establishes location of a farm when it is divided by county lines.

PART VIII, section 1, clarifies meaning of soil-depleting crops.

PART VIII, section 3: Rewritten to show neutral classification of land.

PART XI, section 4, subsection B-1: Clarifies definition of soil-depleting base.

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101—Kansas, as amended by Supplement 1, Supplement 2, and Supplement 3, is hereby further amended:

Part I, the definition of "Range Land" is amended to read as follows:

RANGE LAND means any land other than that owned or controlled by the United States Government, or any agency thereof, in which a ranch operator has such a legal estate or interest as to give him control thereof which produces forage for range livestock without cultivation or general irrigation ten acres or more of which, on the average for the ranching unit, are required to graze one animal unit.

Part III, section 4, subsection C, is amended to read as follows:

C. Wind-Erosion Control Practices.—Payment will be made for the carrying out on designated wind-erosion acreage in 1937 such of the following practices as are approved by the county committee for the farm prior to their institution; without such practices, when carried out on designated wind-erosion acreage, being regarded as in any way affecting the prior classification of such acreage.

Part III, section 4, subsection F, is amended to read as follows:

F. Preliminary Application for Payment.—By preliminary application made on the prescribed form, any 1937 owner or operator, who has carried out before July 1, 1937, such wind-erosion control practices as are provided for in this section, may receive a preliminary payment amounting to 85 percent of the amount of payment computed in accordance with the provisions of subsection C above. Such preliminary payment shall not be in excess of 85 percent of the additional soil-building allowance provided for in subsection B above. The amount of such preliminary payment will be deducted from the total amount computed as due such 1937 owner or operator under the complete and final application made by him for payment under the provisions of the 1937 Agricultural Conservation Program. In connection with such complete and final application, appropriate deductions shall be made for administrative expenses.

Part IV, section 1, first paragraph, is amended to read as follows:

SECTION 1. Range-Building Practices and Rates.—Payment will be made for carrying out on range land in 1937 such of the following range-building practices as are approved by the county committee for the ranching unit prior to their institution, provided that the range-building payment with respect to any ranching unit shall not exceed the range-building allowance for such ranching unit.

Part IV, section 1, practice F, is amended to read as follows:

F. Range Fences.—For building cross fences or drift fences constructed as follows: (a) not fewer than three tightly stretched wires, attached to posts set not more than 20 feet apart, with corner posts well braced, (b) not fewer than three poles, or rails, nailed, with nails not smaller than 40-penny spikes to posts or jacks spaced not more than 18 feet apart, or (c) not fewer than 4 logs laid in worm-like fashion, with corners to be notched and saddled, or braced on either side at point of log intersection with two upright poles or other suitable bracing material wired together with not less than 3 binding wires; all posts, poles, rails, logs, and jacks to be good and sound: \$0.30 per rod.

Part VI, section 3, is amended to read as follows:

SECTION 3.—Payments Restricted to Effectuation of Purposes of the Program: No person shall be entitled to receive or retain any part of any payment if such person has adopted any practice which the Secretary determines tends to defeat any of the purposes of the 1937 program, or if such person has offset, or through any scheme or device whatsoever, such as but not limited to operating by or through or participating in the operation of a firm, partnership, association, corporation, estate, or trust, has participated in offsetting, or has benefited or is in position to benefit by such offsetting, in whole or in part, the performance rendered in respect of which such payment would otherwise be made.

Part VI, section 4, subsection D, is amended to read as follows:

D. If the total acreage of soil-conserving crops on any farm upon which an acreage of cotton or tobacco is diverted for payment in 1937 does not equal or exceed the sum of (1) the normal soil-conserving acreage established for the farm, and (2) the acreage diverted for payment from the cotton and tobacco soil-depleting bases, a deduction shall be made from any payment which otherwise would be made with respect to the farm at the rate of \$3.00 for each acre by which the total acreage of soil-conserving crops on the farm in 1937 is less than such sum.

Part VI, section 8, subsection B, is amended to read as follows:

B. An application for payment may be made by an owner, share-tenant, share-cropper, ranch operator, or such other person as may be designated by the Secretary.

Part VI, section 8, is amended by the addition of subsection D to read as follows:

D. A farm located in two or more adjoining counties shall be regarded as located in the county in which the principal dwelling thereon is located, or if there is no such principal dwelling, such farm shall be regarded as located in the county in which the major portion of such farm is located.

Part VIII, section 1, first paragraph, is amended to read as follows:

Land seeded to any of the following crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested; except as provided in section 2 of this part VIII with respect to nurse crops, as provided in section 3 of this part VIII, with respect to emergency forage crops, and winter cover crops, and as provided in part III, section 4, subsection C, with respect to sorghums, Sudan grass, or millets grown in 1937 on designated wind-erosion acreage.

Part VIII, section 3, is deleted in its entirety and the following is substituted in lieu thereof:

SECTION 3. Neutral Uses.—Land devoted to the following uses or crops shall be regarded as devoted to neutral uses:

- a. Idle cropland.
- b. Cultivated fallow.
- c. Artichokes, bulbs, nursery stocks.
- d. Any acreage devoted in 1937 to the production of emergency forage crops consisting of millets, Sudan grass, rape, oats, barley, and annual legumes or mixtures of such crops which the county committee determines is equivalent to the acreage of soil-conserving crops on the farm which was winter-killed or destroyed by drouth in the period beginning July 1, 1936; *provided*, such use of land shall have been approved by the county committee prior to May 1, 1937.
- e. Small grains seeded as a winter cover crop and pastured, but not harvested for grain or hay.
- f. Orchards, vineyards, nut trees, and bush fruits.
- g. Cropland planted to forest trees between January 1, 1930, and January 1, 1934.

Part XI, section 4, subsection B, item 1, is amended to read as follows:

1. Multiply the Class I payment to the applicant for diversion from the soil-depleting base, determined in accordance with the provisions of section 1, subsection D, of this part XI, by 66.7 percent.

Done at Washington, D. C., this 23rd day of July, 1937. Witness my hand and the seal of the Department of Agriculture.

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - MONTANA - SUPPLEMENT 4

AMENDMENTS TO WRB-101 - MONTANA AS AMENDED

Part III, Section 1, Practices A, B, C, D, and E are amended to make clear the authorization of payment for establishment in 1937 of a good stand of such crops when seeded subsequent to the final date for performance of such practices under the 1936 Agricultural Conservation Program;

Part III, Section 1, Practice F is amended to authorize payment for growing in 1937 crested wheat grass seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program;

Part VI, Section 6 is amended by the addition of subsection C designed to preclude duplicate payments; and

Part XI is amended by the addition of Section 5 containing multiple farm provisions with respect to sugar beets.

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Montana, as amended by Supplement 1, Supplement 2, and Supplement 3, is further amended by this supplement as follows:

Part III, Section 1, Practices A, B, C, D, and E are each amended as follows:

Item 1 of each such practice is amended by deleting therefrom the words "Seeding and", by capitalizing the first letter in the word "establishment", by replacing the period at the end of each sentence with a comma, and by adding at the end of each such item the expression "provided that such stand is obtained from a crop seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program".

Item 2 of each such practice is amended by inserting immediately following the words "Seeding on cropland in 1937" the expression "or establishment on cropland in 1937 of a good stand of a crop seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program".

WRB-101 - Montana, Supplement 4

Items a and b of said Items 2 are revised to read as follows:

- "a. Seeded in 1937, either alone or with a nurse crop which is not harvested for grain or hay."
- "b. Seeded with a nurse crop which is harvested for grain or hay."

Part III, Section 1, Practice F is amended to read as follows:

"Crested Wheat Grass, seeded on cropland in 1937, or grown in 1937 on cropland if seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Part VI, Section 6 is amended by the addition of the following subsection C:

"C. Payment will not be made for any soil-building or range-building practice with respect to which a payment was received or applied for under the 1936 Agricultural Conservation Program."

Part XI is amended by the addition of section 5, as follows:

"Section 5. Determination of Sugar Beet Payment.--The amount of sugar beet payment to be made to any applicant with respect to the 1937 acreage of sugar beets on the farms owned or operated in the county by such applicant shall be determined as follows:

- A. Determine for each farm the applicant's share of the maximum possible payments computed with respect to the 1937 acreage of sugar beets, without regard to any practices carried out on the farm with relation to sugar beets. Total the amounts thus obtained.
- B. Compute for each farm the applicant's share of the acreage of soil-conserving crops required to qualify the 1937 acreage of sugar beets for full payment in accordance with the provisions of Part II, Section 2, subsection A or subsection B, whichever is applicable for the farm. Total the amounts thus obtained.
- C. Compute for each farm the applicant's share 1/ of

1/ If sugar beets were not grown on the farm in 1937, the applicant's share shall be determined in accordance with the provisions of Part V.

WRB-101 - MONTANA, Supplement 4

the acreage devoted to soil-conserving crops in 1937 on land customarily used in rotation with sugar beets. Total the amounts thus obtained.

- D. If the total obtained under subsection C above equals or exceeds the total obtained under subsection B above the amount obtained under subsection A above shall, subject to the applicable provisions of this Part XI, be the amount of sugar beet payment to the applicant.
- E. If the total obtained under subsection C above is less than the total obtained under subsection B above,
1. Divide the total obtained under subsection C above by the total obtained under subsection B above, and multiply the percentage thus obtained by the amount obtained under subsection A above.
 2. Compute for each farm individually the applicant's share of the sugar beet payment determined in accordance with the provisions of Part II, Section 2. Total the amounts thus obtained.
- F. The amount obtained under subsection E, item 1, above, or the amount obtained under subsection E, item 2, above, whichever is the larger, shall, subject to the applicable provisions of this Part XI, be the amount of the sugar beet payment to the applicant."

UNITED STATES DEPARTMENT OF AGRICULTURE
AGRICULTURAL ADJUSTMENT ADMINISTRATION

1937 AGRICULTURAL CONSERVATION PROGRAM—WESTERN REGION

WESTERN REGION BULLETIN NO. 101—NEW MEXICO,
SUPPLEMENT 4

AMENDMENTS TO WESTERN REGION BULLETIN 101—NEW MEXICO
AS AMENDED

- PART III, section 3, subsection C: Clarifies classification of designated wind-erosion acreage.
- PART III, section 3, subsection F: Extends date for carrying out wind-erosion control practices with respect to preliminary payment.
- PART IV, section 1, practice F: Addition of poles and logs as fencing material for range fences.
- PART VI, section 3: Payments restricted to effectuate the purposes of the program.
- PART VI, section 8, subsection D: Establishes location of a farm when it is divided by county lines.
- PART VIII, section 1, first paragraph: Clarifies meaning of soil-depleting base and deletes reference to nurse crops in connection with conserving crops.
- PART VIII, section 2, first paragraph: Deletes reference to poor stand of soil-conserving crops.
- PART VIII, section 3: Rewritten to show neutral classification of land.
- PART XI, section 4: Clarifies definition of soil-depleting base.

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101—New Mexico, as amended by Supplement 1, Supplement 2, and Supplement 3, is hereby further amended:

Part III, section 3, subsection C, is amended to read as follows:

C. Wind-Erosion Control Practices.—Payment will be made for the carrying out on designated wind-erosion acreage in 1937 such of the following practices as are approved by the county committee for the farm prior to their institution, without such practices, when carried out on designated wind-erosion acreage, being regarded as in any way affecting the prior classification of such acreage.

Part III, section 3, subsection F, is amended to read as follows:

F. Preliminary Application for Payment.—By preliminary application made on the prescribed form, any 1937 owner or operator, who has carried out before July 1, 1937, such wind-erosion control practices as are provided for in this section, may receive a preliminary payment amounting to 85 percent of the amount of payment computed in accordance with the provisions of subsection C above. Such preliminary payment shall not be in excess of 85 percent of the additional soil-building allowance provided for in subsection B above. The amount of such preliminary payment will be deducted from the total amount computed as due such 1937 owner or operator under the complete and final application made by him for payment under the provisions of the 1937 agricultural conservation program. In connection with such complete and final application, appropriate deductions shall be made for administrative expenses.

Part IV, section 1, practice F, is amended to read as follows:

F. Range Fences. For building cross fences or drift fences constructed as follows: (a) not fewer than three tightly stretched wires, attached to posts set not more than 20 feet apart, with corner posts well braced, (b) not fewer than three poles, or rails, nailed, with nails not smaller than 40-penny spikes to posts or jacks spaced not more than 18 feet apart, or (c) not fewer than 4 logs laid in worm like fashion, with corners to be notched and saddled, or braced on either side at point of log intersection with two upright poles or other suitable bracing material wired together with not less than 3 binding wires; all posts, poles, rails, logs, and jacks to be good and sound: \$0.30 per rod.

Part VI, section 3, is amended to read as follows:

SECTION 3. Payments Restricted to Effectuation of Purposes of the Program.—No person shall be entitled to receive or retain any part of any payment if such person has adopted any practice which the Secretary determines tends to defeat any of the purposes of the 1937 program, or if such person has offset, or through any scheme or device whatsoever, such as but not limited to operating by or through or participating in the operation of a firm, partnership, association, corporation, estate, or trust, has participated in offsetting, or has benefited or is in position to benefit by such offsetting, in whole or in part, the performance rendered in respect of which such payment would otherwise be made.

Part VI, section 8, subsection B, is amended to read as follows:

B. An application for payment may be made by an owner, share-tenant, share-cropper, ranch operator, or such other person as may be designated by the Secretary.

Part VI, section 8, is amended by the addition of subsection D to read as follows:

D. A farm located in two or more adjoining counties shall be regarded as located in the county in which the principal dwelling thereon is located, or if there is no such principal dwelling, such farm shall be regarded as located in the county in which the major portion of such farm is located.

Part VIII, section 1, first paragraph, is amended to read as follows:

Land seeded to any of the following crops shall be regarded as used for the production of a soil-depleting crop for the year in which such crop would normally be harvested; except as provided in section 2 of this part VIII with respect to nurse crops and green manure crops, as provided in section 3 of this part VIII, with respect to pastured winter cover crops, and emergency forage crops; and as provided in part III, section 3, subsection C, with respect to sorghums, Sudan grass, or millets grown in 1937 on designated wind-erosion acreage.

Part VIII, section 2, first paragraph, is amended to read as follows:

Cropland devoted to any of the following crops in 1937 shall be regarded as used for the production of a soil-conserving crop, except that any land devoted to a soil-depleting crop in the same year (within the meaning of section 1 of part VIII) shall be regarded as having been used for the production of a soil-depleting crop for such year.

Part VIII, section 3, is deleted in its entirety and the following is substituted in lieu thereof:

SECTION 3.—Neutral Uses.—Land devoted to the following uses or crops shall be regarded as devoted to neutral uses:

- a. Orchards, vineyards, nut trees, bush fruits, hops, and perennial vegetables, regardless of the use of the land between the rows.
- b. Idle cropland.
- c. Cultivated fallow.
- d. Bulbs and nursery stock.
- e. Cropland planted to forest trees between January 1, 1930, and January 1, 1934.

1. Small grain seeded as a winter cover crop and pastured, but not harvested for grain or hay.
2. And acreage devoted in 1937 to the production of emergency forage crops consisting of winter Italian grain, rape, turnip, rutabaga, and annual sorghum or mixtures of such crops which the county committee determines is equivalent to the acreage of emergency crops on the farm which was winter-killed or destroyed by drought in the period beginning July 1, 1936, provided such use of land shall have been approved by the county committee prior to May 1, 1937.

Part XI, section 4, subsection B, item 1, is amended to read as follows:

1. With the Class I payment to the extent the decrease from the normal depletion base, determined in accordance with the provisions of section 1 and section 2, of this part XI, by 66.7 percent.

Done at Washington, D. C., this 23rd day of July, 1937. Witness my hand and the seal of the Department of Agriculture.

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - NEVADA - Supplement 4

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Nevada, as amended by Supplement 1, Supplement 2, and Supplement 3, is further amended by this supplement as follows:

Part IX, Section 1 is amended to read as follows:

"Sec. 1. Appeals from Determinations of County Committee. --

Any person who considers himself aggrieved by any recommendation or determination of the county committee with respect to: (a) soil-depleting base; (b) productivity index; (c) grazing capacity; (d) the division of payment; or (e) any other matter affecting the right to or the amount of his payment with respect to the farm or ranching unit may, within 15 days after notice thereof is forwarded to or available to him, request the county committee in writing to reconsider its recommendation or determination; provided, however, that any such person may file such request at any time prior to March 1, 1938, notwithstanding that more than 15 days have elapsed since notice of the county committee's recommendation or determination was forwarded to or available to him.

The county committee shall notify such person of its decision within 15 days after receipt of such written request for reconsideration; provided, however, that any time prior to March 1, 1938, the county committee shall notify such person of its decision notwithstanding that more than 15 days have elapsed since the receipt of such person's request for reconsideration.

If such person is dissatisfied with the decision of the county committee he may within 15 days after such decision appeal in writing to the State committee; provided, however, that any such person may so appeal at any time prior to March 1, 1938, notwithstanding that more than 15 days have elapsed since the decision of the county committee.

The State committee shall notify such person of its decision within 30 days after the receipt of the appeal; provided, however, that any time prior to March 1, 1938, the State committee shall notify such person of its decision notwithstanding that more than 30 days have elapsed since the receipt of such appeal.

If such person is dissatisfied with the decision of the State committee, he may within 15 days thereafter request the Regional Director to review the decision of the State committee; provided, however, that such person may so request the Regional Director at any time prior to March 1, 1938, notwithstanding that more than 15 days have elapsed since the decision of the State committee.

The determinations of the Regional Director in any appeal case as to the facts, or as to the application of the terms and conditions of the 1937 Agricultural Conservation Program when in conformity with the provisions of said program as approved by the Secretary of Agriculture, shall be final and binding upon all parties."

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - NORTH DAKOTA - SUPPLEMENT 4

AMENDMENTS TO WRB-101 - NORTH DAKOTA AS AMENDED

Part III, Section 1, Practices A, B, C, D, and E are amended to make clear the authorization of payment for establishment in 1937 of a good stand of such crops when seeded subsequent to the final date for performance of such practices under the 1936 Agricultural Conservation Program; Part III, Section 1, Practice F is amended to authorize payment for growing in 1937 crested wheat grass seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program;

Part VI, Section 6 is amended by the addition of subsection C designed to preclude duplicate payments; and

Part XI is amended by the addition of Section 5 containing multiple farm provisions with respect to sugar beets.

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - North Dakota, as amended by Supplement 1, Supplement 2, and Supplement 3, is further amended by this supplement as follows:

Part III, Section 1, Practices A, B, C, D, and E are each amended as follows:

Item 1 of each such practice is amended by deleting therefrom the words "Seeding and", by capitalizing the first letter in the word "establishment", by replacing the period at the end of each sentence with a comma, and by adding at the end of each item the expression "provided that such stand is obtained from a crop seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Item 2 of each such practice is amended by inserting immediately following the words "Seeding on cropland in 1937" the expression "or establishment on cropland in 1937 of a good stand of a crop seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program,".

Items a and b of said Items 2 are revised to read as follows:

"a. Seeded in 1937, either alone or with a nurse crop which is not harvested for grain or hay."

- "b. Seeded with a nurse crop which is harvested for grain or hay."

Part III, Section 1, Practice F is amended to read as follows:

"Crested Wheat Grass, seeded on cropland in 1937, or grown in 1937 on cropland if seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Part VI, Section 6 is amended by the addition of the following subsection C:

- "C. Payment will not be made for any soil-building or range-building practice with respect to which a payment was received or applied for under the 1936 Agricultural Conservation Program."

Part XI is amended by the addition of Section 5, as follows:

"Section 5. Determination of Sugar Beet Payment.--- The amount of sugar beet payment to be made to any applicant with respect to the 1937 acreage of sugar beets on the farms owned or operated in the county by such applicant shall be determined as follows:

- A. Determine for each farm the applicant's share of the maximum possible payments computed with respect to the 1937 acreage of sugar beets, without regard to any practices carried out on the farm with relation to sugar beets. Total the amounts thus obtained.
- B. Compute for each farm the applicant's share of the acreage of soil-conserving crops required to qualify the 1937 acreage of sugar beets for full payment in accordance with the provisions of Part II, Section 2, subsection A or subsection B, whichever is applicable for the farm. Total the amounts thus obtained.
- C. Compute for each farm the applicant's share 1/ of the acreage devoted to soil-conserving crops in 1937 on land customarily used in rotation with sugar beets. Total the amounts thus obtained.
- D. If the total obtained under subsection C above equals or exceeds the total obtained under subsection B above, the amount obtained under subsection A above shall, subject to the applicable provisions of this Part XI, be the amount of sugar beet payment to the applicant.

1/ If sugar beets were not grown on the farm in 1937, the applicant's share shall be determined in accordance with the provisions of Part V.

- E. If the total obtained under subsection C above is less than the total obtained under subsection B above,
1. Divide the total obtained under subsection C above by the total obtained under subsection B above, and multiply the percentage thus obtained by the amount obtained under subsection A above.
 2. Compute for each farm individually the applicant's share of the sugar beet payment determined in accordance with the provisions of Part II, Section 2. Total the amounts thus obtained.
- F. The amount obtained under subsection E, item 1, above, or the amount obtained under subsection E, item 2, above, whichever is the larger, shall, subject to the applicable provisions of this Part XI, be the amount of the sugar beet payment to the applicant."

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - OREGON - SUPPLEMENT 4

AMENDMENTS TO WRB-101 - OREGON AS AMENDED

Part III, Section 1, Practices A, B, C, D, and F are amended to make clear the authorization of payment for establishment in 1937 of a good stand of such crops when seeded subsequent to the final date for performance of such practices under the 1936 Agricultural Conservation Program;

Part III, Section 1, Practice E is amended to authorize payment for growing in 1937 crested wheat grass seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program;

Part VI, Section 6 is amended by the addition of subsection C designed to preclude duplicate payments; and

Part XI is amended by the addition of Section 5 containing multiple farm provisions with respect to sugar beets.

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Oregon, as amended by Supplement 1, Supplement 2, and Supplement 3, is further amended by this supplement as follows:

Part III, Section 1, Practices A, B, C, D, and F are each amended as follows:

Item 1 of each such practice is amended by deleting therefrom the words "Seeding and", by capitalizing the first letter in the word "establishment", by replacing the period at the end of each sentence with a comma, and by adding at the end of each item the expression "provided that such stand is obtained from a crop seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Item 2 of each such practice is amended by inserting immediately following the words "Seeding on cropland in 1937" the expression "or establishment on cropland in 1937 of a good stand of a crop seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program,".

Items a and b of said Items 2 are revised to read as follows:

- "a. Seeded in 1937, either alone or with a nurse crop which is not harvested for grain or hay".
- "b. Seeded with a nurse crop which is harvested for grain or hay".

Part III, Section 1, Practice E is amended to read as follows:

"Crested Wheat Grass, seeded on cropland in 1937, or grown in 1937 on cropland if seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Part VI, Section 6 is amended by the addition of the following subsection C:

- "C. Payment will not be made for any soil-building or range-building practice with respect to which a payment was received or applied for under the 1936 Agricultural Conservation Program."

Part XI is amended by the addition of Section 5 as follows:

"Section 5. Determination of Sugar Beet Payment.--The amount of sugar beet payment to be made to any applicant with respect to the 1937 acreage of sugar beets on the farms owned or operated in the county by such applicant shall be determined as follows:

- A. Determine for each farm the applicant's share of the maximum possible payments computed with respect to the 1937 acreage of sugar beets, without regard to any practices carried out on the farm with relation to sugar beets. Total the amounts thus obtained.
- B. Compute for each farm the applicant's share of the acreage of soil-conserving crops required to qualify the 1937 acreage of sugar beets for full payment in accordance with the provisions of Part II, Section 2, subsection A or subsection B, whichever is applicable for the farm. Total the amounts thus obtained.
- C. Compute for each farm the applicant's share 1/ of the acreage devoted to soil-conserving crops in 1937 on land customarily used in rotation with sugar beets. Total the amounts thus obtained.
- D. If the total obtained under subsection C above equals or exceeds the total obtained under subsection B

1/ If sugar beets were not grown on the farm in 1937, the applicant's share shall be determined in accordance with the provisions of Part V.

above, the amount obtained under subsection A above shall, subject to the applicable provisions of this Part XI, be the amount of sugar beet payment to the applicant.

- E. If the total obtained under subsection C above is less than the total obtained under subsection B above,
1. Divide the total obtained under subsection C above by the total obtained under subsection B above, and multiply the percentage thus obtained by the amount obtained under subsection A above.
 2. Compute for each farm individually the applicant's share of the sugar beet payment determined in accordance with the provisions of Part II, Section 2. Total the amounts thus obtained.
- F. The amount obtained under subsection E, item 1, above, or the amount obtained under subsection E, item 2, above, whichever is the larger, shall, subject to the applicable provisions of this Part XI, be the amount of the sugar beet payment to the applicant."

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - UTAH - Supplement 4

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Utah, as amended by Supplement 1, Supplement 2, and Supplement 3, is further amended by this supplement as follows:

Part IX, Section 1 is amended to read as follows:

"Sec. 1. Appeals from Determinations of County Committee. --

Any person who considers himself aggrieved by any recommendation or determination of the county committee with respect to: (a) soil-depleting base; (b) productivity index; (c) grazing capacity; (d) the division of payment; or (e) any other matter affecting the right to or the amount of his payment with respect to the farm or ranching unit, may, within 15 days after notice thereof is forwarded to or available to him, request the county committee in writing to reconsider its recommendation or determination; provided, however, that any such person may file such request at any time prior to March 1, 1938, notwithstanding that more than 15 days have elapsed since notice of the county committee's recommendation or determination was forwarded to or available to him.

The county committee shall notify such person of its decision within 15 days after receipt of such written request for reconsideration; provided, however, that any time prior to March 1, 1938, the county committee shall notify such person of its decision notwithstanding that more than 15 days have elapsed since the receipt of such person's request for reconsideration.

If such person is dissatisfied with the decision of the county committee he may within 15 days after such decision appeal in writing to the State committee; provided, however, that any such person may so appeal at any time prior to March 1, 1938, notwithstanding that more than 15 days have elapsed since the decision of the county committee.

The State committee shall notify such person of its decision within 30 days after the receipt of the appeal; provided, however, that any time prior to March 1, 1938, the State committee shall notify such person of its decision notwithstanding that more than 30 days have elapsed since the receipt of such appeal.

If such person is dissatisfied with the decision of the State committee, he may within 15 days thereafter request the Regional Director to review the decision of the State committee; provided, however, that such person may so request the Regional Director at any time prior to March 1, 1938, notwithstanding that more than 15 days have elapsed since the decision of the State committee.

The determinations of the Regional Director in any appeal case as to the facts, or as to the application of the terms and conditions of the 1937 Agricultural Conservation Program when in conformity with the provisions of said program as approved by the Secretary of Agriculture, shall be final and binding upon all parties."

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - COLORADO - SUPPLEMENT 5

AMENDMENTS TO WRB-101 - COLORADO AS AMENDED

Part III, Section 1, Practices A, B, C, and E are amended to make clear the authorization of payment for establishment in 1937 of a good stand of such crops when seeded subsequent to the final date for performance of such practices under the 1936 Agricultural Conservation Program;

Part III, Section 1, Practice D is amended to authorize payment for growing in 1937 crested wheat grass seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program;

Part VI, Section 6 is amended by the addition of subsection C designed to preclude duplicate payments; and

Part XI is amended by the addition of Section 5 containing multiple farm provisions with respect to sugar beets.

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Colorado, as amended by Supplement 1, Supplement 2, Supplement 3, and Supplement 4, is further amended by this supplement as follows:

Part III, Section 1, Practices A, B, C, and E are each amended as follows:

Item 1 of each such practice is amended by deleting therefrom the words "Seeding and", by capitalizing the first letter in the word "establishment", by replacing the period at the end of each sentence with a comma, and by adding at the end of each such item the expression "provided that such stand is obtained from a crop seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Item 2 of each such practice is amended by inserting immediately following the words "Seeding on cropland in 1937" the expression "or establishment on cropland in 1937 of a good stand of a crop seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Items a and b of said Items 2 are revised to read as follows:

"a. Seeded in 1937, either alone or with a nurse crop which is not harvested for grain or hay."

"b. Seeded with a nurse crop which is harvested for grain or hay."

Part III, Section 1, Practice D is amended to read as follows:

"Crested Wheat Grass, seeded on cropland in 1937, or grown in 1937 on cropland if seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Part VI, Section 6 is amended by the addition of the following subsection C:

"C. Payment will not be made for any soil-building or range-building practice with respect to which a payment was received or applied for under the 1936 Agricultural Conservation Program."

Part XI is amended by the addition of Section 5, as follows:

"Section 5. Determination of Sugar Beet Payment.--The amount of sugar beet payment to be made to any applicant with respect to the 1937 acreage of sugar beets on the farms owned or operated in the county by such applicant shall be determined as follows:

- A. Determine for each farm the applicant's share of the maximum possible payments computed with respect to the 1937 acreage of sugar beets, without regard to any practices carried out on the farm with relation to sugar beets. Total the amounts thus obtained.
- B. Compute for each farm the applicant's share of the acreage of soil-conserving crops required to qualify the 1937 acreage of sugar beets for full payment in accordance with the provisions of Part II, Section 2, subsection A or subsection B, whichever is applicable for the farm. Total the amounts thus obtained.
- C. Compute for each farm the applicant's share^{1/} of the acreage devoted to soil-conserving crops in 1937 on land customarily used in rotation with sugar beets. Total the amounts thus obtained.
- D. If the total obtained under subsection C above equals or exceeds the total obtained under subsection B above, the amount obtained under subsection A above shall, subject to the applicable provisions of this Part XI, be the amount of sugar beet payment to the applicant.
- E. If the total obtained under subsection C above is less than the total obtained under subsection B above,
 1. Divide the total obtained under subsection C above by the total obtained under subsection B above, and multiply the percentage thus obtained by the amount obtained under subsection A above.
 2. Compute for each farm individually the applicant's share of the sugar beet payment determined in accordance with the provisions of Part II, Section 2. Total the amounts thus obtained.

^{1/} If sugar beets were not grown on the farm in 1937, the applicant's share shall be determined in accordance with the provisions of Part V.

- F. The amount obtained under subsection E, item 1, above, or the amount obtained under subsection E, item 2, above, whichever is the larger, shall, subject to the applicable provisions of this Part XI, be the amount of the sugar beet payment to the applicant."

WR BULLETIN NO. 101 - KANSAS - Supplement 5

AMENDMENTS TO WRB-101 - KANSAS AS AMENDED

Part III, Section 1, Practices A, B, C, D, and F are amended to make clear the authorization of payment for establishment in 1937 of a good stand of such crops when seeded subsequent to the final date for performance of such practices under the 1936 Agricultural Conservation Program;
Part III, Section 1, Practice E is amended to authorize payment for growing in 1937 crested wheat grass seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program;
Part VI, Section 6 is amended by the addition of subsection C designed to preclude duplicate payments; and
Part XI is amended by the addition of Section 6 containing multiple farm provisions with respect to sugar beets.

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Kansas, as amended by Supplement 1, Supplement 2, Supplement 3, and Supplement 4, is further amended by this supplement as follows:

Part III, Section 1, Practices A, B, C, D, and F are each amended as follows:

Item 1 of each such practice is amended by deleting therefrom the words "Seeding and", by capitalizing the first letter in the word "establishment", by replacing the period at the end of each sentence with a comma, and by adding at the end of each such item the expression "provided that such stand is obtained from a crop seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Item 2 of each such practice is amended by inserting immediately following the words "Seeding on cropland in 1937" the expression "or establishment on cropland in 1937 of a good stand of a crop seeded subsequent to the final date for

performance of this practice under the 1936 Agricultural Conservation Program."

Items a and b of said Items 2 are revised to read as follows:

- "a. Seeded in 1937, either alone or with a nurse crop which is not harvested for grain or hay."
- "b. Seeded with a nurse crop which is harvested for grain or hay."

Part III, Section 1, Practice E is amended to read as follows:

"Crested Wheat Grass, seeded on cropland in 1937, or grown in 1937 on cropland if seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Part VI, Section 6 is amended by the addition of the following subsection C:

"C. Payment will not be made for any soil-building or range-building practice with respect to which a payment was received or applied for under the 1936 Agricultural Conservation Program."

Part XI is amended by the addition of section 6, as follows:

"Section 6. Determination of Sugar Beet Payment.---
The amount of sugar beet payment to be made to any applicant with respect to the 1937 acreage of sugar beets on the farms owned or operated in the county by such applicant shall be determined as follows:

- A. Determine for each farm the applicant's share of the maximum possible payments computed with respect to the 1937 acreage of sugar beets, without regard to any practices carried out on the farm with relation to sugar beets. Total the amounts thus obtained.
- B. Compute for each farm the applicant's share of the acreage of soil-conserving crops required to qualify the 1937 acreage of sugar beets for full payment in accordance with the provisions of Part II, Section 3, subsection A or subsection B, whichever is applicable for the farm. Total the amounts thus obtained.

- C. Compute for each farm the applicant's share 1/ of the acreage devoted to soil-conserving crops in 1937 on land customarily used in rotation with sugar beets. Total the amounts thus obtained.
- D. If the total obtained under subsection C above equals or exceeds the total obtained under subsection B above, the amount obtained under subsection A above shall, subject to the applicable provisions of this Part XI, be the amount of sugar beet payment to the applicant.
- E. If the total obtained under subsection C above is less than the total obtained under subsection B above,
1. Divide the total obtained under subsection C above by the total obtained under subsection B above, and multiply the percentage thus obtained by the amount obtained under subsection A above.
 2. Compute for each farm individually the applicant's share of the sugar beet payment determined in accordance with the provisions of Part II, Section 3. Total the amounts thus obtained.
- F. The amount obtained under subsection E, item 1, above, or the amount obtained under subsection E, item 2, above, whichever is the larger, shall, subject to the applicable provisions of this Part XI, be the amount of the sugar beet payment to the applicant."

WR BULLETIN NO. 101 - MONTANA - Supplement 5

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Montana, as amended by Supplement 1, Supplement 2, Supplement 3, and Supplement 4, is further amended by this supplement as follows:

Part IX, Section 1 is amended to read as follows:

"Sec. 1. Appeals from Determinations of County Committee. --

Any person who considers himself aggrieved by any recommendation or determination of the county committee with respect to: (a) soil-depleting base; (b) productivity index; (c) grazing capacity; (d) the division of payment; or (e) any other matter affecting the right to or the amount of his payment with respect to the farm or ranching unit may, within 15 days after notice thereof is forwarded to or available to him, request the county committee in writing to reconsider its recommendation or determination; provided, however, that any such person may file such request at any time prior to March 1, 1938, notwithstanding that more than 15 days have elapsed since notice of the county committee's recommendation or determination was forwarded to or available to him.

The county committee shall notify such person of its decision within 15 days after receipt of such written request for reconsideration; provided, however, that any time prior to March 1, 1938, the county committee shall notify such person of its decision notwithstanding that more than 15 days have elapsed since the receipt of such person's request for reconsideration.

If such person is dissatisfied with the decision of the county committee he may within 15 days after such decision appeal in writing to the State committee; provided, however, that any such person may so appeal at any time prior to March 1, 1938, notwithstanding that more than 15 days have elapsed since the decision of the county committee.

The State committee shall notify such person of its decision within 30 days after the receipt of the appeal; provided, however, that any time prior to March 1, 1938, the State committee shall notify

such person of its decision notwithstanding that more than 30 days have elapsed since the receipt of such appeal.

If such person is dissatisfied with the decision of the State committee, he may within 15 days thereafter request the Regional Director to review the decision of the State committee; provided, however, that such person may so request the Regional Director at any time prior to March 1, 1938, notwithstanding that more than 15 days have elapsed since the decision of the State committee.

The determinations of the Regional Director in any appeal case as to the facts, or as to the application of the terms and conditions of the 1937 Agricultural Conservation Program when in conformity with the provisions of said program as approved by the Secretary of Agriculture, shall be final and binding upon all parties".

WR BULLETIN NO. 101 - NEW MEXICO - SUPPLEMENT 5

NOV 3 1937
U. S. Department of Agriculture

AMENDMENTS TO WRB-101 - NEW MEXICO AS AMENDED

Part III, Section 1, Practices A, B, C, D, and E are amended to make clear the authorization of payment for establishment in 1937 of a good stand of such crops when seeded subsequent to the final date for performance of such practices under the 1936 Agricultural Conservation Program;

Part VI, Section 6 is amended by the addition of Subsection C designed to preclude duplicate payments; and

Part XI is amended by the addition of Section 6 containing multiple farm provisions with respect to sugar beets.

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - New Mexico, as amended by Supplement 1, Supplement 2, Supplement 3, and Supplement 4, is further amended by this supplement as follows:

Part III, Section 1, Practices A, B, C, D, and E are each amended as follows:

Item 1 of each such practice is amended by deleting therefrom the words "Seeding and", by capitalizing the first letter in the word "establishment", by replacing the period at the end of each sentence with a comma, and by adding at the end of each such item the expression "provided that such stand is obtained from a crop seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program."

Item 2 of each such practice is amended by inserting immediately following the words "Seeding on cropland in 1937" the expression "or establishment on cropland in 1937 of a good stand of a crop seeded subsequent to the final date for performance of this practice under the 1936 Agricultural Conservation Program,".

Items a and b of said Items 2 are revised to read as follows:

"a. Seeded in 1937, either alone or with a nurse crop which is not harvested for grain or hay."

"b. Seeded with a nurse crop which is harvested for grain or hay."

WRB-101 - NEW MEXICO, Supplement 5

Part VI, Section 6 is amended by the addition of the following subsection C:

"C. Payment will not be made for any soil-building or range-building practice with respect to which a payment was received or applied for under the 1936 Agricultural Conservation Program."

Part XI is amended by the addition of section 6, as follows:

"Section 6. Determination of Sugar Beet Payment.---The amount of sugar beet payment to be made to any applicant with respect to the 1937 acreage of sugar beets on the farms owned or operated in the county by such applicant shall be determined as follows:

- A. Determine for each farm the applicant's share of the maximum possible payments computed with respect to the 1937 acreage of sugar beets, without regard to any practices carried out on the farm with relation to sugar beets. Total the amounts thus obtained.
- B. Compute for each farm the applicant's share of the acreage of soil-conserving crops required to qualify the 1937 acreage of sugar beets for full payment in accordance with the provisions of Part II, Section 3, subsection A or subsection B, whichever is applicable for the farm. Total the amounts thus obtained.
- C. Compute for each farm the applicant's share $\frac{1}{2}$ of the acreage devoted to soil-conserving crops in 1937 on land customarily used in rotation with sugar beets. Total the amounts thus obtained.
- D. If the total obtained under subsection C above equals or exceeds the total obtained under subsection B above, the amount obtained under subsection A above shall, subject to the applicable provisions of this Part XI, be the amount of sugar beet payment to the applicant.
- E. If the total obtained under subsection C above is less than the total obtained under subsection B above,

$\frac{1}{2}$ If sugar beets were not grown on the farm in 1937, the applicant's share shall be determined in accordance with the provisions of Part V.

WEB-101 - NEW MEXICO, Supplement 5

1. Divide the total obtained under subsection C above by the total obtained under subsection B above, and multiply the percentage thus obtained by the amount obtained under subsection A above.
 2. Compute for each farm individually the applicant's share of the sugar beet payment determined in accordance with the provisions of Part II, Section 3. Total the amounts thus obtained.
- F. The amount obtained under subsection E, item 1, above, or the amount obtained under subsection E, item 2, above, whichever is the larger, shall, subject to the applicable provisions of this Part XI, be the amount of sugar beet payment to the applicant."

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

WR BULLETIN NO. 101 - NORTH DAKOTA - Supplement 5

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - North Dakota, as amended by Supplement 1, Supplement 2, Supplement 3, and Supplement 4, is further amended by this supplement as follows:

Part IX, Section 1 is amended to read as follows:

"Sec. 1. Appeals from Determinations of County Committee. --

Any person who considers himself aggrieved by any recommendation or determination of the county committee with respect to: (a) soil-depleting base; (b) productivity index; (c) grazing capacity; (d) the division of payment; or (e) any other matter affecting the right to or the amount of his payment with respect to the farm or ranching unit may, within 15 days after notice thereof is forwarded to or available to him, request the county committee in writing to reconsider its recommendation or determination; provided, however, that any such person may file such request at any time prior to March 1, 1938, notwithstanding that more than 15 days have elapsed since notice of the county committee's recommendation or determination was forwarded to or available to him.

The county committee shall notify such person of its decision within 15 days after receipt of such written request for reconsideration; provided, however, that any time prior to March 1, 1938, the county committee shall notify such person of its decision notwithstanding that more than 15 days have elapsed since the receipt of such person's request for reconsideration.

If such person is dissatisfied with the decision of the county committee he may within 15 days after such decision appeal in writing to the State committee; provided, however, that any such person may so appeal at any time prior to March 1, 1938, notwithstanding that more than 15 days have elapsed since the decision of the county committee.

The State committee shall notify such person of its decision within 30 days after the receipt of the appeal; provided, however, that any time prior to March 1, 1938, the State committee shall notify such person of its decision notwithstanding that more than 30 days have elapsed since the receipt of such appeal.

If such person is dissatisfied with the decision of the State committee, he may within 15 days thereafter request the Regional Director to review the decision of the State committee; provided, however, that such person may so request the Regional Director at any time prior to March 1, 1938, notwithstanding that more than 15 days have elapsed since the decision of the State committee.

The determination of the Regional Director in any appeal case as to the facts, or as to the application of the terms and conditions of the 1937 Agricultural Conservation Program when in conformity with the provisions of said program as approved by the Secretary of Agriculture, shall be final and binding upon all parties."

WR BULLETIN NO. 101 - KANSAS - Supplement 6

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - Kansas, as amended by Supplement 1, Supplement 2, Supplement 3, Supplement 4, and Supplement 5, is further amended by this supplement as follows:

Part XI, Section 2 is amended to read as follows:

"Sec. 2. Deduction for Insufficient Acreage of Soil-Conserving Crops. - Where a net Class I Payment for Diversion from the cotton or tobacco soil-depleting base has been computed for the applicant in accordance with the applicable provisions of the foregoing Section I, the deduction for failure to have sufficient soil-conserving acreage on the farms with respect to which cotton and tobacco soil-depleting bases have been established will be determined as follows:

A. Determine the applicant's share ^{7/} of the acreage of soil-conserving crops with respect to the cotton and tobacco soil-depleting bases as follows:

1. To the sum of the applicant's share of the normal acreage of soil-conserving crops on each farm with a cotton or tobacco soil-depleting base add -
 - a. The sum of the applicant's share of net decrease from the cotton soil-depleting bases or the sum of the applicant's share of maximum diversion from the cotton soil-depleting bases, whichever is smaller, and
 - b. The sum of the applicant's share of net decrease from the tobacco soil-depleting bases or the sum of the applicant's share of maximum diversion from the tobacco soil-depleting bases, whichever is smaller.

B. For each farm with a cotton or tobacco soil-depleting base, compute the applicant's share 7/ of the 1937 acreage of soil-conserving crops and total the amounts thus obtained.

C. If the applicant's share of the 1937 acres of soil-conserving crops obtained under subsection B of this Section 2, is less than the applicant's share of the acreage of soil-conserving crops required with respect to the cotton and tobacco depleting bases obtained under subsection A of this section 2, a deduction shall be made from any payment other than a range-building payment which otherwise would be made to the applicant at the rate of \$3.00 for each deficit acre."

7/ The applicant's share of any payment, deduction, acreage, etc., shall be determined in accordance with the provisions of Part V governing the applicant's share of payment.

WR BULLETIN NO. 101 - NEW MEXICO - SUPPLEMENT 6

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 101 - New Mexico, as amended by Supplement 1, Supplement 2, Supplement 3, Supplement 4, and Supplement 5, is further amended by this supplement as follows:

Part VI, Section 4, Subsection A, is amended to read as follows:

"A. If the 1937 acreage of soil-depleting crops, except cotton, on any farm is in excess of the general soil-depleting base for the farm, a deduction shall be made from the payment which otherwise would be made with respect to such farm in an amount computed by multiplying the number of such excess acres by the rate per acre determined for the farm under Section 1, Part II; Provided, however, That if the general soil-depleting base on any non-diversion farm is less than 20 acres, such deduction shall be computed only with respect to the 1937 acreage of soil-depleting crops, except cotton, in excess of 20 acres."

Part XI, Section 2, is amended to read as follows:

"Sec. 2. Deduction for Insufficient Acreage of Soil-Conserving Crops.--Where a net Class I payment for diversion from the cotton soil-depleting base has been computed for the applicant in accordance with the applicable provisions of the foregoing Section I, the deduction for failure to have sufficient soil-conserving acreage on the farms with respect to which cotton soil-depleting bases have been established will be determined as follows:

A. Determine the applicant's share 7/ of the acreage of soil-conserving crops required with respect to the cotton soil-depleting bases as follows:

7/ The applicant's share of any payment, deduction, acreage, etc., shall be determined in accordance with the provisions of Part V governing the applicant's share of payment.

1. To the sum of the applicant's share of the net decrease from the cotton soil-depleting bases or the sum of the applicant's share of maximum diversion from the cotton soil-depleting bases, whichever sum is the smaller, add the sum of the applicant's share of the normal acreage of soil-conserving crops on each farm with a cotton soil-depleting base.

B. For each farm with a cotton soil-depleting base, compute the applicant's share 7/ of the 1937 acreage of soil-conserving crops and total the amounts thus obtained.

C. If the applicant's share of the 1937 acres of soil-conserving crops obtained under Subsection B of this Section 2, is less than the applicant's share of the acreage of soil-conserving crops required with respect to the cotton soil-depleting bases obtained under Subsection A of this Section 2, a deduction shall be made from any payment other than a range-building payment which otherwise would be made to the applicant at the rate of \$3.00 for each deficit acre."

MAR 18 1937

WRB-101, ARIZONA, PART X

Issued March 2, 1937

UNITED STATES DEPARTMENT OF AGRICULTURE
AGRICULTURAL ADJUSTMENT ADMINISTRATION

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

Bulletin No. 101 - ARIZONA, Part X

Western Region Bulletin No. 101 - Arizona is hereby supplemented by adding thereto the following Part X.

PART X. COUNTY AVERAGE RATES

Section 1. County Average Rates for Computing Diversion Payments and Soil-Building Allowances. The county average rates per acre for computing general diversion payments, and the county average rates per acre to be used in computing those portions of the soil-building allowance which vary as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States, shall be as follows for the respective counties in the State of Arizona:

County	Average Rate Per Acre for Diversion From General Soil- Depleting Base ^{1/}	Average Soil-Build- ing Allowance Rate Per Acre on Acreage Diverted for Payment From General Soil- Depleting Base ^{2/}	Average Soil-Building Allowance Rate Per Acre on all Cropland on Non- Diversion Farms and Commercial Orchard Land on Diversion Farms ^{3/}
Apache	\$4.40	\$2.90	\$.58
Cochise	6.10	4.10	.82
Coconino	3.70	2.45	.49
Gila	3.90	2.60	.52
Graham	8.10	5.40	1.08
Greenlee	7.80	5.20	1.04
Maricopa	10.40	6.90	1.38
Mohave	5.60	3.70	.74
Navajo	3.40	2.30	.46
Pima	4.90	3.30	.66

^{1/} Pursuant to section 1, part II of W.R. Bulletin 101 - Arizona.

^{2/} Pursuant to subsection A-2, section 2, part III of W.R. Bulletin 101 - Arizona.

^{3/} Pursuant to subsections A-3 and B-1 of section 2, part III of W.R. Bulletin 101 - Arizona.

County	Average Rate Per Acre for Diversion From General Soil- ^{1/} Depleting Base	Average Soil-Build- ing Allowance Rate Per Acre on Acreage Diverted for Payment From General Soil- Depleting Base ^{2/}	Average Soil-Building Allowance Rate Per Acre on all Cropland on Non- Diversion Farms and Commercial Orchard Land on Diversion Farms ^{3/}
Pinal	\$7.10	\$4.75	\$.95
Santa Cruz	4.60	3.10	.62
Yavapai	4.60	3.05	.61
Yuma	11.30	7.55	1.51

Sec. 2. Rates as Applied to Individual Farms. For any individual farm the rate of payment for diversion from the general soil-depleting base and the rates to be used in computing those portions of the soil-building allowance which vary as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States shall be those rates determined by multiplying the applicable average rate per acre for the county in which the farm is located by the productivity index established for the farm and by dividing the result by 100.

The productivity index for the farm shall be determined on the basis of the farm yield as compared with the county yield of a crop which is generally grown throughout the county or, on such other basis as the Director of the Western Division may authorize for the purpose of obtaining an accurate reflection of the productivity of the cropland on the farm. The average of the productivity indexes for all farms for which work sheets are filed in a county, weighted by the respective crop acreages for such farms, shall not exceed 100, unless a variance therefrom is recommended by the State Committee and approved by the Agricultural Adjustment Administration.

IN TESTIMONY WHEREOF, M. L. Wilson,
Acting Secretary of Agriculture, has
hereunto set his hand and caused the
official seal of the Department of
Agriculture to be affixed in the City
of Washington, District of Columbia,
this 2nd day of March, 1937.

M. L. Wilson

Acting Secretary of Agriculture.

UNITED STATES DEPARTMENT OF AGRICULTURE
AGRICULTURAL ADJUSTMENT ADMINISTRATION

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

Bulletin No. 101, ARIZONA, Part XI

Western Region Bulletin No. 101 - Arizona is hereby supplemented by adding thereto the following part XI.

PART XI. MULTIPLE FARM HOLDINGS

Section 1. Determination of Class I Payment for Diversion.---The amount of class I payment to be made to any person for diversion from the cotton and general soil-depleting bases shall be computed on the basis of the performance on all diversion farms owned or operated by such person in the county as follows:

A. Compute for each such farm the applicant's share ¹ of class I payment with respect to the decrease from the general soil-depleting base and total the amounts thus obtained:

B. Compute for each such farm the applicant's share of deduction with respect to the 1937 acreage of all soil-depleting crops except cotton in excess of the general soil-depleting base, and total the amounts thus obtained:

C. Compute for each such farm the applicant's share of the maximum possible class I payment for diversion from the general soil-depleting base and total the amounts thus obtained:

D. Subtract the total obtained under subsection B from the total obtained under subsection A. The result, not in excess of the amount obtained under subsection C shall, subject to other applicable provisions of this part XI, be the class I payment to the applicant for diversion from the general soil-depleting base; provided, however, that, if the total obtained under subsection B is larger than the total obtained under subsection A, the difference shall be deducted from any payment other than a range-building payment which otherwise would be made to the applicant;

E. Compute for each such farm the applicant's share of the class I payment with respect to the decrease from the cotton soil-depleting base and total the amounts thus obtained;

¹ The applicant's share of any payment, deduction, acreage, etc., shall be determined in accordance with the provisions of part V governing the applicant's share of payment.

F. Compute for each such farm the applicant's share of deduction with respect to the 1937 acreage of cotton in excess of the cotton soil-depleting base and total the amounts thus obtained;

G. Compute for each such farm the applicant's share of the maximum possible class I payment for diversion from the cotton soil-depleting base and total the amounts thus obtained;

H. Subtract the total obtained under subsection F from the total obtained under subsection E. The result, not in excess of the amount obtained under subsection G shall, subject to the applicable provisions of this part XI, be the class I payment to the applicant for diversion from the cotton soil-depleting base; provided, however, that, if the total obtained under subsection F is larger than that obtained under subsection E, the difference shall be deducted from any payment other than a range-building payment which otherwise would be made to the applicant.

Section 2. Deductions for failure to have soil-conserving acreage required with respect to the cotton soil-depleting bases on all farms owned or operated by the applicant in the county. --

A. Determine the applicant's share ¹ of the acreage of soil-conserving crops required with respect to the cotton soil-depleting bases as follows:

1. To the sum of the applicant's share of decreases from the cotton soil-depleting bases or the sum of the applicant's share of maximum diversion from the cotton soil-depleting bases, whichever sum is the smaller, add the sum of the applicant's share of the normal acreage of soil-conserving crops on each farm with a cotton soil-depleting base.

B. For each farm with a cotton soil-depleting base, compute the applicant's share ¹ of the 1937 acreage of soil-conserving crops and total the amounts thus obtained.

C. If the applicant's share of the 1937 acres of soil-conserving crops obtained under subsection B of this section 2, is less than the applicant's share of the acreage of soil-conserving crops required with respect to the cotton soil-depleting bases obtained under subsection A of this section 2, a deduction shall be made from any payment other than a range-building payment which otherwise would be made to the applicant at the rate of \$3.00 for each deficit acre.

Section 3. Non-diversion Farms.

A. The foregoing provisions of this part XI are not applicable to non-diversion farms; provided, however, that any non-diversion farm upon which there has been an increase in the 1937 acreage of soil-depleting crops in excess of the soil-depleting base or 20 acres, whichever is the larger, shall be classified as a diversion farm.

¹ The applicant's share of any payment, deduction, acreage, etc., shall be determined in accordance with the provisions of Part V governing the applicant's share of payment.

Section 4 Determination of Class II Payments.--The amount of class II payment to be made to any person for carrying out approved soil-building practices on all diversion and nondiversion farms owned or operated by such person in the county shall be computed as follows:

A. For each farm multiply the number of acres devoted to an approved soil-building practice by the rate specified for such practice; multiply this result by the percentage to which the applicant is entitled, and total the amounts thus obtained.

B. For each farm compute the applicant's share of the soil-building allowance (without regard to the minimum soil-building allowance) and total the amounts thus obtained.

C. The amount obtained under subsection A of this section 4, not in excess of the amount obtained under subsection B of this section 4 shall, subject to the applicable provisions of this part XI, be the amount of the class II payment to the applicant.

Section 5 Adjustment in Payments.-- In the event that any person who makes application for payment with respect to any diversion farm has an interest as owner or operator in another farm or farms in the same State upon which the aggregate 1937 acreage of soil-depleting crops exceeds the soil-depleting base acreage for such farm or farms, the applicant's share of any payment may, in the discretion of the Secretary, be adjusted to offset such increase in soil-depleting acreage.

IN TESTIMONY WHEREOF, Harry L. Brown Acting Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia. this 31st day of March 1937.

Sec. 2. Rates as Applied to Individual Farms. For any individual farm the rate of payment for diversion from the general soil-depleting base and the rates to be used in computing those portions of the soil-building allowance which vary as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States shall be those rates determined by multiplying the applicable average rate per acre for the county in which the farm is located by the productivity index established for the farm and by dividing the result by 100.

The productivity index for the farm shall be determined on the basis of the farm yield as compared with the county yield of a crop which is generally grown throughout the county or, on such other basis as the Director of the Western Division may authorize for the purpose of obtaining an accurate reflection of the productivity of the cropland on the farm.

The average of the productivity indexes for all farms for which work sheets are filed in a county, weighted by the respective crop acreages for such farms, shall not exceed 100, unless a variance therefrom is recommended by the State Committee and approved by the Agricultural Adjustment Administration.

UNITED STATES DEPARTMENT OF AGRICULTURE
AGRICULTURAL ADJUSTMENT ADMINISTRATION

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

Bulletin No. 101, CALIFORNIA, Part XI

Western Region Bulletin No. 101 - California is hereby supplemented by adding thereto the following part XI.

PART XI. MULTIPLE FARM HOLDINGS

Section 1. Determination of Class I Payment for Diversion.--The amount of class I payment to be made to any person for diversion from the cotton and general soil-depleting bases shall be computed on the basis of the performance on all diversion farms owned or operated by such person in the county as follows:

A. Compute for each such farm the applicant's share ¹ of class I payment with respect to the decrease from the general soil-depleting base and total the amounts thus obtained:

B. Compute for each such farm the applicant's share of deduction with respect to the 1937 acreage of all soil-depleting crops except cotton in excess of the general soil-depleting base, and total the amounts thus obtained:

C. Compute for each such farm the applicant's share of the maximum possible class I payment for diversion from the general soil-depleting base and total the amounts thus obtained:

D. Subtract the total obtained under subsection B from the total obtained under subsection A. The result, not in excess of the amount obtained under subsection C shall, subject to other applicable provisions of this part XI, be the class I payment to the applicant for diversion from the general soil-depleting base; provided, however, that, if the total obtained under subsection B is larger than the total obtained under subsection A, the difference shall be deducted from any payment other than a range-building payment which otherwise would be made to the applicant;

E. Compute for each such farm the applicant's share of the class I payment with respect to the decrease from the cotton soil-depleting base and total the amounts thus obtained;

¹ The applicant's share of any payment, deduction, acreage, etc., shall be determined in accordance with the provisions of part V governing the applicant's share of payment.

F. Compute for each such farm the applicant's share of deduction with respect to the 1937 acreage of cotton in excess of the cotton soil-depleting base and total the amounts thus obtained;

G. Compute for each such farm the applicant's share of the maximum possible class I payment for diversion from the cotton soil-depleting base and total the amounts thus obtained;

H. Subtract the total obtained under subsection F from the total obtained under subsection E. The result, not in excess of the amount obtained under subsection G shall, subject to the applicable provisions of this part XI, be the class I payment to the applicant for diversion from the cotton soil-depleting base; provided, however, that, if the total obtained under subsection F is larger than that obtained under subsection E, the difference shall be deducted from any payment other than a range-building payment which otherwise would be made to the applicant.

Section 2. Deductions for failure to have soil-conserving acreage required with respect to the cotton soil-depleting bases on all farms owned or operated by the applicant in the county. --

A. Determine the applicant's share ¹ of the acreage of soil-conserving crops required with respect to the cotton soil-depleting bases as follows:

1. To the sum of the applicant's share of decreases from the cotton soil-depleting bases or the sum of the applicant's share of maximum diversion from the cotton soil-depleting bases, whichever sum is the smaller, add the sum of the applicant's share of the normal acreage of soil-conserving crops on each farm with a cotton soil-depleting base.

B. For each farm with a cotton soil-depleting base, compute the applicant's share ¹ of the 1937 acreage of soil-conserving crops and total the amounts thus obtained.

C. If the applicant's share of the 1937 acres of soil-conserving crops obtained under subsection B of this section 2, is less than the applicant's share of the acreage of soil-conserving crops required with respect to the cotton soil-depleting bases obtained under subsection A of this section 2, a deduction shall be made from any payment other than a range-building payment which otherwise would be made to the applicant at the rate of \$3.00 for each deficit acre.

Section 3. Non-diversion Farms.

A. The foregoing provisions of this part XI are not applicable to non-diversion farms; provided, however, that any non-diversion farm upon which there has been an increase in the 1937 acreage of soil-depleting crops in excess of the soil-depleting base or 20 acres, whichever is the larger, shall be classified as a diversion farm.

¹ The applicant's share of any payment, deduction, acreage, etc., shall be determined in accordance with the provisions of Part V governing the applicant's share of payment.

Section 4 Determination of Class II Payments.--The amount of class II payment to be made to any person for carrying out approved soil-building practices on all diversion and nondiversion farms owned or operated by such person in the county shall be computed as follows:

A. For each farm multiply the number of acres devoted to an approved soil-building practice by the rate specified for such practice; multiply this result by the percentage to which the applicant is entitled, and total the amounts thus obtained.

B. For each farm compute the applicant's share of the soil-building allowance (without regard to the minimum soil-building allowance) and total the amounts thus obtained.

C. The amount obtained under subsection A of this section 4, not in excess of the amount obtained under subsection B of this section 4 shall, subject to the applicable provisions of this part XI, be the amount of the class II payment to the applicant.

Section 5 Adjustment in Payments.-- In the event that any person who makes application for payment with respect to any diversion farm has an interest as owner or operator in another farm or farms in the same State upon which the aggregate 1937 acreage of soil-depleting crops exceeds the soil-depleting base acreage for such farm or farms, the applicant's share of any payment may, in the discretion of the Secretary, be adjusted to offset such increase in soil-depleting acreage.

IN TESTIMONY WHEREOF, Harry L. Brown Acting Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia. this 31st day of March 1937.

UNITED STATES DEPARTMENT OF AGRICULTURE
AGRICULTURAL ADJUSTMENT ADMINISTRATION

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

Bulletin No. 101 - COLORADO, Part XI

Western Region Bulletin No. 101 - Colorado is hereby supplemented by adding thereto the following part XI.

PART XI. MULTIPLE FARM HOLDINGS

Section 1. Determination of Class I Payment for Diversion.—The amount of class I payment to be made to any person for diversion from the soil-depleting base shall be determined on the basis of the performance on all diversion farms owned or operated by such person in the county as follows:

A. Compute for each such farm the applicant's share¹ of class I payment with respect to the decrease from the soil-depleting base and total the amounts thus obtained;

B. Compute for each such farm the applicant's share of deduction with respect to the 1937 acreage of all soil-depleting crops in excess of the soil-depleting base, and total the amounts thus obtained;

C. Compute for each such farm the applicant's share of the maximum possible class I payment for diversion from the soil-depleting bases respectively and total the amounts thus obtained;

D. Subtract the total obtained under subsection B from the total obtained under subsection A. The result, not in excess of the amount obtained under subsection C shall, subject to other applicable provisions of this part XI, be the class I payment to the applicant for diversion from the soil-depleting base; Provided, however, that, if the total obtained under subsection B is larger than the total obtained under subsection A, the difference shall be deducted from any payment other than a range-building payment which otherwise would be made to the applicant.

Sec 2. Non-diversion Farms.--

A. The foregoing provisions of section 1 of this part XI are not applicable to non-diversion farms, provided, however, that any non-diversion

¹The applicant's share of any payment, deduction, acreage, etc., shall be determined in accordance with the provisions of part V governing the applicant's share of payment.

114
JUN 2 1937

farm upon which there has been an increase in the 1937 acreage of soil-depleting crops in excess of the soil-depleting base or 20 acres, whichever is the larger, shall be considered a diversion farm.

Sec. 3. Determination of Class II Payments. --The amount of class II payment to be made to any person for carrying out approved soil-building practices on all diversion and non-diversion farms owned or operated by such person in the county shall be computed as follows:

A. For each farm multiply the number of acres devoted to an approved soil-building practice by the rate specified for such practice; multiply this result by the percentage to which the applicant is entitled, and total the amounts thus obtained;

B. For each farm compute the applicant's share of the soil-building allowance (without regard to the minimum soil-building allowance) and total the amounts thus obtained;

C. The amount obtained under subsection A of this section 3, not in excess of the amount obtained under subsection B of this section 3 shall, subject to other applicable provisions of this part XI, be the amount of the class II payment to the applicant.

Sec. 4. Adjustment in payments. --In the event that any person who makes application for payment with respect to any diversion farm has an interest as owner or operator in another farm or farms in the same State upon which the aggregate 1937 acreage of soil-depleting crops exceeds the soil-depleting base acreage for such farm or farms, the applicant's share of any payment may, in the discretion of the Secretary, be adjusted to offset such increase in soil-depleting acreage.

IN TESTIMONY WHEREOF, Harry L. Brown
Acting Secretary of Agriculture, has
hereunto set his hand and caused the
official seal of the Department of

UNITED STATES DEPARTMENT OF AGRICULTURE
AGRICULTURAL ADJUSTMENT ADMINISTRATION

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

Bulletin No. 101 - IDAHO, Part XI

Western Region Bulletin No. 101 - Idaho is hereby supplemented by adding thereto the following part XI.

PART XI. MULTIPLE FARM HOLDINGS

Section 1. Determination of Class I Payment for Diversion.---The amount of class I payment to be made to any person for diversion from the soil-depleting base shall be determined on the basis of the performance on all diversion farms owned or operated by such person in the county as follows:

A. Compute for each such farm the applicant's share¹ of class I payment with respect to the decrease from the soil-depleting base and total the amounts thus obtained;

B. Compute for each such farm the applicant's share of deduction with respect to the 1937 acreage of all soil-depleting crops in excess of the soil-depleting base, and total the amounts thus obtained:

C. Compute for each such farm the applicant's share of the maximum possible class I payment for diversion from the soil-depleting bases respectively and total the amounts thus obtained;

D. Subtract the total obtained under subsection B from the total obtained under subsection A. The result, not in excess of the amount obtained under subsection C shall, subject to other applicable provisions of this part XI, be the class I payment to the applicant for diversion from the soil-depleting base; Provided, however, that, if the total obtained under subsection B is larger than the total obtained under subsection A, the difference shall be deducted from any payment other than a range-building payment which otherwise would be made to the applicant.

Sec 2. Non-diversion Farms.---

A. The foregoing provisions of section 1 of this part XI are not applicable to non-diversion farms, provided, however, that any non-diversion

¹The applicant's share of any payment, deduction, acreage, etc., shall be determined in accordance with the provisions of part V governing the applicant's share of payment.

farm upon which there has been an increase in the 1937 acreage of soil-depleting crops in excess of the soil-depleting base or 20 acres, whichever is the larger, shall be considered a diversion farm.

Sec. 3. Determination of Class II Payments. --The amount of class II payment to be made to any person for carrying out approved soil-building practices on all diversion and non-diversion farms owned or operated by such person in the county shall be computed as follows:

A. For each farm multiply the number of acres devoted to an approved soil-building practice by the rate specified for such practice; multiply this result by the percentage to which the applicant is entitled, and total the amounts thus obtained;

B. For each farm compute the applicant's share of the soil-building allowance (without regard to the minimum soil-building allowance) and total the amounts thus obtained;

C. The amount obtained under subsection A of this section 3, not in excess of the amount obtained under subsection B of this section 3 shall, subject to other applicable provisions of this part XI, be the amount of the class II payment to the applicant.

Sec. 4. Adjustment in payments. --In the event that any person who makes application for payment with respect to any diversion farm has an interest as owner or operator in another farm or farms in the same State upon which the aggregate 1937 acreage of soil-depleting crops exceeds the soil-depleting base acreage for such farm or farms, the applicant's share of any payment may, in the discretion of the Secretary, be adjusted to offset such increase in soil-depleting acreage.

IN TESTIMONY WHEREOF, Harry L. Brown
Acting Secretary of Agriculture, has
hereunto set his hand and caused the
official seal of the Department of
Agriculture to be affixed in the city
of Washington, District of Columbia,
this 31st day of March, 1937.

(SEAL)

Sec. 2. Rates as Applied to Individual Farms. For any individual farm the rate of payment for diversion from the general soil-depleting base and the rates to be used in computing those portions of the soil-building allowance which vary as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States shall be those rates determined by multiplying the applicable average rate per acre for the county in which the farm is located by the productivity index established for the farm and by dividing the result by 100.

The productivity index for the farm shall be determined on the basis of the farm yield as compared with the county yield of a crop which is generally grown throughout the county or, on such other basis as the Director of the Western Division may authorize for the purpose of obtaining an accurate reflection of the productivity of the cropland on the farm. The average of the productivity indexes for all farms for which work sheets are filed in a county, weighted by the respective crop acreages for such farms, shall not exceed 100, unless a variance therefrom is recommended by the State Committee and approved by the Agricultural Adjustment Administration.

Issued March 31, 1937

UNITED STATES DEPARTMENT OF AGRICULTURE
AGRICULTURAL ADJUSTMENT ADMINISTRATION

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

Bulletin No. 101 - KANSAS, Part XI

Western Region Bulletin No. 101 - Kansas is hereby supplemented by adding thereto the following Part XI.

PART XI. MULTIPLE FARM HOLDINGS

Section 1. Determination of Class I Payment for Diversion.--The amount of class I payment to be made to any person for diversion from the cotton, tobacco and general soil-depleting bases shall be computed on the basis of the performance on all diversion farms owned or operated by such person in the county as follows:

A. Compute for each such farm the applicant's share^{1/} of class I payment with respect to the decrease from the general soil-depleting base and total the amounts thus obtained;

B. Compute for each such farm the applicant's share of deduction with respect to the 1937 acreage of all soil-depleting crops except cotton and tobacco in excess of the general soil-depleting base, and total the amounts thus obtained;

C. Compute for each such farm the applicant's share of the maximum possible class I payment for diversion from the general soil-depleting base and total the amounts thus obtained;

D. Subtract the total obtained under subsection B from the total obtained under subsection A. The result, not in excess of the amount obtained under subsection C shall, subject to other applicable provisions of this part XI, be the class I payment to the applicant for diversion from the general soil-depleting base; provided, however, that, if the

^{1/} The applicant's share of any payment, deduction, acreage, etc., shall be determined in accordance with the provisions of part V governing the applicant's share of payment.

total obtained under subsection B is larger than the total obtained under subsection A, the difference shall be deducted from any payment other than a range-building payment which otherwise would be made to the applicant;

E. Compute for each such farm the applicant's share of the class I payment with respect to the decrease from the cotton soil-depleting base and total the amounts thus obtained;

F. Compute for each such farm the applicant's share of deduction with respect to the 1937 acreage of cotton in excess of the cotton soil-depleting base and total the amounts thus obtained;

G. Compute for each such farm the applicant's share of the maximum possible class I payment for diversion from the cotton soil-depleting base and total the amounts thus obtained;

H. Subtract the total obtained under subsection F from the total obtained under subsection E. The result, not in excess of the amount obtained under subsection G shall, subject to the applicable provisions of this part XI, be the class I payment to the applicant for diversion from the cotton soil-depleting base; provided, however, that, if the total obtained under subsection F is larger than that obtained under subsection E, the difference shall be deducted from any Payment other than a range-building payment which otherwise would be made to the applicant;

I. Compute for each such farm the applicant's share of the class I payment with respect to the decrease from the tobacco soil-depleting base and total the amounts thus obtained;

J. Compute for each such farm the applicant's share of deduction with respect to the 1937 acreage of tobacco in excess of the tobacco soil-depleting base and total the amounts thus obtained;

K. Compute for each such farm the applicant's share of the maximum possible class I payment for diversion from the tobacco soil-depleting base and total the amounts thus obtained;

L. Subtract the total obtained under subsection J from the total obtained under subsection I. The result, not in excess of the amount obtained under subsection K shall, subject to the applicable provisions of this part XI, be the class I payment to the applicant for diversion from the tobacco soil-depleting base; provided, however, that if the total obtained under subsection J is larger than that obtained

under subsection I, the difference shall be deducted from any payment other than a range-building payment which otherwise would be made to the applicant.

Section 2. Deductions for failure to have soil-conserving acreage required with respect to the cotton and tobacco soil-depleting bases on all farms owned or operated by the applicant in the county.--

A. Determine the applicant's share $\frac{1}{2}$ of the acreage of soil-conserving crops with respect to the cotton and tobacco soil-depleting bases as follows:

1. To the sum of the applicant's share of the normal acreage of soil-conserving crops on each farm with a cotton or tobacco soil-depleting base add -
 - a. The sum of the applicant's share of decrease from the cotton soil-depleting bases or the sum of the applicant's share of maximum diversion from the cotton soil-depleting bases, whichever is smaller, and
 - b. The sum of the applicant's share of decrease from the tobacco soil-depleting bases or the sum of the applicant's share of maximum diversion from the tobacco soil-depleting bases, whichever is smaller.

B. For each farm with a cotton or tobacco soil-depleting base, compute the applicant's share $\frac{1}{2}$ of the 1937 acreage of soil-conserving crops and total the amounts thus obtained.

C. If the applicant's share of the 1937 acres of soil-conserving crops obtained under subsection B of this section 2, is less than the applicant's share of the acreage of soil-conserving crops required with respect to the cotton and tobacco depleting bases obtained under subsection A of this section 2, a deduction shall be made from any payment other than a range-building payment which otherwise would be made to the applicant at the rate of \$3.00 for each deficit acre.

Section 3. Non-diversion Farms.--

A. The foregoing provisions of this part XI are not applicable to non-diversion farms; provided, however, that any non-diversion farm upon which there has been an increase in the 1937 acreage of soil-depleting crops in excess of the

$\frac{1}{2}$ The applicant's share of any payment, deduction, acreage, etc., shall be determined in accordance with the provisions of Part V governing the applicant's share of payment.

soil-depleting base or 20 acres, whichever is the larger, shall be classified as a diversion farm.

Section 4. Determination of Class II Payments.-- The amount of class II payment to be made to any person for carrying out approved soil-building practices on all diversion and non-diversion farms owned or operated by such person in the county shall be computed as follows:

A. For each farm multiply the number of acres devoted to an approved soil-building practice by the rate specified for such practice; multiply this result by the percentage to which the applicant is entitled, and total the amounts thus obtained.

B. For each farm compute the applicant's share of the soil-building allowance (without regard to the minimum soil-building allowance) and total the amounts thus obtained.

C. The amount obtained under subsection A of this section 4, not in excess of the amount obtained under subsection B of this section 4 shall, subject to the applicable provisions of this part XI, be the amount of the class II payment to the applicant.

Section 5. Adjustment in Payments.-- In the event that any person who makes application for payment with respect to any diversion farm has an interest as owner or operator in another farm or farms in the same State upon which the aggregate 1937 acreage of soil-depleting crops exceeds the soil-depleting base acreage for such farm or farms, the applicant's share of any payment may, in the discretion of the Secretary, be adjusted to offset such increase in soil-depleting acreage.

[SEAL]

IN TESTIMONY WHEREOF, Harry L. Brown, Acting Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 31st day of March, 1937.

Harry L. Brown

Acting Secretary of Agriculture.

UNITED STATES DEPARTMENT OF AGRICULTURE
AGRICULTURAL ADJUSTMENT ADMINISTRATION

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

Bulletin No. 101 - MONTANA, Part XI

Western Region Bulletin No. 101 - Montana is hereby supplemented by adding thereto the following part XI.

PART XI. MULTIPLE FARM HOLDINGS

Section 1. Determination of Class I Payment for Diversion.---The amount of class I payment to be made to any person for diversion from the soil-depleting base shall be determined on the basis of the performance on all diversion farms owned or operated by such person in the county as follows:

A. Compute for each such farm the applicant's share¹ of class I payment with respect to the decrease from the soil-depleting base and total the amounts thus obtained;

B. Compute for each such farm the applicant's share of deduction with respect to the 1937 acreage of all soil-depleting crops in excess of the soil-depleting base, and total the amounts thus obtained:

C. Compute for each such farm the applicant's share of the maximum possible class I payment for diversion from the soil-depleting bases respectively and total the amounts thus obtained;

D. Subtract the total obtained under subsection B from the total obtained under subsection A. The result, not in excess of the amount obtained under subsection C shall, subject to other applicable provisions of this part XI, be the class I payment to the applicant for diversion from the soil-depleting base; Provided, however, that, if the total obtained under subsection B is larger than the total obtained under subsection A, the difference shall be deducted from any payment other than a range-building payment which otherwise would be made to the applicant.

Sec 2. Non-diversion Farms.---

A. The foregoing provisions of section 1 of this part XI are not applicable to non-diversion farms, provided, however, that any non-diversion

¹The applicant's share of any payment, deduction, acreage, etc., shall be determined in accordance with the provisions of part V governing the applicant's share of payment.

1252
B
JUN 7
1937

farm upon which there has been an increase in the 1937 acreage of soil-depleting crops in excess of the soil-depleting base or 20 acres, whichever is the larger, shall be considered a diversion farm.

Sec. 3. Determination of Class II Payments.---The amount of class II payment to be made to any person for carrying out approved soil-building practices on all diversion and non-diversion farms owned or operated by such person in the county shall be computed as follows:

A. For each farm multiply the number of acres devoted to an approved soil-building practice by the rate specified for such practice; multiply this result by the percentage to which the applicant is entitled, and total the amounts thus obtained;

B. For each farm compute the applicant's share of the soil-building allowance (without regard to the minimum soil-building allowance) and total the amounts thus obtained;

C. The amount obtained under subsection A of this section 3, not in excess of the amount obtained under subsection B of this section 3 shall, subject to other applicable provisions of this part XI, be the amount of the class II payment to the applicant.

Sec. 4. Adjustment in payments. --In the event that any person who makes application for payment with respect to any diversion farm has an interest as owner or operator in another farm or farms in the same State upon which the aggregate 1937 acreage of soil-depleting crops exceeds the soil-depleting base acreage for such farm or farms, the applicant's share of any payment may, in the discretion of the Secretary, be adjusted to offset such increase in soil-depleting acreage.

IN TESTIMONY WHEREOF, Harry L. Brown
Acting Secretary of Agriculture, has
hereunto set his hand and caused the
official seal of the Department of
Agriculture to be affixed in the city
of Washington, District of Columbia,
this 31st day of March, 1937.

Sec. 2. Rates as Applied to Individual Farms. For any individual farm the rate of payment for diversion from the soil-depleting base and the rates to be used in computing those portions of the soil-building allowance which vary as the productivity of the cropland on the farm varies from the average

productivity of all such cropland in the United States shall be those rates determined by multiplying the applicable average rate per acre for the county in which the farm is located by the productivity index established for the farm and by dividing the result by 100.

The productivity index for the farm shall be determined on the basis of the farm yield as compared with the county yield of a crop which is generally grown throughout the county or, on such other basis as the Director of the Western Division may authorize for the purpose of obtaining an accurate reflection of the productivity of the cropland on the farm. The average of the productivity indexes for all farms for which work sheets are filed in a county, weighted by the respective crop acreages for such farms, shall not exceed 100, unless a variance therefrom is recommended by the State Committee and approved by the Agricultural Adjustment Administration.

UNITED STATES DEPARTMENT OF AGRICULTURE
AGRICULTURAL ADJUSTMENT ADMINISTRATION

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

Bulletin No. 101, NEW MEXICO, Part XI

Western Region Bulletin No. 101 - New Mexico is hereby supplemented by adding thereto the following part XI.

PART XI. MULTIPLE FARM HOLDINGS

Section 1. Determination of Class I Payment for Diversion.--The amount of class I payment to be made to any person for diversion from the cotton and general soil-depleting bases shall be computed on the basis of the performance on all diversion farms owned or operated by such person in the county as follows:

A. Compute for each such farm the applicant's share ¹ of class I payment with respect to the decrease from the general soil-depleting base and total the amounts thus obtained:

B. Compute for each such farm the applicant's share of deduction with respect to the 1937 acreage of all soil-depleting crops except cotton in excess of the general soil-depleting base, and total the amounts thus obtained:

C. Compute for each such farm the applicant's share of the maximum possible class I payment for diversion from the general soil-depleting base and total the amounts thus obtained:

D. Subtract the total obtained under subsection B from the total obtained under subsection A. The result, not in excess of the amount obtained under subsection C shall, subject to other applicable provisions of this part XI, be the class I payment to the applicant for diversion from the general soil-depleting base; provided, however, that, if the total obtained under subsection B is larger than the total obtained under subsection A, the difference shall be deducted from any payment other than a range-building payment which otherwise would be made to the applicant;

E. Compute for each such farm the applicant's share of the class I payment with respect to the decrease from the cotton soil-depleting base and total the amounts thus obtained;

¹ The applicant's share of any payment, deduction, acreage, etc., shall be determined in accordance with the provisions of part V governing the applicant's share of payment.

F. Compute for each such farm the applicant's share of deduction with respect to the 1937 acreage of cotton in excess of the cotton soil-depleting base and total the amounts thus obtained;

G. Compute for each such farm the applicant's share of the maximum possible class I payment for diversion from the cotton soil-depleting base and total the amounts thus obtained;

H. Subtract the total obtained under subsection F from the total obtained under subsection E. The result, not in excess of the amount obtained under subsection G shall, subject to the applicable provisions of this part XI, be the class I payment to the applicant for diversion from the cotton soil-depleting base; provided, however, that, if the total obtained under subsection F is larger than that obtained under subsection E, the difference shall be deducted from any payment other than a range-building payment which otherwise would be made to the applicant.

Section 2. Deductions for failure to have soil-conserving acreage required with respect to the cotton soil-depleting bases on all farms owned or operated by the applicant in the county. --

A. Determine the applicant's share ¹ of the acreage of soil-conserving crops required with respect to the cotton soil-depleting bases as follows:

1. To the sum of the applicant's share of decreases from the cotton soil-depleting bases or the sum of the applicant's share of maximum diversion from the cotton soil-depleting bases, whichever sum is the smaller, add the sum of the applicant's share of the normal acreage of soil-conserving crops on each farm with a cotton soil-depleting base.

B. For each farm with a cotton soil-depleting base, compute the applicant's share ¹ of the 1937 acreage of soil-conserving crops and total the amounts thus obtained.

C. If the applicant's share of the 1937 acres of soil-conserving crops obtained under subsection B of this section 2, is less than the applicant's share of the acreage of soil-conserving crops required with respect to the cotton soil-depleting bases obtained under subsection A of this section 2, a deduction shall be made from any payment other than a range-building payment which otherwise would be made to the applicant at the rate of \$3.00 for each deficit acre.

Section 3. Non-diversion Farms.

A. The foregoing provisions of this part XI are not applicable to non-diversion farms; provided, however, that any non-diversion farm upon which there has been an increase in the 1937 acreage of soil-depleting crops in excess of the soil-depleting base or 20 acres, whichever is the larger, shall be classified as a diversion farm.

¹ The applicant's share of any payment, deduction, acreage, etc., shall be determined in accordance with the provisions of Part V governing the applicant's share of payment.

Section 4 Determination of Class II Payments.--The amount of class II payment to be made to any person for carrying out approved soil-building practices on all diversion and nondiversion farms owned or operated by such person in the county shall be computed as follows:

A. For each farm multiply the number of acres devoted to an approved soil-building practice by the rate specified for such practice; multiply this result by the percentage to which the applicant is entitled, and total the amounts thus obtained.

B. For each farm compute the applicant's share of the soil-building allowance (without regard to the minimum soil-building allowance) and total the amounts thus obtained.

C. The amount obtained under subsection A of this section 4, not in excess of the amount obtained under subsection B of this section 4 shall, subject to the applicable provisions of this part XI, be the amount of the class II payment to the applicant.

Section 5 Adjustment in Payments.-- In the event that any person who makes application for payment with respect to any diversion farm has an interest as owner or operator in another farm or farms in the same State upon which the aggregate 1937 acreage of soil-depleting crops exceeds the soil-depleting base acreage for such farm or farms, the applicant's share of any payment may, in the discretion of the Secretary, be adjusted to offset such increase in soil-depleting acreage.

IN TESTIMONY WHEREOF, Harry L. Brown Acting Secretary of Agriculture, has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia. this 31st day of March 1937.

Williams	3.80	2.55	.51

Sec. 2. Rates as Applied to Individual Farms. For any individual farm the rate of payment for diversion from the soil-depleting base and the rates to be used in computing those portions of the soil-building allowance which vary as the productivity of the cropland on the farm varies from the average productivity of all such cropland in the United States shall be those rates determined by multiplying the applicable average rate per acre for the county in which the farm is located by the productivity index established for the farm and by dividing the result by 100.

The productivity index for the farm shall be determined on the basis of the farm yield as compared with the county yield of a crop which is generally grown throughout the county or, on such other basis as the Director of the Western Division may authorize for the purpose of obtaining an accurate reflection of the productivity of the cropland on the farm. The average of the productivity indexes for all farms for which work sheets are filed in a county, weighted by the respective crop acreages for such farms, shall not exceed 100, unless a variance therefrom is recommended by the State Committee and approved by the Agricultural Adjustment Administration.

IN TESTIMONY WHEREOF, H. A. Wallace,
Secretary of Agriculture, has hereunto
set his hand and caused the official
seal of the Department of Agriculture
to be affixed in the City of Washington,
District of Columbia, this 9th day of
February, 1937.

H A Wallace

Secretary of Agriculture.

UNITED STATES DEPARTMENT OF AGRICULTURE
AGRICULTURAL ADJUSTMENT ADMINISTRATION

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

Bulletin No. 101 - NORTH DAKOTA, Part XI

Western Region Bulletin No. 101 - North Dakota is hereby supplemented by adding thereto the following part XI.

PART XI. MULTIPLE FARM HOLDINGS

Section 1. Determination of Class I Payment for Diversion.--The amount of class I payment to be made to any person for diversion from the soil-depleting base shall be determined on the basis of the performance on all diversion farms owned or operated by such person in the county as follows:

A. Compute for each such farm the applicant's share¹ of class I payment with respect to the decrease from the soil-depleting base and total the amounts thus obtained;

B. Compute for each such farm the applicant's share of deduction with respect to the 1937 acreage of all soil-depleting crops in excess of the soil-depleting base, and total the amounts thus obtained:

C. Compute for each such farm the applicant's share of the maximum possible class I payment for diversion from the soil-depleting bases respectively and total the amounts thus obtained;

D. Subtract the total obtained under subsection B from the total obtained under subsection A. The result, not in excess of the amount obtained under subsection C shall, subject to other applicable provisions of this part XI, be the class I payment to the applicant for diversion from the soil-depleting base; Provided, however, that, if the total obtained under subsection B is larger than the total obtained under subsection A, the difference shall be deducted from any payment other than a range-building payment which otherwise would be made to the applicant.

Sec 2. Non-diversion Farms.--

A. The foregoing provisions of section 1 of this part XI are not applicable to non-diversion farms, provided, however, that any non-diversion

¹The applicant's share of any payment, deduction, acreage, etc., shall be determined in accordance with the provisions of part V governing the applicant's share of payment.

farm upon which there has been an increase in the 1937 acreage of soil-depleting crops in excess of the soil-depleting base or 20 acres, whichever is the larger, shall be considered a diversion farm.

Sec. 3. Determination of Class II Payments.---The amount of class II payment to be made to any person for carrying out approved soil-building practices on all diversion and non-diversion farms owned or operated by such person in the county shall be computed as follows:

A. For each farm multiply the number of acres devoted to an approved soil-building practice by the rate specified for such practice; multiply this result by the percentage to which the applicant is entitled, and total the amounts thus obtained;

B. For each farm compute the applicant's share of the soil-building allowance (without regard to the minimum soil-building allowance) and total the amounts thus obtained;

C. The amount obtained under subsection A of this section 3, not in excess of the amount obtained under subsection B of this section 3 shall, subject to other applicable provisions of this part XI, be the amount of the class II payment to the applicant.

Sec. 4. Adjustment in payments. --In the event that any person who makes application for payment with respect to any diversion farm has an interest as owner or operator in another farm or farms in the same State upon which the aggregate 1937 acreage of soil-depleting crops exceeds the soil-depleting base acreage for such farm or farms, the applicant's share of any payment may, in the discretion of the Secretary, be adjusted to offset such increase in soil-depleting acreage.

IN TESTIMONY WHEREOF, Harry L. Brown
Acting Secretary of Agriculture, has
hereunto set his hand and caused the
official seal of the Department of
Agriculture to be affixed in the City
of Washington, District of Columbia,
this 31st day of March, 1937.

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

Bulletin No. 101 - OREGON, Part XI

Western Region Bulletin No. 101 - Oregon is hereby supplemented by adding thereto the following part XI.

PART XI. MULTIPLE FARM HOLDINGS

Section 1. Determination of Class I Payment for Diversion.---The amount of class I payment to be made to any person for diversion from the soil-depleting base shall be determined on the basis of the performance on all diversion farms owned or operated by such person in the county as follows:

A. Compute for each such farm the applicant's share¹ of class I payment with respect to the decrease from the soil-depleting base and total the amounts thus obtained;

B. Compute for each such farm the applicant's share of deduction with respect to the 1937 acreage of all soil-depleting crops in excess of the soil-depleting base, and total the amounts thus obtained:

C. Compute for each such farm the applicant's share of the maximum possible class I payment for diversion from the soil-depleting bases respectively and total the amounts thus obtained;

D. Subtract the total obtained under subsection B from the total obtained under subsection A. The result, not in excess of the amount obtained under subsection C shall, subject to other applicable provisions of this part XI, be the class I payment to the applicant for diversion from the soil-depleting base; Provided, however, that, if the total obtained under subsection B is larger than the total obtained under subsection A, the difference shall be deducted from any payment other than a range-building payment which otherwise would be made to the applicant.

Sec 2. Non-diversion Farms.---

A. The foregoing provisions of section 1 of this part XI are not applicable to non-diversion farms, provided, however, that any non-diversion

¹The applicant's share of any payment, deduction, acreage, etc., shall be determined in accordance with the provisions of part V governing the applicant's share of payment.

farm upon which there has been an increase in the 1937 acreage of soil-depleting crops in excess of the soil-depleting base or 20 acres, whichever is the larger, shall be considered a diversion farm.

Sec. 3. Determination of Class II Payments.--The amount of class II payment to be made to any person for carrying out approved soil-building practices on all diversion and non-diversion farms owned or operated by such person in the county shall be computed as follows:

A. For each farm multiply the number of acres devoted to an approved soil-building practice by the rate specified for such practice; multiply this result by the percentage to which the applicant is entitled, and total the amounts thus obtained;

B. For each farm compute the applicant's share of the soil-building allowance (without regard to the minimum soil-building allowance) and total the amounts thus obtained;

C. The amount obtained under subsection A of this section 3, not in excess of the amount obtained under subsection B of this section 3 shall, subject to other applicable provisions of this part XI, be the amount of the class II payment to the applicant.

Sec. 4. Adjustment in payments. --In the event that any person who makes application for payment with respect to any diversion farm has an interest as owner or operator in another farm or farms in the same State upon which the aggregate 1937 acreage of soil-depleting crops exceeds the soil-depleting base acreage for such farm or farms, the applicant's share of any payment may, in the discretion of the Secretary, be adjusted to offset such increase in soil-depleting acreage.

IN TESTIMONY WHEREOF, Harry L. Brown
Acting Secretary of Agriculture, has
hereunto set his hand and caused the
official seal of the Department of
Agriculture to be affixed in the city
of Washington, District of Columbia,

Bulletin No. 101 - UTAH, Part XI

Western Region Bulletin No. 101 - Utah is hereby supplemented by adding thereto the following part XI.

PART XI. MULTIPLE FARM HOLDINGS

Section 1. Determination of Class I Payment for Diversion.--The amount of class I payment to be made to any person for diversion from the soil-depleting base shall be determined on the basis of the performance on all diversion farms owned or operated by such person in the county as follows:

A. Compute for each such farm the applicant's share¹ of class I payment with respect to the decrease from the soil-depleting base and total the amounts thus obtained;

B. Compute for each such farm the applicant's share of deduction with respect to the 1937 acreage of all soil-depleting crops in excess of the soil-depleting base, and total the amounts thus obtained:

C. Compute for each such farm the applicant's share of the maximum possible class I payment for diversion from the soil-depleting bases respectively and total the amounts thus obtained;

D. Subtract the total obtained under subsection B from the total obtained under subsection A. The result, not in excess of the amount obtained under subsection C shall, subject to other applicable provisions of this part XI, be the class I payment to the applicant for diversion from the soil-depleting base; Provided, however, that, if the total obtained under subsection B is larger than the total obtained under subsection A, the difference shall be deducted from any payment other than a range-building payment which otherwise would be made to the applicant.

Sec 2. Non-diversion Farms.--

A. The foregoing provisions of section 1 of this part XI are not applicable to non-diversion farms, provided, however, that any non-diversion

¹The applicant's share of any payment, deduction, acreage, etc., shall be determined in accordance with the provisions of part V governing the applicant's share of payment.

1937 AGRICULTURAL CONSERVATION PROGRAM -- WESTERN REGION

Bulletin No. 101 - WASHINGTON, Part XI

Western Region Bulletin No. 101 - Washington is hereby supplemented by adding thereto the following part XI.

PART XI. MULTIPLE FARM HOLDINGS

Section 1. Determination of Class I Payment for Diversion.--The amount of class I payment to be made to any person for diversion from the soil-depleting base shall be determined on the basis of the performance on all diversion farms owned or operated by such person in the county as follows:

A. Compute for each such farm the applicant's share¹ of class I payment with respect to the decrease from the soil-depleting base and total the amounts thus obtained;

B. Compute for each such farm the applicant's share of deduction with respect to the 1937 acreage of all soil-depleting crops in excess of the soil-depleting base, and total the amounts thus obtained:

C. Compute for each such farm the applicant's share of the maximum possible class I payment for diversion from the soil-depleting bases respectively and total the amounts thus obtained;

D. Subtract the total obtained under subsection B from the total obtained under subsection A. The result, not in excess of the amount obtained under subsection C shall, subject to other applicable provisions of this part XI, be the class I payment to the applicant for diversion from the soil-depleting base; Provided, however, that, if the total obtained under subsection B is larger than the total obtained under subsection A, the difference shall be deducted from any payment other than a range-building payment which otherwise would be made to the applicant.

Sec 2. Non-diversion Farms.--

A. The foregoing provisions of section 1 of this part XI are not applicable to non-diversion farms, provided, however, that any non-diversion

¹The applicant's share of any payment, deduction, acreage, etc., shall be determined in accordance with the provisions of part V governing the applicant's share of payment.

farm upon which there has been an increase in the 1937 acreage of soil-depleting crops in excess of the soil-depleting base or 20 acres, whichever is the larger, shall be considered a diversion farm.

Sec. 3. Determination of Class II Payments.---The amount of class II payment to be made to any person for carrying out approved soil-building practices on all diversion and non-diversion farms owned or operated by such person in the county shall be computed as follows:

A. For each farm multiply the number of acres devoted to an approved soil-building practice by the rate specified for such practice; multiply this result by the percentage to which the applicant is entitled, and total the amounts thus obtained;

B. For each farm compute the applicant's share of the soil-building allowance (without regard to the minimum soil-building allowance) and total the amounts thus obtained;

C. The amount obtained under subsection A of this section 3, not in excess of the amount obtained under subsection B of this section 3 shall, subject to other applicable provisions of this part XI, be the amount of the class II payment to the applicant.

Sec. 4. Adjustment in payments. --In the event that any person who makes application for payment with respect to any diversion farm has an interest as owner or operator in another farm or farms in the same State upon which the aggregate 1937 acreage of soil-depleting crops exceeds the soil-depleting base acreage for such farm or farms, the applicant's share of any payment may, in the discretion of the Secretary, be adjusted to offset such increase in soil-depleting acreage.

IN TESTIMONY WHEREOF, Harry L. Brown
Acting Secretary of Agriculture, has
hereunto set his hand and caused the
official seal of the Department of
Agriculture to be affixed in the city
of Washington, District of Columbia,
this 31st day of March, 1937.

Acting Secretary of Agriculture.

UNITED STATES DEPARTMENT OF AGRICULTURE
AGRICULTURAL ADJUSTMENT ADMINISTRATION

1937 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

Bulletin No. 101 - WYOMING, Part XI

Western Region Bulletin No. 101 - Wyoming is hereby supplemented by adding thereto the following part XI.

PART XI. MULTIPLE FARM HOLDINGS

Section 1. Determination of Class I Payment for Diversion.---The amount of class I payment to be made to any person for diversion from the soil-depleting base shall be determined on the basis of the performance on all diversion farms owned or operated by such person in the county as follows:

A. Compute for each such farm the applicant's share¹ of class I payment with respect to the decrease from the soil-depleting base and total the amounts thus obtained;

B. Compute for each such farm the applicant's share of deduction with respect to the 1937 acreage of all soil-depleting crops in excess of the soil-depleting base, and total the amounts thus obtained;

C. Compute for each such farm the applicant's share of the maximum possible class I payment for diversion from the soil-depleting bases respectively and total the amounts thus obtained;

D. Subtract the total obtained under subsection B from the total obtained under subsection A. The result, not in excess of the amount obtained under subsection C shall, subject to other applicable provisions of this part XI, be the class I payment to the applicant for diversion from the soil-depleting base; Provided, however, that, if the total obtained under subsection B is larger than the total obtained under subsection A, the difference shall be deducted from any payment other than a range-building payment which otherwise would be made to the applicant.

Sec 2. Non-diversion Farms.---

A. The foregoing provisions of section 1 of this part XI are not applicable to non-diversion farms, provided, however, that any non-diversion

¹The applicant's share of any payment, deduction, acreage, etc., shall be determined in accordance with the provisions of part V governing the applicant's share of payment.

farm upon which there has been an increase in the 1937 acreage of soil-depleting crops in excess of the soil-depleting base or 20 acres, whichever is the larger, shall be considered a diversion farm.

Sec. 3. Determination of Class II Payments. --The amount of class II payment to be made to any person for carrying out approved soil-building practices on all diversion and non-diversion farms owned or operated by such person in the county shall be computed as follows:

A. For each farm multiply the number of acres devoted to an approved soil-building practice by the rate specified for such practice; multiply this result by the percentage to which the applicant is entitled, and total the amounts thus obtained;

B. For each farm compute the applicant's share of the soil-building allowance (without regard to the minimum soil-building allowance) and total the amounts thus obtained;

C. The amount obtained under subsection A of this section 3, not in excess of the amount obtained under subsection B of this section 3 shall, subject to other applicable provisions of this part XI, be the amount of the class II payment to the applicant.

Sec. 4. Adjustment in payments. --In the event that any person who makes application for payment with respect to any diversion farm has an interest as owner or operator in another farm or farms in the same State upon which the aggregate 1937 acreage of soil-depleting crops exceeds the soil-depleting base acreage for such farm or farms, the applicant's share of any payment may, in the discretion of the Secretary, be adjusted to offset such increase in soil-depleting acreage.
